Accuratus Monster 2 Wireless Keyboard - Coloured, Yellow or White Keys

The Accuratus Monster 2 wireless keyboard is designed for children and individuals with visual impairments, featuring large, high-visibility keys for enhanced accessibility.

- Wireless connectivity via Bluetooth 5.0 and RF (nano-sized RF receiver included).
- Supports multi-device pairing with two Bluetooth devices and one RF device.
- Large 1-inch (2.4 cm) square keys for easy typing.
- Available in mixed colour lowercase layouts for educational purposes.
- High-contrast (white) or high-visibility (yellow) models tailored for users with visual impairments.
- Detachable wrist pad for comfortable typing.
- Dimensions: 46 cm x 18 cm x 3 cm; Weight: 770 g.
- Requires 2x AAA batteries (not included).

Multi-Coloured   High Contrast   High Visibility

IS2409 or 10 / IS2408 / IS2407

Accuratus Monster 2 Keyboard - Coloured, Yellow or White Keys

The Accuratus Monster 2 is a versatile keyboard designed for children and individuals with visual impairments, featuring extra-large, high-visibility keys for enhanced accessibility.

- USB connectivity with a 2-port USB hub for additional devices.
- Large 1-inch (2.4 cm) square keys for easy typing.
- Available in mixed colour upper or lowercase layouts for educational purposes.
- High-contrast (white) or high-visibility (yellow) models tailored for users with visual impairments.
- Detachable wrist pad for comfortable typing.
- Spill-resistant design with drainage holes to protect against minor spills.
- Dimensions: 46 cm x 18 cm x 3 cm; Weight: 770 g.

Multi-Coloured   High Contrast   High Visibility

IS2997 / IS3147 / IS3148

Accuratus Rainbow 2 Keyboard - Coloured, Yellow or White keys

The Accuratus Rainbow 2 is a versatile keyboard designed for children and individuals with visual impairments, featuring large, high-visibility lettering for enhanced accessibility.

- USB 'plug and play' connection for easy setup.
- Standard-sized keys with large, bold lettering for improved visibility.
- Available in mixed colour upper and lowercase layouts for educational purposes.
- High-contrast (white) or high-visibility (yellow) models tailored for users with visual impairments.
- Spill-resistant design with drainage holes to protect against minor spills.
- Foldable feet providing keyboard tilt for ergonomic typing.
- Dimensions: 44 cm x 14 cm x 3 cm; Weight: 550 g.

Multi-Coloured   High Contrast   High Visibility

IS2701

Metal Keyguard for Accuratus Monster 2 Keyboards

Strong, easy-to-clean metal keyguard designed for use with Accuratus Monster 2 keyboards.

- Provides support for users with tremors, strokes, or other physical disabilities.
- Allows resting hands or arms on the keyboard without accidental key presses.
- Enhances typing accuracy by guiding larger or unsteady movements.

IS2619

SEN Colour-Coded Keyboard with Lower & Upper Case Keys

USB

A children's keyboard with large, colour-coded keys designed to facilitate learning and computer interaction.

- USB plug-and-play connection for easy setup.
- Large, bright keys for easy identification and use.
- Colour-coded keys to aid recognition of vowels, consonants, numbers, and function keys.
- Splash-proof casing for durability.
- Dimensions: 49 cm x 19 cm x 5 cm.
- Weight: 810 grams.

IS2962

Accuratus Rainbow 2 Junior Mouse

USB

A medium-sized USB mouse designed for children, featuring coloured buttons to facilitate learning and an antibacterial coating for enhanced hygiene.

- USB plug-and-play connection for easy setup.
- Medium-sized design suitable for children's hands.
- Coloured buttons to help differentiate left and right clicks.
- Scroll wheel for easy navigation.
- Antibacterial coating to reduce the spread of germs.
- Dimensions: 9 cm x 5 cm x 3 cm.
- Weight: 90 grams.

IS3153

Accuratus TRACK 905 Trackball Mouse

USB

An ergonomic USB wired trackball mouse designed for precise cursor control and reduced wrist movement.

- Large 44 mm trackball for high precision and easy thumb control.
- Six buttons: left-click, right-click, DPI adjustment, back, forward, and scroll wheel.
- Adjustable DPI settings: 200, 400, 800, 1200, and 1600 for customisable sensitivity.
- Ergonomically designed for right-handed use, reducing muscle strain.
- Plug-and-play USB Type-A connection compatible with various devices.
- Dimensions: 16.8 cm x 10.5 cm x 5.5 cm.
- Weight: 230 grams.

IS1652 / IS1602

BJoy Hand-A / Hand-C Joystick

USB

The BJOY Hand-A and BJOY Hand-C are highly sensitive joysticks designed for individuals with minimal finger strength, providing precise control with ergonomic, one-handed operation.

- The Hand-A offers free movement in all directions, while the Hand-C supports 4 or 8 directional movements.
- The Hand-A features an analogue joystick for smooth control, while the Hand-C uses a microswitch joystick for precise directional input.
- Four ultra sensitive customisable buttons for click functions.
- Supports Windows, macOS, Linux, Android, and Chrome OS.
- Adjustable settings for speed, sensitivity, and button functions via BJOY software.
- Dimensions: 50 x 75 x 17 mm.

IS1325 / IS1430

BJoy Ring / Ring Wireless

The BJOY Ring and BJOY Ring Wireless transform wheelchair joysticks into computer mice, enabling precise and accessible device control for users with mobility challenges.

- The BJOY Ring connects via USB, while the BJOY Ring Wireless offers a wireless connection with a 5m range.
- Both models allow wheelchair joysticks to control cursors with accuracy.
- Customisable sensitivity and functionality via BJOY software.
- The BJOY Ring is plug-and-play with no additional drivers, while the BJOY Ring Wireless pairs with up to 4 receivers. The BJOY Ring Wireless includes a rechargeable battery.
- Compatible with Windows, macOS, Android, and Linux.
- Dimensions: Transmitter 8 x 6 x 2 cm; Receiver 5 x 3 x 1 cm.

IS2943

Blueline Bluetooth Joystick

The BlueLine Bluetooth Joystick is a compact, wireless assistive device designed for controlling tablets, computers, and other Bluetooth-enabled devices.

- Bluetooth-enabled for seamless wireless connection.
- Compatible with PCs, Macs, and tablets.
- Four integrated switch inputs for customisation.
- Compact and portable desktop design.
- Requires no additional software or drivers.
- Dimensions: 20 cm x 15 cm x 7 cm. Weight: 850 grams.

IS1226

nAbler Pro Trackball

A trackball designed for individuals with limited hand control, offering customisable settings for enhanced accessibility.

- USB plug-and-play for easy setup.
- Large 63 mm ball for precise cursor control.
- Adjustable anti-tremor filter with four levels.
- Buttons for left-click, right-click, double-click, drag-lock, and pan.
- Supports dwell-clicking for switch-free use.
- Dimensions: 24 x 13 x 8 cm.
- Includes interchangeable ball colours.

IS1225

nAbler Pro Joystick

A versatile joystick designed for individuals with limited hand control, offering customisable settings to enhance computer accessibility.

- USB plug-and-play connectivity for easy setup.
- Light-touch joystick requiring minimal force for precise cursor control.
- Adjustable anti-tremor feature with four levels to filter out involuntary movements.
- Integrated buttons for left-click, right-click, double-click, and drag-lock functions.
- Supports dwell-clicking for switch-free operation.
- Dimensions: 23.5 cm x 13 cm x 10 cm.
- Includes interchangeable joystick handles: T-Bar and Soft Ball.

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

IS0039

nAbler Joystick

The n-ABLER Joystick is an adaptive input device designed for users with special needs or movement impairments, enabling ergonomic, effortless computer navigation. It features customisable controls, fingertip precision, and compatibility for left-handed use or mounted setups.

- Minimal force required for joystick operation.
- Built-in buttons for double-click and click-and-drag functions.
- Switch-adapted with 3.5 mm programmable sockets.
- Adjustable cursor speed and dwell click functionality.
- Includes three knob options for varied user preferences.
- Dimensions: 24 cm x 13 cm x 10 cm; weight: not specified.

