Low Vision Playing Cards

In three enormous sizes, makes including people with low vision in card games easier

Shuffling cards keeps hands occupied, like a fidget toy. Traditional games like card games encourage turn-taking, coping with losing, competitive play, social skills and making time for leisure. These large cards are excellent for those with manual, visual and dexterity problems, and are wonderful for group activities. All are 'proper' cards so appropriate for all ages.

Low Vision Cards

Normal size cards, but pictures and card suit symbols have been replaced with 5cm high x 2.5cm wide numbers and letters. Each suit is colour-coded to aid recognition. Includes set of 2 decks.

Mammoth Cards

Extra large playing cards for fun and games for all ages. Size: 28 x 20.5cm.

Colossal Cards

Colossal cards are positively humungous! Size: 37 x 26cm

- Panning of a still image is possible via navigation buttons or the intuitive touch screen.
- Memorises favourite settings: colour, zoom, brightness, button beeps etc.
- Can connect to a TV via HDMI and includes a reading stand and handle.
- Includes distance view function

Transformer HD OCR Electronic Magnifier

Powerful magnifier and OCR text-to-speech reader

A high-performance portable electronic magnifier used for reading printed documents and viewing distance information such as the white board in a classroom, or faces across the room. With a full HD 3-in-1 camera it offers USB 3.0 to connect to your laptop or desktop computer, built-in Wi-Fi for tablet connectivity and HDMI for direct connection to a monitor. Transformer HD is compatible with popular screen magnification software. The optional OCR converts printed documents to text spoken by male or female premium voices. Reading preview lets you read the entire page or use your cursor to select where to begin reading.

- 4 desktop positions available: left, right, forward and upright
- Magnification up to 30x on 24" LCD
- 32 viewing modes to optimise contrast and brightness
- Connect via HDMI, USB 3.0 or Wi-Fi
- Work in full or split screen mode
- Removable legs for suction base option
- Record and save videos for later playback
- Optional speech feedback using optical character recognition
- Built-in LED lighting for viewing objects or crafts
- Lightweight at 1.5 kg, foldable to 34x12x12 cm
- 2 hour minimum removable battery with internal charger (spare battery and external charger also included)
- Carrying case included
- 2 year warranty
- Adjustable magnification and colour viewing modes in OCR
- Multiple language recognition
- Save and recall documents, pictures, and export files to your computer

ZoomText Magnifier / Reader

Magnification and screen reading software

ZoomText Magnifier/Reader is a fully integrated magnification and screen reading program that enlarges, enhances and reads aloud everything on the computer screen. Offers crystal clear Font magnification, customisable enhancements to on-screen colours, pointers, and cursors, complete screen reading, easy to use document reading tools, and so much more.

ZoomText reads your documents, web pages and emails, through your computer's speakers. The ZoomText Recorder allows you to turn text from documents, internet, email, etc. into audio recordings that you can transfer to on your mobile device and listen to at your convenience. Recordings can be saved directly to a ZoomText Recorder playlist in iTunes or Windows Media Player and automatically synced to your mobile device. Each key or word that you type is automatically spoken. You can choose to have all keys spoken or only selected groups of keys.

Mouse echo function reads text that you point to. Single words or complete lines of text are spoken instantly or after hovering briefly. The SpeakIt tool allows you to read selected areas of the screen by clicking or dragging the mouse. Support for many popular applications like Internet Explorer (IE 10 supported in ZoomText 10.1 for Windows 8), Microsoft Office (Word, Excel, Outlook; Office 2013 is supported in ZoomText 10.1), Adobe, Firefox, OpenOffice, iTunes and Java – allow you to read and navigate your documents with 100% accuracy. A USB version is an option for users who would like to use ZoomText on many PC's but do not want to purchase ZoomText for all these PC's.

Onyx Deskset 22" HD Magnifier

Magnify across the room or close up, for clarity in all your tasks

A portable video magnifier for productivity at school, work, and at home. The sleek design integrates a high-definition camera and monitor, to let you clearly see what you want to, with the camera rotating in all three directions. The 3-in-1 flexible camera provides document reading, distance viewing, and self-viewing modes. Easily transported using the rolling trolley case for use at another location. In distance view, even objects from across large rooms or auditoriums can be seen in sharp focus. Document view gives you the ability to magnify items such as reading materials, daily business tasks, classroom assignments, product labels, and craft projects. With self view, you get a magnified true mirror image close up.

- Magnification up to 125 times the original size, depending on monitor.
- 33 color modes including high-contrast, true-color, and grayscale to fit your viewing needs.
- Freeze Frame allows you to freeze the image on the screen for close inspection of small objects or to keep your place.
- Focus Lock to keep the camera focused on the paper while writing.
- Keep your place easily with the adjustable Reading Lines, Masks, and Shades. Remote control included.

Topaz XL HD Document Magnifier

Desktop magnifier with optional text-to-speech reading

TOPAZ XL is easy to use, providing a clear, crisp picture with your choice of magnification. Its streamlined design and ergonomic controls provide exceptional reading comfort for hours of use. Easy-to-use, high quality widescreen video magnifiers with a clear, crisp image and more magnified text on the screen. A large LED illuminated work surface and a camera that is 8.25 inches above the table provide ample room for reading, writing, or enjoying hobbies.

- Topaz models are available in 20", 22" or 24" models.
- Magnification up to 67x.
- Freeze Frame, Focus Lock, Find feature, and Position Locator.
- Directed LED lighting for a bright work surface without glare. 8.25 inches of workspace under the camera.
- 30 high-contrast text color modes plus true color and enhanced full color.
- Masking and Reading Lines.
- PC connectivity (on XL & XL HD models).
- Add OCR capabilities and PC connectivity when you install GEM and OpenBook Scanning and Reading Software.
