

## Pencil Grips Starter Selection Pack

Support struggling writers with this mixed pack

This pack of 12 grips contains one of each of our most popular pencil grips. This mini kit will enable you to check which grip best suits your students. Contains one each of the following grips:

comfort, stubbi, standard triangular, jumbo triangular, solo, ridged comfort, tri-go, claw grip medium, large ultra, ultra, cross-guard ultra & grotto.

Colours may vary.

## Developmental Ball Grips

Developed by an OT to support individuals with difficulty in sustaining a functional grip on a pen for various reasons. The largest size grip allows a claw grip on the pen, and allows muscles that control large grip to make the pen move. This is more easily sustainable as an introduction to holding a pen. As the motor skills and eye hand coordination for pen use increases, the size of grip can reduce a size down. When the smallest size is used, this is a much less difficult transition to a chunky pen. Contains 5 grips from 2.5-5.5cm diameter. Red grips are suitable for primary, yellow grip is suitable for 12 yrs +. Notes for use included.

## Visual Stress Assessment Toolkit

Assess the colour overlay needs of your learners

This Pack provides anyone involved in detailed assessment of the colour overlay needs of children with a full set of information and assessment tools, presented in a clear, easy to follow format that is accessible to professionals and non-professionals alike. The pack includes:

- Two sets of 10 (A5) overlays in sturdy punched zip pockets
- Testing pages in two fonts.
- Full easy to follow assessment instruction manual
- Information on Visual Stress symptoms and treatment

- Colour preference chart
- Photocopiable recording sheets
- Templates for letters to parents and employers
- Bibliography and web links
- Sturdy D-ring presentation binder

## Writing Slope & Book Stand

Organises the space and improves writing angle

This slope is designed to allow children to work at the optimal angle to maintain good posture whilst being able to hold a book or their work at the same time - saving desk space and making reading, writing and copying more comfortable.

This will help the child to concentrate on their work in an organised space. The slope is modern and versatile having a number of different uses including as a coloured overlay for visual stress relief, a desk tidy (store equipment underneath) or a write-on wipe-off surface.

It can easily be used with a clipboard to hold worksheets, a word mat or notes. The slope is set at the recommended angle of 20 degrees and has rubber grips on the bottom to prevent the slope from moving on the desk. The slope is smooth to encourage children to hold their work and sit comfortably but, for children who struggle, the slope can be used with a bulldog clip or to secure the work in place.

A4: L35 x W30 x H13cm  
A3: L35 x W45 x H13cm  
Green or Multi colour  
Pack of 5

## Visual Stress Supports

Coloured Overlays

Can increase reading speed by 25% or more for people who suffer from visual stress. These overlays are perfect for readers who benefit from a tinted overlay. Pack of 10 assorted colours.

Reading Ruler

Highlights just a single line or paragraph area of the page. Many people, especially those with dyslexia, have difficulty reading black text on a white background. These colour-ed rulers help. Ideal for scotopic sensitivity syndrome and related disorders. Provided in a pack of 10 assorted colours so each child can find which works best. Size 21 cm x 7 cm.

Reading Window

A line finder to help guide people with dyslexia down a page of text. Simply slot in one of the coloured strips to make reading easier. Reads text size upto 14pt. Size: 17cmL x 5cmW. Pack of 10 with 5 coloured strips.

Tinted Exercise Books

Many children with handwriting difficulties enter a new world of neatness when they write on tinted paper. A5, 48 pages. Soft grey rules and guidelines. 10 pack including 2 each of 5 colours: yellow, grass, aqua, sky and pink.

## The Dyslexia Pocketbook Guide

### Info and techniques for more supportive teaching

If you would like a better grasp of what dyslexia is; if you're seeking a helpful guide to the multiplicity of approaches to dyslexia; if you need tools and techniques for teaching dyslexic learners - then look no further! It's all here in this handy 128 page guide, along with much more!

## The Dyscalculia Activity Toolkit Book

### Structured lessons to assist learners with maths

Written by an expert in Maths learning difficulties, these books offer 10 lessons, structured to provide a comprehensive plan to teachers or teaching assistants on assisting learners with maths difficulties.

Whether due to dyscalculia or other learning difficulties, these exercises, with a CD with photocopy worksheets and resources, will be very valuable in the classroom.

A Kit is available separately which provides the counters, cards, and hands-on materials to make the most of your book. This is Book 1.

Includes a CD, 200 activities, 40 Games and is ideal for ages 7 - 14.