IS0040

nAbler Trackball

The n-ABLER Trackball is a precision input device designed for users with mobility or dexterity challenges. Its large, free-running ball and customisable buttons ensure easy navigation and reduced fatigue, while features like Dwell Click and switch adaptation enhance accessibility.

- Symmetrical design for left or right-handed use.
- High-mass, 63 mm ball for smooth control.
- Sub-flush, colour-coded buttons to prevent accidental presses.
- Two programmable 3.5 mm switch inputs.
- Dimensions: 23.5 x 13 x 7.5 cm.

IS0043

Optima Joystick

A compact desktop joystick designed for individuals with motor skill difficulties, providing precise cursor control with minimal hand movement.

- USB and PS/2 connectivity for plug-and-play setup.
- Light-touch joystick requiring only 0.5 Newtons of force.
- Four selectable cursor speed settings with audible alerts.
- Integrated buttons for left-click, right-click, and drag-lock functions.
- Two 3.5mm sockets for external switch inputs.
- Dimensions: 18 cm x 10 cm x 11 cm.
- Weight: 500 grams.

IS0044

Optima Trackball

The Optima Trackball is a desktop trackball designed for users requiring precise cursor control with minimal hand movement.

- Durable optical technology ensures accurate tracking.
- Free-running ball requires only the lightest touch.
- Four selectable cursor speed settings with audible alerts.
- Colour-coded buttons mounted sub-flush to prevent accidental activation.
- Switch-adapted via two 3.5mm sockets for external switches.
- Plug-and-play compatibility with PC and Mac; no drivers required.
- Dimensions: 18 cm (W) x 10 cm (D) x 7 cm (H); Weight: 220 g.

IS1346

Quha Zono incl. Head Mount Kit

A wireless gyroscopic mouse designed for hands-free computer control, translating head movements into precise cursor actions.

- Dimensions: 5.9 cm x 3.3 cm x 1.5 cm.
- Weight: 23 grams.
- Wireless connection: 2.45 GHz radio link with a 10-meter range.
- Battery: Li-Po 240 mAh; active use time up to 30 hours.
- USB receiver: USB 2.0 HID; includes 3.5 mm stereo connector for switch input.

The Head Mount Kit offers comfortable mounting options for the Quha Zono, including a neckband and a light eyeglass clip.

- Neckband weight: 21 grams; fits head widths of 10–17 cm.
- Light eyeglass clip weight: 3.5 grams; fits eyeglass arms up to 1.3 cm wide.

IS2786

Quha Zono 2 incl. Head Mount Kit

The Quha Zono 2 is a hands-free wireless mouse enabling precise cursor control through head movements.

- Intuitive head movement detection for navigation.
- Compatible with Windows, macOS, Chrome OS, Android, iPadOS, iOS, and Linux.
- Weighs just 23 g for comfortable extended use.
- Rechargeable battery lasts 60 hours, with idle mode up to 30 days.
- Adjustable cursor speed, movement direction, and tremor filtering.
- Supports external switches via 3.5 mm connector.
- Size: 6 cm x 3 cm x 2 cm.

IS3032

Quha Zono X

The Quha Zono X is a gyroscopic Bluetooth head mouse enabling hands-free device control with precise cursor movement via intuitive head gestures. It's compatible with multiple operating systems and includes adjustable settings, tremor filtering, and gesture support.

- Works on Windows, macOS, Android, iOS, Chrome OS, and Linux.
- Bluetooth range of up to 10 m.
- Lightweight at 12 g, dimensions: 4.4 x 2.5 x 1.3 cm.
- Rechargeable with 18-hour battery life.
- Includes ear and eyeglass clips for flexible mounting.
- Adjustable headband sold separately.

IS1227 / IS1228

SimplyWorks Joystick / Trackball

The SimplyWorks Joystick and Trackball are wireless assistive devices offering precise, light-touch cursor control with a 10 m range, ideal for users with motor skill difficulties.

- Operate on a 2.4 GHz interference-free radio link with SimplyWorks receivers.
- Joystick includes T-Bar, Soft Ball handles, and USB/PS2 adaptor.
- Trackball features optical technology with smooth ball movement.
- Built-in lithium battery in Trackball lasts several months per charge.
- Customisable buttons for click, drag, and reconfiguration.
- Joystick: 18 x 10 x 11 cm; Trackball: 18 x 10 x 7.5 cm.

Behaviour & Time Management

Product Code	Product Description

IS3195

Communication Technology

Product Code	Product Description

IS3126

Shidu Personal Voice Amplifier with Microphone Headset

A compact 10W portable voice amplifier with a rechargeable battery and wired microphone headset.

- Clear sound for groups of 25-100 people.
- 1800mAh battery for 8-12 hours amplification; charges in 3-5 hours.
- Supports music playback via TF card and USB playback.
- Adjustable, lightweight microphone headset included.
- Compact design (162g) with a detachable clip and waistband for portability.
- Dimensions: 8.5 cm x 4 cm x 10.5 cm.
- Powered by 1 included lithium-ion battery.

IS3125

Shidu Personal Voice Amplifier with Wireless Microphone Headset

A compact 10W portable voice amplifier with a rechargeable battery and WIRELESS UHF microphone headset.

- Clear sound for groups of 25-100 people.
- 1800mAh rechargeable battery providing 8-12 hours amplification; charges in 3-5 hours.
- Supports music playback via TF card or USB flash drive.
- Includes an adjustable, lightweight WIRELESS UHF microphone headset for comfortable use.
- Compact design (162 grams) with a detachable clip and waistband for portability.
- Dimensions: 10 cm x 10 cm x 4 cm.
- Powered by 1 included lithium-ion battery.

IS2903

Grid Pad 10s

A robust and portable communication aid designed for individuals requiring a dedicated device for effective on-the-go interaction.

- 10.1-inch touch display with 1920 x 1200 resolution and anti-glare screen protector.
- Powered by Intel® Core™ i5 processor with 8GB RAM and 256GB SSD storage.
- Integrated high-quality Bluetooth speaker for clear, amplified sound.
- Up to 7 hours of battery life for continuous communication.
- Compatible with dual Rehadapt & Daessy mounting systems.
- Dimensions: 26 cm x 21.5 cm x 6 cm.
- Weight: 1.45 kg.

IS3193

Grid Pad 13

A 13-inch communication aid for individuals with speech and mobility challenges, offering multiple access methods and enhanced performance.

- 13.3-inch full-HD daylight-readable display with anti-glare coating.
- Intel® Core™ i5 11th Gen processor, 16GB RAM, 256GB NVMe SSD.
- Integrated high-quality speakers and second wide-angle screen.
- Supports touch, switch, and optional eye gaze control.
- Built-in GEWA Infrared Environment Control with EasyWave/Z-Wave option.
- Dimensions: 34 cm x 23 cm x 4 cm.
- Weight: 3 kg (without eye gaze); 3.6 kg (with eye gaze).

IS2795

Grid Pad 15

A robust 15.6-inch AAC device designed for individuals with complex communication needs, offering versatile access methods and advanced features.

- Supports eye gaze, switches, and touch for flexible interaction.
- High-quality speakers for clear communication.
- Includes environmental control and a second display for message sharing.
- 14-hour battery life ensures all-day use.
- Powered by an Intel i5 processor, 8GB RAM, and a 256GB SSD for efficient operation.
- Dimensions: 38x25x6 cm; weight: 3 kg.

IS2778

Grid Pad Go

A portable and durable 10" communication aid suitable for touch, keyguards, and switches to access Grid.

- Lightweight and drop tested to 1 m for durability.
- Compatible with touch, keyguards, and switches for versatile access.
- Pre-installed with Grid software for instant communication.
- Built-in voice amplification for clear speech output.
- Screen protection for added durability.
- 8-hour battery life for all-day use.
- Size: 29 x 19 x 4 cm. Weight: 1 kg.

IS3263 / IS3274

Talk Pad

A lightweight, communication aid designed for individuals with speech and communication differences, available in 8-inch and 10-inch models.

