

Hello there! This is our list of current items on sale. Our team has given a few personal comments to tell you a bit about the products. Please feel WELCOME to give us a call to chat about these if you have any questions. 0860 888 121. ☺

Sensory Elements

Aroma Mouse Diffuser

Diffuse on the move! Compact, light and portable. Use in the car, or where space is limited. Battery or mains operated. Quiet yet highly effective internal fan. Safe to use - no heat nor spillages.

Includes 5 refill pads. Size: 14L x 9W x 7cmH
Requires 4 x AA batteries and essential oils (both to be purchased separately).

~~R 417.00~~
R 355.00
One of our favourites – blows lovely smells around the room. Mmmm.....!

Visual Development Soft Cubes

Large and lovely to play with! Ideal for people with visual impairment, babies and toddlers. These beautifully made soft cubes encourage exploring the different surfaces and textures. There are shapes, patterns, mirrors and smiling faces.

Designed to meet the developmental needs of young children or those with CVI, with bright, bold, contrasting red, black and white colours. Includes shiny, reflective and soft velvety surfaces. A lovely, versatile set. Wipe clean.

Includes: 6 different cubes 14cm³.
Size: 14 cm x 14c x 14cm.

~~R 861.00~~
R 645.00
Big, squishy and beautiful quality.

Round Bubble Table

Unbelievable value! This is a large table, water filled with colour LED lights and bubbles. So cool in any dark play or sensory room. Colour changing lights have the ability to captivate both adults and children alike and can also be used for educational purposes including special needs. Fully Self-contained – just fill with distilled water. Supervised use only as the table top is (strong) glass.

This striking Bubble Table feature with colour changing LED lights makes a spellbinding addition to any home, office or bedroom that can be used as a coffee table or for children to play, eat, relax, read, colour, and do arts & crafts on etc.

~~R 6 228.00~~
R 3 740.00
Amazing price. Cool for kids (and adults). Glass top so not for rough users but gorgeous in a dark room.

Squidgy Sparkle Numbers 0 - 20

We have taken this product and made it even better, so now you can count all the way up to 20. Use these waterproof digits in sand and water play to make counting and sorting fun.

Let children run their fingers around the colourful and dazzling digits to practise number formation and improve recognition. Ideal size for little hands, providing an abundance of opportunities for sensory, fun activities. Size: H15cm. Pack of 20.

~~R 907.00~~
R 680.00
Shine a torch through these, bury them in sand/water... fun!

Portable ADHD
Work Station

Ideal for children who require help organising their day.

The barrier is perfect for those who become easily distracted in the classroom, or who need support in organising themselves and following routines.

The clear plastic pockets on the inside, make the barrier a versatile resource and means it can be used with symbols and motivators which can be personalised for the child.

The tray system comes in four different colours, with a clear plastic pocket on the front. The child's work for that day/session can then be added to each of the trays which they can work through in a manageable routine. Symbols not included.

~~R 841.00~~

R 630.00

So good for concentration and working independently!
Stands up tall on the table.

Writing Slope With
Bookstand A4
Green

This slope is designed to allow children to work at the optimal angle to maintain good posture whilst being able to hold a book or their work at the same time - saving desk space and making reading, writing and copying more comfortable; this will help the child to concentrate on their work in an organised space.

The slope is modern and versatile having a number of different uses including as a coloured overlay, a desk tidy (store equipment underneath) or a write-on wipe-off surface. It can easily be used with a clipboard to hold worksheets, a word mat or notes. The slope is set at the recommended angle of 20 degrees and has rubber grips on the bottom to prevent the slope from moving on the desk. The slope is smooth to encourage children to hold their work and sit comfortably but, for children who struggle, the slope can be used with a bulldog clip or dycem to secure the work in place.

A4: L35 x W30 x H13cm & A3: L35 x W45 x H13cm

~~R 785.00~~

R 590.00

Especially nice for kids with writing difficulty. Angle makes it easier.

Pop Up
Concentration
Desk Barrier

Pop-Up Barrier that can be used flat or with sides to create a distraction free environment or for barrier games.

This barrier is an essential piece of equipment that can be used in the classroom and placed between pupils to play barrier games or encourage independent working.

Activities can then be carried out using miniature objects or activity sheets, for example listening for sounds or following and giving instructions. The barrier games can be

~~R 469.00~~

R 350.00

Quick and easy.
Perfect for tests!

played by a teacher / therapist and child or by two children.

Ideal as a privacy partition for children with concentration problems
Can be used for barrier games with children and or teacher / therapist
Portable - use on the move!
Encourage independent learning
The partition can also be used with sides and is an ideal classroom solution for students who have problems concentrating on their work and work best in a distraction free environment.