## The Dyscalculia Assessment Book

### Assessment, interventions, photocopyables & more

Dyscalculia is a specific learning disability involving difficulty in acquiring numeracy skills. A significant group of children fail to progress beyond counting in ones; they cannot calculate efficiently or learn their tables. This assessment tool is designed to explore which aspects of numeracy the child is struggling to acquire. The evidence from the assessment can then be used to draw up a personalized teaching plan. With clear, step-by-step instructions alongside photocopyable or downloadable assessment sheets, this book contains what you need to pinpoint a child's difficulties with numeracy, and use that info to help the child progress.

The Assessment is ideal for use with primary school children, but can easily be adapted for older students, and is invaluable for Special Needs Coordinators, Teaching Assistants, and teachers supporting students with maths difficulties in their class. A4 size, 224 pages.

## Dyscalculia Lesson Plans - Book 1 & 2

### Book and CD with worksheets ready to use

Written by an expert in Maths learning difficulties, these books offer 10 lessons, structured to provide a comprehensive plan to teachers or teaching assistants on assisting learners with maths difficulties. Whether due to dyscalculia or other learning difficulties, these exercises, with a CD with photocopy worksheets and resources, will be very valuable in the classroom.

Book 1 Key areas covered include: Number bonds to 10, place value, pattern recognition, and understanding number lines.

Book 2 Key areas covered include: times tables, subtraction, division and fractions.

A Kit is available separately which provides the counters, cards, and hands-on materials to make the most of your book - see below.

## The Dyscalculia Lesson Plans Kit - Includes Book 1 & 2

### All the materials needed to help you deliver the Lesson Plans from Book 1 and 2 (above)

This kit has been designed to help you to deliver the Dyscalculia Lesson Plans in both Book 1 and Book 2 and can also be used independently to support children with mathematical learning difficulties. It contains a range of hands-on resources that will help your children to develop their mathematical understanding and enable them to get the most out of your lesson time using a good variety of concrete materials.

Contains: 100 x sticky dots, 50 x coloured counters, Snakes and Ladders Gameboard, 20 x A7 blank cards, write-on wipe-off dice, 0-9 dice, standard dice, 0-9 foam coloured numbers (50 mm), 0-100 number cards, A7 red and blue cards, cuisenaire rods, dominoes set and feely bag.

Written by an expert in Maths learning difficulties, these books offer 10 lessons, structured to provide a comprehensive plan to teachers or teaching assistants on assisting learners with maths difficulties.

Whether due to dyscalculia or other learning difficulties, these exercises, with a CD with photocopyable worksheets and resources, will be very valuable in the classroom.

## Easi-Speak Recording Microphone

### Record stories, songs or lessons - easy to use!

The sleek and stylish Easi-Speak Pro is a recording microphone, ideal for use in classrooms. Record your own lessons, or improve learning new languages, or record voice notes and answers instead of writing - perfect for struggling writers.

It includes a single touch record button, simple playback (WAV or MP3), integrated USB and rechargeable battery. LCD screen with a menu system, showing the track number playing, battery life, memory status and recording format. Dual headphone sockets for private playback, and a belt clip to attach to clothing.

Technical Specification:  
128MB Memory,  
Rechargeable, Record  
WAV or MP3 files.

**Saver packs of 5 or 10 also available.**

## Microspeak Digital Recorder

### A fantastic learning resource for all ages

Enhance mainstream learning, or support people with learning difficulties. Record instantly with the press of a button and play back immediately via the built-in speaker. High Definition recordings are made in uncompressed WAV format to ensure impressive recording sound quality.

- 512MB or 6 hours recording time
- LCD screen for simple navigation
- Large buttons; USB sockets
- Rechargeable battery
- Volume control
- Earphone socket
- Audio Editing software
- USB-Charger Adaptor
- Charge one MicroSpeak from a mains power socket or purchase the special unit to charge 7 at one time in a class

### Pro Version also available!

2GB and 24hr recording time  
Smart grey colour

## WordShark 5

### Excellent reading and spelling learning software

WordShark 5 combines the excitement of computer games with the serious task of learning to read and spell. Includes 10,000 pre-recorded words (or add your own word lists) and is designed to assist those with specific learning difficulties or dyslexia. Suitable for home and school use, and all ages. Offers multiple user profiles so children can work at their own pace and keep a record. Over 60 games using sound, graphics and text, to teach and reinforce word recognition and spelling, it includes a high quality phonics programme, onset and rhyme, homophones, spelling rules, common letter patterns, visual and auditory patterns, prefixes, suffixes, roots, word division, high frequency words, use of words in context, alphabet and dictionary skills and more.