- Features a tactile handle, adjustable stand for versatile positioning.
- Equipped with large blue power and volume buttons for easy control.
- Drop tested to 1 metre; IP22 rated for dust and water resistance.
- Offers a 10-hour battery life for all-day communication.
- Compatible with touch input, keyguards, and up to two switches.
- Includes high-quality speakers for clear audio output.
- Package consists of iPad, Grid for iPad App & Talk Pad Case.
- Talk Pad Case available in pistachio green, coral pink or charcoal.

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

IS3105 / IS3119

Talk Pad - Case Only

A lightweight, purpose-built communication aid designed for individuals with speech impairments, available in 8-inch and 10-inch models.

- Features a tactile handle and adjustable stand for versatile positioning.
- Equipped with oversized blue power and volume buttons for easy control.
- Drop tested to 1 metre; IP22 rated for dust and water resistance.
- Compatible with touch input, keyguards, and up to two switches.
- Includes high-quality speakers for clear audio output.
- Available in pistachio green, coral pink or charcoal colours.
- Case only (no iPad or software included) for 10th Gen 10.9" iPad or 6th Gen 8.3" iPad Mini.

IS0628

Big Button

A versatile AAC device with large activation space, available in two models for varied needs.

- Standard model: one 48-second or three 24-second messages via tap-to-talk mode.
- Transparent cap holds 7.6x7.6 cm image overlays.
- Features volume control, overlay storage, and low-profile activation.
- Dimensions: 14.5 cm diameter; weight: 230 g.
- Powered by 2x AAA batteries (included).

IS0766

Big Button with Steps and Levels

A versatile AAC device with large activation space, available in two models for varied needs.

- Steps and Levels model: program three activities with up to 10 steps each, plus 10 distinct levels.
- Transparent cap holds 7.6x7.6 cm image overlays.
- Features volume control, overlay storage, and low-profile activation.
- Dimensions: 14.5 cm diameter; weight: 230 g.
- Powered by 2x AAA batteries (included).

IS2560

GoTalk 20+ Lite Touch

A lightweight AAC device offering 20 message buttons across 5 levels, plus 5 core messages for frequently used phrases.

- Provides up to 15 minutes of recording time.
- Sequential recording for quick message setup.
- Features volume control, overlay storage, and locks for recording and levels.
- Compact design ensures portability.
- Dimensions: 23x31x5 cm; weight: 900 g.
- Requires 2x AA batteries (included).

IS3138

GoTalk 4+ Lite Touch

A lightweight AAC device offering 22 messages with 4 programmable buttons across 5 levels and 2 core buttons for repeated use.

- Stores up to 4.6 minutes of recording time.
- Customisable with pictures and voice recordings in any language.
- Features automatic sequential recording for quick setup.
- Includes volume control, record and level locks, and overlay storage.
- Dimensions: 23x31x5 cm; weight: 680 g.
- Requires 2x AA batteries (included).

IS2294

GoTalk 9+ Lite Touch

The GoTalk 9+ Lite Touch is a lightweight AAC device with 9 message buttons across 5 levels, enabling up to 45 messages plus 3 core messages for frequent use.

- Records up to 9 minutes of messages.
- Features enhanced touch sensitivity for easy activation.
- Includes volume control, record and level locks, and overlay storage.
- Portable and durable design for everyday use.
- Dimensions: 23x31x3 cm; weight: 567 g.
- Requires 2x AA batteries (included).

IS0526

GoTalk Carry Stand

A durable carry stand for GoTalk 4+, 9+, and 20+ devices, providing secure storage and a stable display stand when in use.

- Opens to function as an adjustable stand for easy device use.
- Closes securely for safe transport.
- Made from lightweight, sturdy vinyl for durability.
- Compact and portable for on-the-go communication.
- Dimensions: 23x31x4 cm; weight: 510 g (without GoTalk device).

IS3139

GoTalk Duo

A compact communication device offering one or two message options with enhanced sound quality.

- Enhanced sound quality for clear communication.
- Supports one or two message configurations.
- Easy-to-change overlays for quick customisation.
- Includes keyguards for both message configurations.
- 10 seconds of recording time per message.
- Compact size: 13 cm x 7 cm x 2 cm.
- Requires 2x AAA batteries (included).

IS3140

GoTalk Fit

A compact AAC device offering 4 or 9 message options across 3 levels, enabling up to 27 messages.

- Easy-to-change overlays for customisation.
- Clear LED indicators for levels and selections.
- Enhanced sound quality for clear communication.
- Lightweight and pocket-sized for portability.
- Dimensions: 15x8x2 cm;.
- Weight: 150 g.
- Requires 2x AAA batteries (included).

IS2491

GoTalk Go

A wearable AAC device with 3 capacitive buttons and 3 levels, supporting 9 messages.

- Features a high-quality speaker for clear playback.
- Rechargeable via USB for portability and ease of use.
- Adjustable wristband ensures comfortable wearing.
- Compact design for communication on the go.
- Dimensions: 6x5x2 cm.
- Weight: 80 g.

IS2316

GoTalk Select

A compact wearable AAC device with 4 buttons across 3 levels, providing 12 messages in total.

- High-quality speaker ensures clear playback.
- Rechargeable via USB for convenience.
- Compact size fits in a pocket or can be worn with an included lanyard or clip.
- Buttons measure 2.75x2.75 cm, offering easy activation.
- Dimensions: Approx. 6x6x1.5 cm.
- Weight: 90 g.

IS1876

Multi-Memo Voice Recorder

A compact voice recorder that allows recording and playback of up to 60 messages, totalling 6 minutes of audio.

- Features large tactile buttons for easy operation.
- Built-in microphone and speaker for convenient recording and playback.
- Includes a message lock switch to prevent accidental erasure.
- Compact size: 8 cm diameter, 1.4 cm thickness; weight: approximately 50 g.
- Requires 3x AG13 batteries (included).

IS2880

QuickTalker FeatherTouch 7

A portable, durable speech device with FeatherTouch technology, providing multi-message communication for various environments.

- Includes 23 messages across five levels, with three core and four customisable messages per level.
- FeatherTouch membrane responds to light touches, ideal for users with limited dexterity.
- Delivers clear digital sound suitable for diverse settings.
- Includes a carrying handle for portability.
- Activation surface sizes: Core messages 5.5cm x 3cm; unique messages 8.6cm x 6.7cm.
- Weight: 748g.
- Requires 4x AA batteries (not included).

IS2881

QuickTalker FeatherTouch 12

A portable, durable speech device with FeatherTouch technology, providing multi-message communication for various environments.

- Includes 48 messages across five levels, with three core and nine customisable messages per level.
- FeatherTouch membrane responds to light touches, ideal for users with limited dexterity.
- Delivers clear digital sound suitable for diverse settings.
- Includes a carrying handle for portability.
- Activation surface sizes: Core messages 5.6cm x 3.0cm; unique messages 5.6cm x 4.3cm.
- Weight: 748g.
- Requires 4x AA batteries (not included).

IS2882

QuickTalker FeatherTouch 23

A portable, durable speech device with FeatherTouch technology, providing multi-message communication for various environments.

- Includes 103 messages across five levels, with three core and twenty customisable messages per level.
- FeatherTouch membrane responds to light touches, ideal for users with limited dexterity.
- Delivers clear digital sound suitable for diverse settings.
- Includes a carrying handle for portability.
- Activation surface sizes: Core messages 5.6cm x 3.0cm; unique messages 3.0cm x 3.0cm.
- Weight: 748g.
- Requires 4x AA batteries (not included).

IS2177

SimplyWorks Smooth Talker

A wireless AAC device that supports single and sequential message recording for versatile communication.

- Provides 2 minutes of message storage with 5 recording levels.
- Works seamlessly with SimplyWorks wireless switches.
- Features interchangeable coloured tops for customisation.
- Long-lasting rechargeable battery for all-day use.
- Compact design ensures portability for diverse settings.
- Dimensions: 15x15x5 cm; weight: 450 g.

