TimeCue

Easily encourages independence

An excellent memory aid for people with dementia or for people with learning difficulties. This device allows you to record a single message and set the clock to play back at a pre-set times.

For example, record "Time to take your medication" and set the clock to play the message at 7a.m. Requires a pen tip to record, so messages will not easily be erased or mis-recorded.

Features a digital clock, and the messages are not lost even if the batteries run low. TimeCue is light, sleek and folds flat to fit neatly in your pocket or purse. An easy and effective way to encourage independence at school, home or in the community.

Dimensions 6.4 x 11 x 1.6 cm
Single Message, 10 Seconds
16 Minutes Recording Total
Fits into pocket, Clip-on holder included
Requires 2 x AA batteries (Included)

VoiceCue

Timed Voice reminders when you need them most

An excellent memory aid for people with dementia or for people with learning difficulties. This device allows you to record up to five messages and set the clock to play back messages at pre-set times.

Each message can be assigned two playback times. For example, record "Time to take your medication" and set the clock to play the message at 7 a.m. and again at 6 p.m. If the message catches you off guard and you're not sure what it said, just press the "replay" button within one minute to repeat the last message. Change messages or play time anytime you want.

Requires a pen tip to record, so messages will not easily be erased or mis-recorded. Features a digital clock, volume control, and non-volatile memory (the messages are not lost even if the batteries run low).

Dimensions 6.4 x 11 x 1.6 cm
5 Messages, 12 Seconds Each
60 Seconds Recording Total
Each message can play back at two set times
Clip-on holder included
Requires 2 x AA batteries (Included)

Multi-Memo Voice Recorder

Memory aid, educational tool, speech aid...

Multi-Memo is a low cost yet highly useful recording tool. It can play back multiple messages. Up to 60 voice messages can be saved. You can play back each message one at a time by using the skip forward and skip backward buttons. Individual messages can be deleted when required. A lock switch allows you to protect your messages from being accidentally erased.

Educational Tool

As an educational tool it is great for providing instructions, or recorded test questions for those with reading difficulties. Use it for talking treasure hunts – listen and follow directions to encourage problem solving and reinforce understanding of prepositions.

Memory / Learning Difficulties Aid

Record reminders, the steps to follow in an independent activity etc.

Autism and Speech Therapy Tool

You can use it to record sentences, practice pace, pitch and develop awareness of tone, intonation and emotion.

Dimensions 8 x 1.5cm
Compact - fits into a small hand
Up to 60 Messages
6 Minutes Recording Total
Includes necklace carry strap
Requires 3 x LR44 batteries (Included)

Listen To Me

An affordable, simple communication aid

An affordable communication and memory aid with good sound quality. You can record high quality voice messages of reminders, familiar phrases, personal narrative, stories, memories, requests etc.

Each button has a clear 2.5cm square sleeve on top for symbols or pictures. Listen To Me is lightweight and portable. It comes with its own carry case which acts as a moisture guard, and can be carried by handle or shoulder strap. The unit has a jack for an audio input lead (supplied) so that you can record direct from CD or tape. Tip: record on the lowest volume setting and playback at one of three volume levels.

Dimensions 17.8 x 12.7 x 2.5cm
Button size 2.5cm
12 Buttons, 10 Seconds per Button
Carry Case / Moisture Guard Included
Weight 0.22kg
Requires 3 x AA batteries (Included)
Power cable supplied for AC use if necessary

Precious Pets

A soothing, easy-to-care for companion for people with memory or learning impairments

Life-like, "breathing" little bundles of joy. These pets offer the best of owning an animal without the hassle or continual expense. The pets are very realistic. They are life-size, carefully weighted to feel like a real small animal, and 'breathe' too - the back subtly rises and falls as if softly napping. The pet can be picked up out of its basket and placed on the lap. Perfect for those who find the repetitive movement of stroking or brushing a pet calming and soothing. Complete with collar, brush & owner certificate. Suitable for stroking and enjoying the experience of having a comforting weight on the lap, simulating a sleeping animal. As the base contains a battery, it is firm and not intended for cuddling. Breeds and colour may vary subject to availability. For 3 years and over.
Size: Approximately 23L x 18W x 10cmH

Johan & Emelie Emotion Dolls

Life-like characters to care for, giving purpose and relaxation

Reassuring and comforting, Johan and Emelie are life-like characters to care for and cuddle for an older person with Dementia or a person with learning difficulties.

Doll Therapy can give something to care for, & can provide a rewarding sense of purpose as well as helping to reduce anxiety. For children, the dolls can be stimulating and encourage imaginative play. Because of their realistic size, weight and appearance they can awaken emotions and memories too. Dolls can be dressed and used with the Heart or with an essential oil aroma placed in cotton wool in the pocket in their back for added sensory input. Size: 65cmH

Heart

Inserted into the dolls, for a relaxing rhythm of about 60 heart beats a minute. The gentle vibration and subtle sound adds further sensory interest to the dolls.

Empathy Cat

Puppet & weighted companion

A warming companion, hand puppet and weighted tactile pal. Loved by all ages, from children to older adults with dementia or learning difficulties. Heatable and seriously good to cuddle! Hand-washable. Size: 30L x 18W x 30cmH

AquaPaint - Meaningful Art for Older Adults & Special Needs

An achievable activity to promote independence & pride

AquaPaint is designed for people with Dementia or learning difficulties and provides an easy, relaxing activity for a sense of accomplishment. Simply paint water onto the sheets and watch the image appear - no mess and quickly satisfying. Each themed set includes 5 different images carefully selected to start a conversation once complete. As the water dries, the image fades, ready to be used again. Brushes not included. Size 26 x 21 cm.