Communication Devices

QuickTalker 1 (9V battery included)

A single message dedicated speech generating device with a proximity sensor that enables users to playback a recorded message by waving their hand within 10-mm of the surface. Includes 30-seconds of record time.

~~R 2 333.00~~
R 1 900.00

Communication device.
EASY for staff and users to learn.

Talara-32

The Talara-32 is a simple communication aid that records human voice and other sounds for playback. Simply record messages and play them back.

~~R 8 928.00~~
R 4 460.00

Need to re-record? Just do it - the Talara-32 adjusts its memory automatically. It is an electronic communication device with four levels, direct and switch scanning access and flexible size key patterns making it easily customisable for both children and adults with wide ranging abilities and needs.

Keys: 4 x 8 pattern, 2.9 cm square
Keyboard size: 29.2 cm w x 19.7 cm h
Weight: 0.8 kg
Levels: 4 - user selectable
Maximum number of messages: 127 (4 levels of 32, less one)
User accessible functions: Volume control and level changes
Microphone: Internal built-in, 7.6 cm internal permanent magnet speaker

An older communication device that we will no longer be selling.

BUT it is easy to use, and was very popular. We'd love to see this one go to a good home. Make us **any** offer... 😊

GoTalk One

GoTalk One is super slim and light, weighing less than 0.06 kg. And you'll be impressed with how good it sounds!

Here's how it works. Put your picture display into the covered frame and slide the switch on the back to RECORD. Press the PLAY button and talk for up to 10 seconds. When you're done recording, slide the switch to PLAY. Your GoTalk One is ready!

Size: ± 6 x 12 x 0.6 cm
Weight 0.05 kg
2 Button batteries (included)

~~R 271.00~~
R 135.00

Communication device.
EASY for staff and users to learn.

Just one message... think of all the places you could put it...at the door, by the tap...

Tobii S32 Scan

The Tobii S32 Scan is a communication device that plays pre-recorded messages. With over 60 hours of recording time, and storage capacity for over 190 levels, it is the most powerful device of its kind on the market.

Interchangeable keyguards also mean that one device offers anything from one to thirty-two button locations. This allows users to grow with the device rather than be limited by the number of available buttons. The Tobii S32 Scan also offers control of toys through the toy jack, and Infrared control of lights, appliances, televisions, VCRs, or DVDs etc. and has a headphone jack for auditory support. The Scan model can be activated by Touch or one or two-switch scanning, with LED indicators and configurable scan patterns. Includes SymbolMate software and the popular SymbolStix symbol library for making overlays. Requires 4 AA batteries (included).

~~R 13 123.68~~
R 6 600.00

This is an excellent and feature-filled communication device. No longer being made so this is the last ever stock.

BUT we'd love to see these go to a good home. Make us **any** offer... ☺

LITTLEmack Communicator

Simply record any message directly into the LITTLEmack Communicator for one touch, single message playback up to two minutes in length. Connect a toy or battery operated appliance for instant positive reinforcement. With its angled base and 6.25 cm activation surface, LITTLEmack is perfect for mounting and is recommended for persons who can access a smaller activation surface. Requires 9V battery (not included).

~~R 2 066.00~~

Includes ready-made templates available for all Attainment AAC products .

Alternative Access – Mice and Keyboards

BigBlu Kinderboard

Big Blu KinderBoard is a large-key computer keyboard that can assist children with vision or motor-skill impairment, and is an excellent first keyboard for any child. Big Blu KinderBoard has big 1-in/2.5-cm oversized keys and large, bold, easy-to-read numbers and letters.

~~R 891.00~~
R 670.00

Features colour-coded consonants, vowels, numbers and punctuation marks to help pre-school children learn their character sets. Big Blu KinderBoard uses wireless Bluetooth technology so you can use it with your Bluetooth enabled PC, MAC OS and iOS devices.

Totally wireless. How cool? Large wireless keyboard for your iPad (or ANY tablet)!

Technical specifications:

Size: 48.3 x 3.81x 17.8-cm

Environmental: RoHS & CPSIA Compliant

Operating System: PC

Compatibility: Windows 98SE and newer,

Mac OS 10.1.5 and newer

Connection: Bluetooth 3.0

Battery life: 90+ days

Includes 2-AAA batteries

1-in/2.5-cm keys

Battery indicator light replaces CAPS Lock light

Clevy SimplyWorks (Wireless) Keyboard

The wireless version of the Clevy Keyboard is part of the SimplyWorks family, the World's first fully integrated wireless system specifically for users with motor skills difficulties. Up to six devices (E.g. a keyboard, joystick, trackball or switches, in any combination) can be used simultaneously on one computer using just one SimplyWorks Receive:2.

~~R 2 059.00~~
R 1 550.00

Uses SimplyWorks Wireless Technology to give you a 10 metre wireless operating range with the SimplyWorks Receive:2 connected to your computer.