IS2412

Smooth Talker with Levels

A versatile AAC device with 5 adaptive levels and 8 playback modes, offering 8 minutes of recording time.

- Features sequential, random, and choice-based playback.
- Includes input/output sockets for switches, toys, or appliances.
- Rechargeable via USB with a built-in lithium battery.
- Superior sound quality with twin speakers and a digital amplifier.
- Large 12.5 cm low-profile activation area.
- Dimensions: 15x15x5 cm; weight: 450 g.

IS2966

StepPad

A portable AAC device designed to guide users through multi-step tasks with audio prompts for up to 30 steps per activity.

- Stores up to 8 activities across 2 levels for sequencing.
- Features play, repeat, and back functions for easy navigation.
- Includes dual speakers, volume control, and headphone jack.
- Compact and lightweight with lanyard and belt loop slots for portability.
- Dimensions: 12x7x2 cm; weight: 150 g.
- Powered by 2x AA batteries (included).

**IS1390**

Talking Tiles

Talking Tiles are versatile AAC devices offering 80 seconds of single-message recording, with customisable visuals and flexible recording options.

- Features a removable clear cover for inserting pictures or symbols.
- Includes an audio-in socket for external device recordings.
- Available as a six-pack with varied colours.
- Locking switch prevents accidental erasure of recordings.
- Wall-mountable with built-in mounting holes.
- Dimensions: 8.5x8.5x2.5 cm; weight: 150 g.
- Each tile is powered by 3x AAA batteries (not included). Requires 18x AAA batteries in total per pack.

To keep your Communication Devices, Time Timers, and Switch-Adapted Toys charged and ready to use, we recommend rechargeable batteries and a universal charger. Ask us for more details on our range!

Please note, wherever you see this icon batteries are not included.
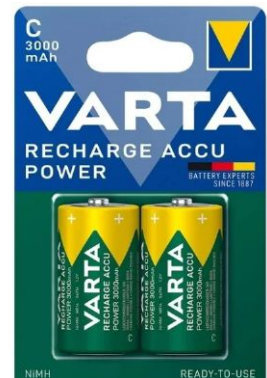

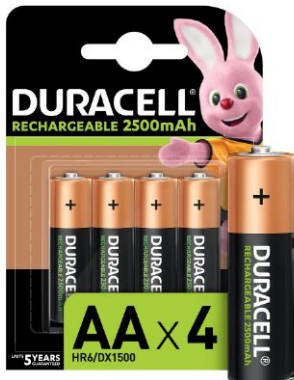

Computers, Tablets & Accessories

Product Code	Product Description

IS3186

Apple iPad 10.9-inch Wi-Fi 64GB - 10th Gen

A powerful and versatile iPad with a stunning 10.9-inch Liquid Retina display and A14 Bionic chip.

- All-screen design available in four vibrant colours (silver, blue, yellow or pink).
- 10.9-inch Liquid Retina display with True Tone for stunning visuals.
- A14 Bionic chip delivers smooth and fast performance.
- 12MP wide rear camera and 12MP ultra-wide front camera with Centre Stage.
- Supports Apple Pencil (1st gen) and Magic Keyboard Folio.
- USB-C port for fast charging and versatile connectivity.
- Size: 25 cm x 18 cm x 0.7 cm.
- Weight: 477 g.

IS3218

Cooper Dynamo Case for Apple iPad 10th Gen. 10.9"

A durable, child-friendly case designed to protect the Apple iPad 10.9" 10th generation from falls, bumps, and scratches.

- Made from shock-absorbing EVA foam for superior durability.
- Features a 2-in-1 Magic Handle & Stand for carrying and adjustable viewing angles.
- Includes a screen protector for extra display protection.
- Integrated pencil holder for added convenience.
- Tested for safety; made from 100% non-toxic materials.
- Compatible with Apple iPad 10th Gen. (A2696, A2757, A2777).
- Colours available: Black, Blue or Purple.
- Lightweight; 25 cm x 18 cm x 2 cm; weight 300 g.

IS3110

CHUWI Hi10 Max Windows Tablet

A versatile large tablet offering high-resolution display and robust performance for productivity and entertainment.

- 12.96-inch IPS display with 3K resolution (2880 × 1920).
- Powered by 12th Gen Intel N100 processor.
- 12GB RAM and 512GB SSD storage.
- Wi-Fi 6 and Bluetooth 5.2 connectivity.
- 8MP autofocus rear camera and 5MP front camera.
- Dimensions: 28.7 cm x 20.9 cm x 0.9 cm.
- Weight: 780 grams.

IS2663

Cooper Trooper 2K Universal Rugged Case w/Shoulder Strap for 7-10.4" Tablets

A universal, rugged tablet case designed to protect devices from drops and impacts, featuring a detachable shoulder strap for easy carrying.

- Fits tablets with screen sizes from 7 inches up to 10.4 inches.
- Made from non-toxic, easy-to-clean silicone material.
- Includes an adjustable kickstand for both movie and reading modes.
- Provides full access to cameras, buttons, and speakers.
- Detachable shoulder strap allows for hands-free carrying and can be attached to car seats for in-vehicle use.
- Kid-proof design ensures durability during active use.
- Lightweight construction; dimensions vary by tablet size; weight approximately 300 grams.
- Colours available: Black, Blue or Pink.

IS1472

Everki Advance Laptop Bag for 11.6" & 12.2" notebooks

A slim and lightweight laptop briefcase designed to accommodate devices up to 11.6 inches, offering both protection and functionality for daily use.

- Dedicated 11.6-inch laptop compartment for snug and secure storage.
- Separate zippered accessory compartment to organise chargers and cables.
- Ergonomic two-way adjustable shoulder strap with a non-slip pad for comfort.
- Front stash pocket for quick access to frequently used items.
- Trolley handle pass-through for easy attachment to rolling luggage.
- High-contrast lining for enhanced visibility of bag contents.
- Dimensions: 32 cm x 5 cm x 23 cm.
- Weight: 430 grams.

IS3128

Lenovo 300W 11.6" Convertible Laptop

A durable 2-in-1 educational laptop designed to enhance interactive learning experiences.

- AMD 3015e dual-core processor for efficient multitasking.
- 11.6" HD touchscreen display with Corning Gorilla Glass for durability.
- 4GB RAM and 64GB storage, suitable for educational applications.
- 360-degree hinge allows use in laptop, tablet, tent, or stand modes.
- Water-resistant keyboard and reinforced design withstand classroom rigours.
- Up to 10 hours of battery life for all-day learning.
- Weighs approximately 1.9 kg; dimensions: 28 cm (W) x 20 cm (D) x 2 cm (H).

IS3073

Microsoft Surface Pro 9 Tablet

A versatile device that combines tablet portability with high performance, ideal for professionals on the move.

- 13-inch PixelSense™ Flow touch display with 2880 x 1920 resolution.
- Powered by Intel® Core™ i5-1235U processor.
- 8GB RAM and 256GB SSD storage.
- Intel® Iris® Xe graphics.
- Up to 15.5 hours of battery life.
- Dimensions: 28.7 cm x 20.9 cm x 0.9 cm.
- Weight: 879 grams.
- Keyboard not included.

IS3201

Wearable, Waterproof, Bluetooth Speaker

A lightweight, wearable Bluetooth speaker.

- Weighs only 39 grams for comfortable, all-day wear.
- Attaches securely via spring clamp or magnetic clip.
- Delivers premium audio with N52 neodymium driver.
- Built-in microphone with active noise suppression for clear calls.
- Up to 15 hours of playtime on a single charge.
- Waterproof with an IPX7 rating.
- Dimensions: 6.6 cm (L) x 4.1 cm (W) x 2.3 cm (H); weight: 39 g.

IS2823

Pure Sense Buddy Case for iPad 9th / 8th / 7th Gen, iPad Air 3, iPad Pro 10.5 - Blue

An antimicrobial iPad case with SteriTouch® technology offering heavy-duty drop protection and hygiene.