1 or 5 User PC/Mac, or Network License for 10, 20, 30, 60

## StarSpell 3

### Best-selling software used by thousands of teachers

StarSpell is extremely popular software for teaching spelling and reading. Its approach is through positive reinforcement, and the non-gimmicky style makes it equally suited to mainstream and special needs education, for adult learners as well as children. It includes a Phonics section which is designed for use with interactive whiteboards. A wide collection of word lists at a variety of levels is included, or you can add your own to practice. Enhanced network installation options. Downloadable only.  
1 User or Site Licenses available.

## Penfriend

### Powerful word prediction to support literacy | Increases writing speed when using alternative access

**Penfriend XP** is a powerful tool for those with dyslexia or physical disabilities, adding word prediction, speech and an on-screen keyboard to almost any other software. It helps with spelling, confidence and speed of composing text. It will also read out almost any text, such as web pages or word documents. Penfriend will work with your word processor and tries to guess the word you are typing. It also learns the words you use frequently and recently, so it improves as you use it. This information is saved for each individual user, together with individual settings. In addition, it is easy for teachers to select preferences, edit children's lexicons and add topic specific vocabulary.

**Penfriend XL** has all the features of XP plus the following: Screen Reading with Text Magnification, Word Prediction, On Screen Keyboards, and Switch Access

**Penfriend Portable** is ideal for taking between classrooms at school, around work, or taking home in the evening. The USB Penfriend software requires no installation, & can be used on machines with stricter administrative policies than for other software. Simply plug in the USB stick, double click on the icon, and it works! No installers, no networks, no delays.  
Available in XL or XP version.

CD or Portable USB. Discounted Additional Licenses

# Penfriend

Change the font and colour of your word predictions - great for visual impairment! Add your own dictionaries with topic specific vocabulary (law, curriculum subjects etc.)

# reading, writing & dyslexia support

## ClaroRead

Support with reading and writing, studying and organising...

**ClaroRead Standard** supports reading and writing, and is suitable for all ages and abilities. It can speak practically any on-screen text out loud, and is perfectly integrated with Word. A wide range of visual tools are included to colour, highlight, and focus on text as it is spoken by the computer.

**ClaroRead Plus** improves written accuracy and offers a homophone and tricky word dictionary, font and spacing flexibility, a thesaurus, spell checker button and a 'save to audio file' function so you can listen to the text later. It also has a talking calculator. There are male or female human sounding voices and spoken words can be highlighted to help develop reading comprehension.

**ClaroRead Pro** includes powerful technology that will scan and convert any publication into an editable PDF that can be read out loud with colour highlighting. ClaroRead Pro ensures that any scanned or inaccessible document will be perfectly reproduced with all pictures, diagrams, columns and text intact.

**ClaroRead SE** is a simple and discreet floating toolbar that adds text to speech in Word, Internet Explorer and other programs, and as you type. It will grey out sentences not being spoken to allow the user to concentrate on the sentence being read. It can convert text into an audio files for later use.

Please see our website for details on all the versions, and a comparison chart of all features.

## INCLUDES all of these extra tools...

<b>Screen Ruler</b> Ruler & Colour Tinter to keep focus while reading	<b>ClaroCapture</b> Study tool captures any text and helps to organise it	<b>ClarIdeas</b> Mind-mapping tool for planning, study & more	<b>Claro AudioNote</b> Record lectures straight into notes & listen to recordings	<b>Audio Converter</b> Convert entire batches of documents into audio files	<b>Talking Calculator</b> Echoes back numbers and answers

### Dragon Naturally Speaking

**Dictation & computer control with your voice!**

For people with limited typing ability due to spelling difficulty or a physical impairment, voice input is a rapid and effective means of typing and controlling your entire computer. Dragon provides a powerful alternative access method for those who can speak English clearly.

Dragon Premium's powerful dictation gives you the power to turn your voice into text, three times faster than the average keyboard typist. Dragon learns the words and phrases you use the most, spelling even difficult words and names correctly. The latest features include new options for using social media or email, such as the voice command "Post to Facebook 'Looking forward to soccer tonight!'"

With a built in tutorial, voice calibration exercises and a vast online user community, there is much support available in this widely used application.

Not recommended for 2nd language English speakers with a very strong accent, or for people who need to write in any other language.

Windows or Mac versions available  
1, 5, 10 User Licenses Available