Lowercase and wireless with a little USB dongle – add this to your laptop to make the keys easier for little people.

The font in which the characters are printed onto the Clevy Keyboard's keys is similar to the font used in traditional education of hand-writing, which makes keys immediately identifiable.

The keys of the Clevy Keyboard are 30% bigger (2cm x 2cm). Differently coloured keys represent the different functional areas and make the keyboard fun.

BigKeys Keyboard Skin

Made from Ultraflex, the Keyboard Skin is an ultrasoft polymer skin that fits snugly over the BigKeys keys. The Skin protects your BigKeys keyboard from dust, moisture, and liquids without changing the feel of the keyboard.

~~R 504.00~~

R 250.00

Keeps drool and spills off the keyboard!

Alternative Access – Mice and Keyboards

BigTrack Rollerball -
Switch Adapted

The BIGTrack has a 7.5cm trackball which makes it the largest trackball available. The large ball requires less fine motor control than a standard trackball and it is ruggedly built. It has a left and a right mouse click button located behind the trackball to avoid unwanted mouse clicks.

The BIGTrack also allows for 2nd Mouse Connection both the BIGTrack and a second mouse can be connected allowing simultaneous participation. The bright large trackball helps to make mouse movements easy and accurate. While the oversized buttons make mouse clicks simple for those with poor motor control.

For even more access the BIGTrack is available in a switch adapted version. The switch adapted BIGTrack comes with two standard 3.5mm plugs for two switches. Its left and right mouse clicks have been adapted so that you can use a switch for activation.

~~R 1 202.00~~

Low Tech Communication and Classroom Display

HealthCare Communication Board - English

Evidence-based, patient communication boards for adolescents and adults are supported by clinical research to improve patient satisfaction, reduce frustration and

~~R 413.00~~

R 290.00

Please note that sale prices are valid while current stock lasts only

improve patient outcomes. They are the perfect communication tool readily available as communication resources for persons who are unable to speak.

EZ Boards are 28 x 43cm, two-sided, dry-erase boards which come individually shrink-wrapped with a dry-erase marker and marker holder. EZ Boards are available in a variety of languages and used in hospitals throughout.

Should really be in EVERY clinic / hospital / acute / rehab setting!

Comprehensive ready-made communication chart. Paper based so it is disposable. Plastic coated so can be wiped.

Bi-Fold Communication Folder, Regular

Communication board for those on the go!

Inside of folder made of VELTEX Brand Display Fabric.

~~R 616.00~~
R 465.00

Outside made of waterproof nylon fabric.

Place hook side of Hook & Loop on back of pictures to use for communication/choice-making.

So many uses in a classroom or for communication. Keeps your core words REALLY handy.

Equipped with handle and Hook & Loop closure.

Size: 46cm x 61 cm (open).

Communication Book - Personal

The durable, washable Personal Communication Book is ideal for manual communication systems. The easy-to-open book lays flat so it stays open until you turn the page. Tabs on every page make page-turning easier.

~~R 313.00~~
R 235.00

Includes 12 display pages. Use one symbol per page or use up to nine 2.5 cm symbols per page.

Fits in a pocket for a few important messages.

Personalise with any type of photos, symbols, or remnants familiar to you.

Holds cards up to ± 7.5 x 9 cm. Size: 11.5 x 11.5cm when closed.

Communication Book – Large

The three 7.5 x 9cm transparent pockets per page can hold a single communication choice or multiple options.

~~R 346.00~~
R 260.00

It's easy-to-open and lays flat until you turn each page with the big tabs.

Personalise with photos, symbols or student-made material.

Twelve sturdy vinyl pages, spiralbound.

Hard, strong plastic holds communication symbols. Useful for messy situations – play, water, sand.

Size: 29 x 11.5cm when closed.

Perspex Eye Gaze Frame

Looking at things you like, need or want is one of the first and easiest ways of making choices. Eye gaze frames have been developed as an effective way of using eye pointing for choice making and communication. Pictures, words or symbols can be placed on the frame. Positioning the transparent frame between the user and "listener" makes it easier for them to see where they are looking. Clear plastic frame and stand. Detachable base - use on a desk or hand held. Dimensions: 3mm thick clear perspex; Board 45 x 35cm; Weight of board (excluding stand) 0.42kg; Stand: 45 x 15 x 5cm. Vinyl colour-coded alphabet stickers are an optional extra.

~~R 681.00~~
R 545.00

Can use pictures instead of letters.
Provides an immediate way to communicate.
Reduces frustration enormously!

Vinyl Alphabet Stickers - for Eye Gaze (E-tran) Frame

These brightly coloured and durable vinyl stickers can be stuck onto an eye gaze frame, allowing the user to look at the letter they wish to communicate to their partner.

~~R 120.00~~
R 95.00

For literate people, this is a cost-effective and simple means of achieving communication.