- Made from non-toxic EVA foam with raised bezels for screen safety.
- Includes screen protector, adjustable shoulder strap, and handle/stand.
- Fits iPad 9th / 8th / 7th Gen, iPad Air 3, iPad Pro 10.5 models.
- Dimensions: 26.5x26.3x2 cm; weight: 260 g.

IS3237

RIZZEN NovaTab P10 - 2 in 1 Windows Tablet with Detachable Keyboard

A lightweight 2-in-1 tablet with a detachable keyboard, the Rizzen NovaTab P10 offers efficient productivity and portability.

- Powered by an Intel Celeron N4020 processor and Windows 11 Pro.
- 4GB RAM and 128GB storage with an expandable SSD slot.
- Features a 10.1-inch HD touchscreen (800x1280 resolution).
- Includes 3G/4G connectivity, Wi-Fi, Bluetooth 4.0, and GPS support.
- Battery: 7.4V/3000mAh Lithium-ion polymer.
- Dimensions: 25x16x1 cm; weight: 631 g (with keyboard).

IS3270

RIZZEN NovaTab R10 Android Tablet

The Rizzen NovaTab R10 is a versatile 10.1-inch HD tablet running Android 13 Go, designed for both educational and healthcare applications.

- Quad-Core 2.0 GHz processor for efficient multitasking.
- 2GB RAM and 64GB internal storage, expandable up to 128GB.
- 5MP rear and 2MP front cameras for photos and video calls.
- 5000mAh lithium polymer battery for extended use.
- Dimensions: 25 cm x 15 cm x 1 cm; weight not specified.
- Battery: 5000mAh lithium polymer; no additional batteries required.

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

IS1385

Control USB

A USB-powered remote control device enabling seamless operation of household devices through a computer.

- Easy USB connection with plug-and-play setup.
- Operates using infrared and radio frequency technology.
- Works with software like Grid 3.
- Fully customisable button layouts for tailored control.
- Pre-configured for TVs, multimedia players, and home appliances.
- Dimensions: 8 cm x 5 cm x 1 cm.

IS1386

Enabler Alarm

A switch-adaptable alarm device designed to emit acoustic alerts for emergencies, offering wireless functionality for users with disabilities.

- Operates via radio frequency (433 MHz) to overcome walls and obstacles.
- Compatible with switches using a 3.5 mm mono jack plug (switch not included).
- Simple "plug and play" setup with no installation required.
- Supports connection of up to four units for multi-room alerts.
- Emits an audible signal to notify caregivers or family members.
- Dimensions: 11 cm x 6 cm x 4 cm.

IS1387

Enabler Socket+

A plug-and-play receiver that enables remote control of household appliances and adapted devices.

- Allows switching on/off of devices like heaters, lamps, and kitchen appliances.
- Compatible with adapted devices such as toys and battery-operated gadgets.
- Activated via compatible controllers or an external switch.
- Offers three operating modes: ON/OFF, latched, and timed (1 second to 5 minutes).
- Connect up to 16 Enabler Socket+ units within the same environment.
- Supply voltage: 230V AC.
- Size: 11 cm x 5 cm x 5 cm.

IS2190

Personal Alert System

A wireless alert system designed for individuals with disabilities to signal emergencies using a switch-adapted transmitter.

- Includes a wireless transmitter and receiver for simple setup.
- Compatible with switches via a 3.5mm jack socket (switch not included).
- LED indicator on the transmitter confirms activation.
- Emits an audible signal on the receiver for reliable alerts.
- Battery-powered for convenient portability.
- Transmitter requires 1x CR2032 battery (included) and the Receiver/Alarm requires 3x AA batteries (not included).
- Dimensions: 10 cm x 5 cm x 3 cm.

| Product Code	Product Description

IS0143

TASP - Test of Aided Communication Symbol Preferences

Assessment tool designed to evaluate communication symbol skills for AAC users, supporting device setup and intervention planning.

- Assesses skills like matching, labelling, and categorising symbols.
- Includes tools to evaluate language comprehension and syntax.
- Designed for speech-language pathologists and educators.
- Helps tailor AAC systems to individual communication needs.
- Lightweight and portable with easy-to-use assessment materials.

IS1580

The Dyscalculia Assessment - Book
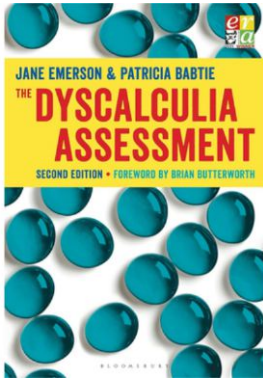

Comprehensive tool for assessing numeracy difficulties in children, supporting personalised teaching plans.

- Investigates maths abilities to identify dyscalculia and related challenges.
- Features step-by-step guidance, photocopiable sheets, and scripted instructions.
- Includes games and activities to reinforce numeracy skills.
- Suitable for SENCOs, TAs, and teachers, with no specialist training required.
- Designed for primary learners but adaptable for older learners.

IS2679

The Dyscalculia Toolkit - Book
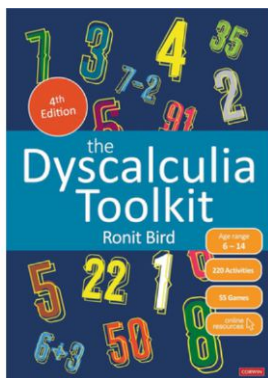

Resource-packed guide designed to support children with dyscalculia and maths learning difficulties through practical strategies and engaging activities.

- Provides games, exercises, and interventions to improve numeracy skills.
- Offers solutions for both primary and secondary learners.
- Easy-to-follow guidance for teachers, SENCOs, and parents.
- Focuses on building confidence and addressing common maths barriers.

IS2280

C-Pen Reader 2

A portable reading aid designed to assist individuals with reading challenges through advanced text recognition and audio playback.

- Utilises AI-based Optical Character Recognition (OCR) for high-speed text scanning and reading.
- Features an OLED screen (256×64) and a 1.2GHz dual-core processor for efficient performance.
- Supports font sizes ranging from 6.5 to 22 points.
- Equipped with a 600mAh battery, rechargeable via Micro USB.
- Includes built-in dictionaries: Collins 30th Anniversary Edition 10th Edition, Oxford Primary Dictionary, and New American Oxford Dictionary.
- Supports English only.
- Dimensions: 13.5cm (L) x 3.3cm (W) x 1.9cm (H).
- Weight: 50g.

IS2311

C-Pen Exam Reader 2

A portable, pocket-sized pen scanner that reads text aloud with a human-like digital voice.

- Supports English, Spanish, French, German, and Italian text.
- Reads exam questions aloud to assist learners with reading difficulties.
- Audio output via headphones for use in exam halls without disruption.
- Lightweight design at just 50g for easy portability.
- Enables independent reading and comprehension during exams.

IS2405

Olympus VN-541PC Voice Recorder

A user-friendly digital voice recorder designed for effortless audio capture in various settings.

- One-touch recording for immediate capture.
- 4GB internal memory, storing up to 2,080 hours of audio.
- Four recording scenes: Memo, Talk, Music, and Long Play.
- Noise cancellation function for clearer playback.
- USB connectivity for easy file transfer to PC or Mac.
- Dimensions: 10.8 cm x 3.9 cm x 1.8 cm.
- Weight: 67 grams; requires 2x AAA batteries (not included).

IS1381

Visual Stress Eye Level Reading Ruler - Pack of 10
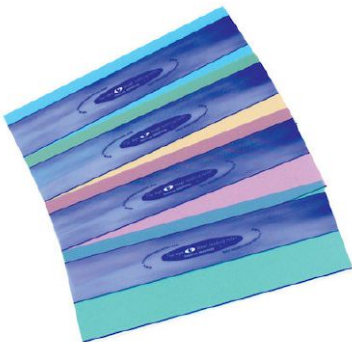

Pack of 10 reading rulers designed to assist individuals with visual stress or dyslexia in improving reading fluency.

- Features a tinted overlay with a text window to reduce glare and improve focus.
- Includes assorted colours to suit individual preferences and needs.
- Portable and easy-to-use tools ideal for classrooms, homes, or offices.
- Helps enhance reading speed, comprehension, and comfort.

Eye Gaze Technology

Product Code	Product Description

IS1697

Eye Gaze Frame with Stand (Perspex) + Alphabet Stickers

A clear eye gaze frame designed to facilitate choice-making and communication using eye pointing.

- Transparent 3mm perspex board allows easy visibility for users and listeners.
- Pictures, words, or symbols can be placed for interaction.
- Detachable stand for use on a desk or handheld.
- Includes colour-coded vinyl alphabet stickers.
- Board dimensions: 45x35 cm; stand dimensions: 45x15x5 cm.
- Lightweight at 420 g (excluding stand).

IS3193

Grid Pad 13

A 13-inch communication aid for individuals with speech and mobility challenges, offering multiple access methods and enhanced performance.

- 13.3-inch full-HD daylight-readable display with anti-glare coating.
- Intel® Core™ i5 11th Gen processor, 16GB RAM, 256GB NVMe SSD.
- Integrated high-quality speakers and second wide-angle screen.
- Supports touch, switch, and optional eye gaze control.
- Built-in GEWA Infrared Environment Control with EasyWave/Z-Wave option.
- Dimensions: 34 cm x 23 cm x 4 cm.
- Weight: 3 kg (without eye gaze); 3.6 kg (with eye gaze).

IS3197

Grid Pad 13 Eye Gaze Unit - Vida

An eye gaze camera designed for seamless integration with Grid Pad 13, enabling users to control their device using eye movements.

- Frame rate: 60Hz for responsive interaction.
- Recovery time: 17ms after tracking loss.
- Head movement tolerance: Supports speeds over 40 cm/s.
- Improved light tolerance for various lighting conditions.
- Powered by IntelliGaze 11 software, optimised for Windows 10 and 11.
- Designed to dock neatly with Grid Pad 13.
- Dimensions: 28 cm x 3 cm x 3 cm.

IS3241

Grid Pad 13 Eye Gaze Unit- Lumin-i

A powerful and precise eye tracker designed for Grid Pad AAC devices to support communication.

- Highly responsive performance for fast and accurate eye tracking.
- Large track box allows for greater head movement and positioning.
- Unique anti-reflection mode improves accuracy for users with coated glasses.
- Bespoke built-in camera unit for seamless integration with Grid Pad 13.
- Designed for durability, creating a robust and dedicated eye gaze solution.

IS2750

Grid Pad 15 + Lumin-i Eye Gaze Module

The Grid Pad 15 is a communication device from Smartbox, offering a large display for users with complex communication needs. The Lumin-i Camera is an advanced eye-tracking solution designed for precision and accessibility, compatible with Grid software.

IS3118

Vida Go Eye Tracker with Intelligaze Control

A portable eye gaze camera that enables individuals to control Windows-based devices using eye movements.

- Compatible with Windows tablets, laptops and desktops.
- Operates at 60Hz for responsive tracking.
- 17ms recovery time after tracking loss.
- Tolerates head speeds over 40 cm/s for smooth tracking.
- Can be mounted on tablets, laptops, and mounting bracket available.
- Dimensions: 28 cm x 3 cm x 3 cm.
- Weight: 105 grams.

IS2910

PCEye Bracket

The PCEye Bracket enables seamless attachment of the PCEye eye tracker to compatible Windows tablets.

- Effortless magnetic mounting ensures quick and secure attachment.
- Compatible with Microsoft Surface Pro 6, 7, 8, and 9.
- Versatile use on a tabletop with the built-in stand or mounted on a wheelchair using REHAdapt, Daessy or VESA systems.
- Constructed from durable metal for longevity.
- Dimensions: 18 cm (H) x 14 cm (W) x 5 cm (D); Weight: 340 grams.

IS2809

Tobii Dynavox PCEye 5 with TD Control

A compact eye tracker that enables individuals with physical disabilities to control a Windows computer using only their eyes.

- Compatible with Windows tablets, laptops, and desktop monitors up to 27 inches.
- USB connection for easy setup.
- Includes TD Control software for intuitive eye-based computer interaction.
- Supports additional communication software like TD Snap and Grid 3.
- Operates effectively in various lighting conditions, including bright light.
- Dimensions: 28.5 cm x 1.5 cm x 0.8 cm.
- Weight: 93 grams.

Grid 3

An AAC software platform that helps individuals with communication challenges express themselves, interact socially, and control their environment.

- Provides symbol and text-based tools for users of all ages and literacy levels.
- Includes vocabularies like Super Core and WordPower for diverse communication needs.
- Offers apps for email, social media, and more, fostering independence.
- Supports touch, eye gaze, switch, and pointer inputs for accessible use.
- Available in over 40 languages, including English & Afrikaans.
- Supports Qfrency SA Voices (sold separately) for voice customisation with local pronunciation and accents. Also supports voice banking.

Single User

IS1341

Eye Can Fly
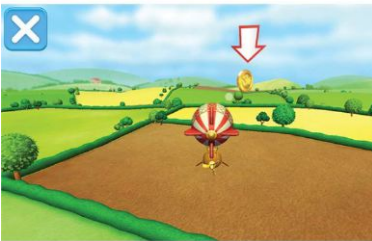

An interactive eye gaze software designed to develop eye tracking skills through a flying adventure.

- Includes 24 engaging missions guided by Aimee.
- Features activities like Balloon Pop, Flight School, and Mini Games.
- Teaches compass directions and geography concepts.
- Compatible with eye gaze devices, mouse pointers, keyboards, and switches.
- Designed for users with some eye gaze experience, offering graded activities.
- Requires Windows 7, 8, 10, or 11.

Single User

IS1159

## Inclusive Eye Gaze Learning Curve

Inclusive Eye Gaze Learning Curve is a comprehensive software package featuring 54 interactive activities to develop eye gaze skills, progressing from cause-and-effect understanding to choice-making and communication.

Designed for learners with special educational needs, it includes tracking, fixation, and selection activities, with tools for assessment and skill development.

- Includes activities for visual tracking, fixation, and interaction.
- Supports early communication and decision-making skills.
- Offers customisable tasks and progress tracking.
- Compatible with Windows 7/8/10/11.
- Sold as a bundle of 3 titles, but also available as individual titles.

Single User

IS3089
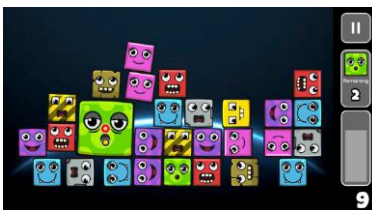

Look Lab

Look Lab is an eye gaze software offering 38 interactive activities to develop skills such as target selection, tracking, and choice making.

- Features games, puzzles, creative arts, and mindfulness exercises.
- Supports easy and standard modes for tailored difficulty levels.
- Includes heat maps for tracking user progress.
- Compatible with Windows 10 and 11 operating systems.
- Requires a minimum of 4GB RAM and 2GB free disk space.
- Supports various eye gaze cameras, including Lumin-i and Vida Go.

Single User

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

IS1068

Look to Learn

Look to Learn is eye gaze software with over 40 activities designed to develop visual tracking, targeting, and choice-making skills. Each activity is designed with input from teachers and therapists to support skill progression.

- Includes five activity areas: Sensory, Explore, Target, Choose, and Control.
- Provides built-in heat maps for tracking progress and assessment.
- Allows personalisation with custom images and videos.
- Compatible with a variety of eye gaze tracking technologies.
- Ideal for learners starting with eye gaze interaction.

IS2768

Look to Learn WITH Scenes and Sounds

A motivating and fun way to get started with eye gaze technology.

- Over 40 specially designed activities to develop eye gaze skills.
- Activities cover five key areas: Sensory, Explore, Target, Choose, and Control.
- Built-in heat map feature for progress tracking and assessment.
- Customisable content with the option to load personal images and videos.
- Developed in consultation with teachers and therapists to enhance access and choice-making skills.
- Compatible with various eye gaze tracking technologies.
- Suitable for users of all ages beginning their eye gaze journey.