For above chart.

Colour-coding can be used to clarify the selected letter - the user would look at the coloured circle to indicate the colour of the letter they want, and then at the group of letters containing the letter they want.

(Requires Eye Gaze Frame - not included.)

Positioning Supports

Maxess Switch Mount – Large

Ideal for 'Big Red' type switches or a 'Big Mack' etc. Sloping surface: 15 x 16 cm

~~R 633.00~~
R 445.00

Helps with positioning – love these! Switch can be at 90 degrees or 45.

Maxess Switch Mount - Medium

Ideal mounting for 'Buddy Button or Jelly Bean Twist' type switches or similar. Sloping surface: 8 cm x 9 cm.

~~R 723.00~~
R 500.00

Maxess Switch Mount - Small

Many switch users have greater control if their switch is placed at an angle. Used with the Switch Tray (sold separately), these mounts offer an immense variety of positioning options.

~~R 668.00~~
R 470.00

Helps with positioning – love these! Switch can be at 90 degrees or 45.

Each mount enables the switch to be secured in two positions - sloping and right angle. A hook dot fixing pack for one switch

is included. Small size is ideal for 'Specs' type switches or any small hand switch. Sloping surface: 6.5 x 7 cm.

Maxess Clear Joystick & Trackerball Rest (Shallow)

These clear perspex rests enable you to place your Joystick or Trackerball at an angle, making them easier to reach for some people. Slope set at an angle of 20 degrees on the shallow rest. A more steep version is available too. Joystick and Rollerball shown not included.

Turns your normal

Please note that sale prices are valid while current stock lasts only

connect Hook+ to your iDevice.

Hook+ utilises the Apple auto switch configurator and the first time Hook+ is used with an iDevice it will automatically configure the iDevice to use single switch auto scanning or dual switch step scanning based on how many switches are connected to Hook+. Once initially configured, switches can be manually re-configured to meet the needs of the user. The Apple auto switch configurator is only available on Apple MFi approved switch interfaces.

Once Hook+ is connected and Switch Control is configured, you can do almost anything on an iDevice with a switch. Read an eBook, write an email, browse the internet, play games, control your home, and much more!

switches into iPad switches.

Cooper Trooper 2K Universal Rugged Case w/Shoulder Strap - 10-10.5"

The new and updated Trooper provides the ultimate protection for your tablet.

Innovative single piece design allows full access to the camera, buttons and speakers whilst also keeping your tablet completely out of harm's way. Have kids? This case is made of non-toxic, easy to wash silicon that can be easily removed to clean.

Features an adjustable kickstand for both movie and reading modes. Comes with a detachable shoulder strap! Let your kids be the photographers and trust that if they drop the tablet, it won't break. Car Mode - The shoulder strap can also be used in the car. Just attach it to the back of the seat and keep the kids entertained and occupied during journeys.

It comes in pink, blue or black to match every personality and age group!

All boxes have wipe clean surfaces, have magnetic catches to stop the lid getting damaged, made from heavy gauge card and are activated by light sensors when opened with no switches to fail!

Fill your boxes with beautiful treasure to create awe and wonder
Fill with different natural materials
Write clues on the box and use the recording to reveal an answer
Use the recordings to give clues about what the box contains

~~R 619.00~~

R 370.00

Easy and fun – record a message.
OR use as a reminder.

Encourage children to record their own messages using words to describe the contents of the box

Comes in pack of 6 colours.

Clevy Headphone

Exposure to loud noise is a major cause of early hearing loss. Clevy headphone volume is limited to 85 dB, a threshold that audiologists say is safe for medium and long term use. The headset is sturdy and can withstand heavy use by children. The twisted, extra long cable prevents it from breaking at the connection - if children move away from the computer and forget they are wearing a helmet, the stretchy cable reminds them before it's too late. The Hearsafe ear pads are designed to drown out ambient noise and assist children to concentrate on what they are hearing.

~~R 654.00~~
R 490.00

Volume control to protect little ears.

Easi-Speak Pro Recording Microphone

The sleek and stylish Easi-Speak Pro is a recording microphone, ideal for use in classrooms.

Record your own stories or songs, improve learning new languages, or record voice notes and answers instead of writing - perfect for struggling writers.

It includes a single touch record button, simple playback (WAV or MP3), integrated USB and rechargeable lithium battery. LCD screen with a menu system, showing the track number playing, battery life, memory status and recording format.

Dual headphone sockets for private playback, and a belt clip to attach to clothing.

Designed in a modern metallic silver casing, the Easi-Speak Pro is attractive to students and teachers alike.

Technical Specification: 128MB Memory, Rechargeable, Record WAV or MP3 files.

~~R 1 160.00~~
R 755.00

Learning and memory aid.
Instead of writing notes and answers, record them into the microphone!