IS2309

Look to Read
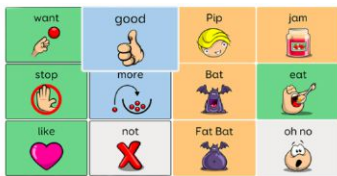

Interactive software enabling children with disabilities to enjoy books independently.

- Includes 16 original animated stories grouped into four reading stages.
- Offers 64 accompanying activities focusing on phonics and story recall.
- Provides symbolised chat grids with core and story-specific vocabulary.
- Supports eye gaze, switch, pointer, and touch access methods.
- Features high contrast mode for users with visual impairments.
- Gradually introduces 95 letter sounds and 100 high-frequency words.
- Compatible with Windows devices.

IS1029

Tobii Sensory EyeFX 2

Sensory Eye FX 2 is eye gaze software with 30 interactive activities designed to teach eye tracking and computer control. It supports skills such as visual tracking, targeting, and engagement, tailored for learners with special needs.

- Includes 30 activities for skill development.
- Teaches visual tracking, targeting, and interaction.
- Compatible with various eye gaze devices.
- Supports progression from sensory engagement to computer control.
- Ideal for learners starting with eye gaze technology.

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

Low Tech Visual Displays

Product Code	Product Description

IS2263

Choice Board Tri-Fold

A trifold choice board made from loop-fabric for communication and activity transitions.

- Provides six usable surfaces for displaying symbols, available in 10 cm x 41 cm (regular) and 30 cm x 41 cm (large (pictured)) sizes.
- Can be used flat or folded into a triangular, self-standing shape.
- Made from durable VELTEX® loop-fabric for easy attachment.
- Two-sided design allows for quick transitions between activities.
- Ideal for picture schedules and structured activity planning.
- Folds flat for easy storage and portability.
- Secured with a hook and loop closure for stability.
- Colour: Black.

IS2071

Fabric Picture Schedule Vertical - Set of 5 Multi-colour strips

A set of five multicoloured fabric schedules designed to organise and display daily activities.

- Each schedule measures 44 cm x 10 cm and includes grommets for hanging.
- Removable pockets allow for repositioning or removal of completed activity pictures.
- Can be hung horizontally or vertically to suit various settings.
- Comes in five colours: red, yellow, green, blue, and orange.

IS2600 / IS2601 / IS0480 / IS0481

Fabric Picture Schedule with Pocket

A fabric picture schedule with a horizontal or vertical layout and a pocket for completed tasks.

- Loop fabric schedule with grommet(s) at the top for hanging.
- Roomy nylon pocket for placement of completed activity pictures.
- Measures 51 cm x 10 cm (regular) or 76 cm x 10 cm (long).

IS2132

Flip When Finished Schedule

The Flip When Finished Schedule is a visual aid designed to help learners manage tasks by flipping cards upon completion.

- Black loop schedule surface measures 86 cm x 10 cm.
- Can be hung horizontally or vertically using grommets.
- Includes eight 9 cm square pockets with clear fronts and coloured vinyl backs.
- Equipped with hook strips on both sides for secure attachment to the loop surface.
- Allows learners to flip pictures over when a task is complete.
- Alternatively, flip to reveal the next task as a surprise or to reduce anxiety about upcoming activities.

IS2544

Literacy Strip with Flip Display Colour Pages

A literacy strip with flip display pages designed to attach to standard-sized books for interactive learning.

- Adjustable elastic straps fit books 20–30 cm high.
- Slides onto the front or back cover for easy attachment.
- Loop fabric surfaces on both sides of the strip accept hook fasteners for pictures, words, or props.
- Includes four multicoloured loop fabric pages (green, yellow, blue, red), each measuring 25 cm x 10 cm.
- Additional strip on the back holds pictures or props not in use.
- For paperback books, use stiff cardboard or plastic to stabilise the cover.

IS0504

Portable Choice/Display Board

A portable choice display board designed for choice-making, sequential activities, or storytelling.

- Made of VELTEX® Brand Loop Fabric inside surface measuring 122 cm x 41 cm when open.
- Durable nylon fabric exterior is easy to clean.
- Equipped with a webbing carrying handle for portability.
- Hook & Loop closure reverses to allow the board to stand upright or angle sides forward for a larger display area.

IS2217

Portable Mini Communication Book

A portable fabric communication book designed for easy attachment to a belt or loop, facilitating on-the-go accessibility.

- Attaches securely to a belt or loop using a strong webbing strap with a snap closure.
- Webbing is connected to the book via hook and loop, allowing for easy detachment during use.
- Holds up to twenty-four 5 cm x 5 cm pictures, with four per page.
- Secured closed by hook and loop for simple opening and closing.
- Available in Black, Burgundy, Camo, Forest Green, Navy, Red and Royal Blue.

IS1007

Portable Object Communication Unit

A portable fabric communication board designed for object-based interaction.

- Equipped with an adjustable webbing handle and Hook & Loop closures for easy transport.
- Stiffened, extra-wide binding accommodates objects up to 15 cm in height.
- Measures 76 cm x 39 cm when open; 30 cm x 39 cm x 15 cm when closed.
- Interior features VELTEX® Brand Fabric; exterior made of waterproof nylon.
- Includes plastic board insert for a stiffened surface.
- Objects not included.

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

IS0507

Portable Waist Communicator

A portable waist-worn communication device featuring loop fabric pages for attaching pictures or symbols.

- Equipped with six VELTEX® Brand Fabric pages, each measuring 10 cm x 22 cm, accepting hook fasteners.
- Two hook and loop tab closures for easy opening and closing.
- Zippered outer cover made of durable nylon, available in six colours.
- Back of cover has loops to fit any belt up to 5 cm wide (belt not included).

IS0525

Waist Apron

Ideal for communicating visually with the class whilst keeping both hands free to teach. Having your symbols or words readily available means you can model the use of language at all times and have the user's required word choices easily accessible.

- Holds up to thirty-two 5 cm x 5 cm pictures.
- Includes four pockets for storing unused pictures.

IS1016

Wrap Around Activity Sequence Mat

A versatile communication mat designed for interactive activities, featuring clear removable covers.

- Usable on both sides for quick activity changes or additional picture storage.
- Loop fabric measures 37 cm on sides and 58 cm along the top; strip width is 10 cm.
- Includes removable clear covers to protect materials during messy activities or mealtime.
- Can be folded in half for convenient storage.

IS2728 / IS2729 / ISIS2602 / IS2603

Velcro®

Velcro® Brand self-adhesive hook and loop fasteners for versatile applications.

- Available as 13mm diameter hook and loop coins or 20mm wide hook and loop tape.
- PS14 rubber-based adhesive for strong bonding on smooth surfaces (not suitable for PVC or plasticised materials).
- Ideal for crafts, educational projects, display setups, and positioning aids.
- Coins pair with compatible hook or loop components for secure fastening.
- Tape can be cut to size for customised applications.
- Colour: White or Black
- Supplied in 25m rolls.

Mounting & Positioning

Product Code	Product Description

IS1281

Inclusive Gooseneck Flexible Mounting Arm with Super Clamp

A heavy-duty and stable gooseneck switch mount designed for flexible positioning of accessibility switches.

- Extends up to 51 cm (20 inches) for versatile placement.
- Includes a Super Clamp for secure attachment to various surfaces.
- Requires a compatible mounting plate (sold separately).
- Switch not included.

IS3115 / IS3114

Inclusive Triangular Mounting Plate

Heavy-duty, triangular mounting plate designed to securely attach assistive technology devices, including switches, communicators, joysticks, and rollerballs.

- Available in two sizes: 8.5 cm (small) and 14.5 cm (large) on each side.
- Compatible with various devices, including Optima Joystick/Trackball, nAbler Joystick/Trackball, BIGmack, Big Red Switch, and more.
- Includes Allen key and screws for secure mounting.
- Designed for use with mounting arms such as Gooseneck and MagicArm.

IS1171

Lightweight Switch Mounting

A lightweight switch mounting solution designed for quick and easy positioning of accessibility switches.

- Extends up to 51 cm (20 inches) for versatile placement.
- Features a clamp that anchors to various surfaces, including wheelchairs and table edges.
- Supports devices weighing up to 2 kg.
- Requires a compatible mounting plate (sold separately).
- Switch not included.

IS3129

Magichold Height Adjustable Laptop/Tablet Floorstand

A versatile 3-in-1 stand offering 360-degree rotation and height adjustment, compatible with laptops and tablets for use on beds, floors, or desks.

- Supports devices from 7 to 17 inches, including iPad Pro 12.9", MacBook Pro/Air, and Microsoft Surface Pro/Book.
- Adjustable height ranging from 31 cm to 102 cm.
- 360-degree rotation and 90-degree tilt for optimal viewing angles.
- Sturdy aluminium alloy construction for durability.
- Foldable design for easy storage and portability.
- Slip-resistant base ensures stability on various surfaces.
- Dimensions: 36 cm x 10 cm x 4 cm; Weight: 4.1 kg.

IS0963 / IS0964

Maxess Clear Joystick & Trackball Rest

Clear Joystick and Trackball Rests provide stable and ergonomic positioning for special needs joysticks and trackballs.

- Designed specifically for special needs joysticks and trackballs.
- Available in two angles to suit user preferences:
  - Shallow Rest: 14 cm x 22 cm slope at a 20-degree angle.
  - Steep Rest: 14 cm x 22 cm slope at a 45-degree angle.
- Clear material allows for unobstructed visibility during use.
- Joystick and Trackball shown not included.

IS0544 / IS0542 / IS0540

Maxess Switch Mount

Maxess Switch Mounts provide angled positioning options to enhance control and accessibility for switch users.

- Compatible with the Maxess Switch Tray for versatile positioning.
- Secures switches in sloping or right-angle positions for tailored use.
- Includes a hook dot fixing pack for one switch.
- Available in three sizes:
  - Small: Ideal for "Specs" switches; sloping surface 65 mm x 70 mm.
  - Medium: Ideal for "Smoothie 75mm" switches; sloping surface 80 mm x 90 mm.
  - Large: Ideal for "Smoothie 125mm" switches; sloping surface 105 mm x 135 mm.

IS0545 / IS0453 / IS0541

Maxess Switch Tray

Maxess Switch Trays securely hold switches or switch mounts, providing versatile and efficient positioning for switch users.

- Developed in collaboration with therapists and switch users for optimal functionality.
- Robust, lightweight, and wipe-clean design suitable for desktops or wheelchair trays.
- Allows tidy cable management for a clutter-free setup.
- Available in three sizes:
  - Small: 240 mm x 360 mm (A4 pad size), ideal for single switch users or tight spaces.
  - Medium: 350 mm x 350 mm, designed to fit most wheelchair trays.
  - Large: 540 mm x 290 mm, perfect for desktop use.

IS2976

REHAdapt Adapter UDS - Surface Pro 8/9/10/11

A secure mounting cradle for Microsoft Surface Pro 8, 9, 10, and 11, designed for Rehadapt's Universal Device Socket (UDS) to enable versatile mounting solutions.

- Compatible with Surface Pro models 8, 9, 10, and 11 (2021-2024).
- Requires Rehadapt's UDS for attachment (sold separately).
- Provides stable and secure support for tablets during use.
- Easily integrates with Rehadapt modular mounting systems.
- Constructed with durable materials for long-term reliability.
- Simple installation and removal for user convenience.
- Lightweight; dimensions 30 cm x 20 cm x 5 cm; weight 500 g.

IS0537

REHAdapt ClampOnMount

A versatile tabletop mounting system designed for secure attachment of devices to various surfaces.

- Features a SuperClamp base for easy and stable mounting to tables or boards.
- Equipped with two adjustable tubes and QuickShift levers for flexible positioning.
- Includes a double-clamping Universal Device Socket (UDS) for secure device attachment.
- Supports up to 5.4 kg.

IS0952

REHAdapt Custom Wheelchair Mount

Each wheelchair is unique, and in partnership with Rehadapt, we provide a customised service to securely mount your communication device to your chair. The system features easy-to-use ratchet joints, allowing tool-free adjustment of the device's angle and position. It also offers the flexibility to move your device out of the way when needed.

Rehadapt's Virtual Mounting Service (VMS) simplifies the process of designing personalised mounting solutions for assistive devices. High-quality photographs of the wheelchair and device are crucial for accurate customisation, and Rehadapt provides clear guidelines to help you capture the necessary images. The "VMS to Go" app further streamlines data collection, even when offline, ensuring all required details are covered for a complete VMS request.

Contact us to discuss the VMS process and request a quote.

IS0538

REHAdapt Floorstand TeleLock

A telescopic rolling floorstand designed for positioning devices over beds, recliners, or wheelchairs.

- Overhanging arm composed of Monty 3D tubes for flexible positioning.
- Gas spring-supported height adjustment for effortless customisation of heights between 46-198cm.
- Constructed from super-strong aircraft-grade aluminium for durability.
- Equipped with a Universal Device Socket (UDS) quick-release system with two levers for secure device attachment.
- Load capacity: 10 kg.

IS1529

REHAdapt MA-GoTalk / Universal Plate

The MA-GoTalk is a device adapter designed to mount GoTalk communication devices (and other larger devices) onto Rehadapt's MagicArm system.

- Securely attaches GoTalk devices to the MagicArm for flexible positioning.
- Includes necessary Velcro fastening parts for installation.
- Dimensions: 17 x 15 cm.

IS1442

REHAdapt MagicArm with SuperClamp

A versatile articulated arm with a SuperClamp, designed to securely mount devices onto various surfaces, accommodating elements sized 13–50 mm.

- Articulated arm with ball joints for flexible positioning.
- Single locking knurled knob for quick and secure adjustments.
- SuperClamp compatible with angular or round elements sized 13–50 mm.
- Supports devices up to 3 kg, suitable for lightweight equipment.
- Compatible with various Rehadapt accessories and adapters.
- Constructed from durable materials for long-lasting use.
- Dimensions: 50 cm length; Weight: 700 grams.

IS1201

REHAdapt Table Clamp OneHand

A robust table clamp mount designed to support devices ranging from 0.7–11 kg, allowing effortless repositioning with 90° vertical and 360° horizontal movement.

- Available in three weight capacities: 0.7–3 kg (OH Light), 2–6 kg (OH) and 6–11 kg (OH-HD).
- One-hand adjustment for easy repositioning.
- SuperClamp base compatible with surfaces up to 5 cm thick.
- Constructed from durable aluminium alloy.
- Quick-release system for swift device attachment and removal.
- Dimensions: 50 cm length; Weight: 1.5 kg.

IS0549

REHAdapt Table Stand XL

A robust tabletop mounting system with an X-shaped frame and automatic surface levelling, providing stable support for assistive devices on various surfaces.

- Adjustable device height from 0.5 cm to 50 cm.
- Universal Device Socket (UDS) included for quick device attachment.
- Constructed from durable aluminium alloy.
- Slip-proof rubber feet ensures stability.
- Folds flat for easy transportation and storage.
- Supports devices up to 9 kg.
- Dimensions: 50 cm x 42 cm x 54 cm; Weight: 880 grams.

IS2650

REHAdapt Universal Tablet Holder 7-13"

A highly adjustable tablet holder designed to mount tablets ranging from 7 to 13 inches onto wheelchairs using Rehadapt's Universal Device Socket (UDS).

- Compatible with tablets like Apple iPad and Samsung Galaxy, with or without protective cases.
- Adjustable holding points accommodate devices up to 36 mm thick, ensuring minimal contact to keep ports and display unobstructed.
- Secured with knobs and a 2.5 mm Allen wrench for customised positioning.
- Compatible with the EyeGaze Bracket for eye-tracking applications.

Sensory Resources: Aromas, Auditory, Chews & Weighted

Product Code	Product Description

IS1557

Aroma Diffuser Professional

This Waterless Diffuser is a battery-operated, portable aromatherapy device ideal for use in classrooms, sensory rooms, and other therapeutic environments.

- Utilises patented waterless diffusing technology to convert essential oils into a nano mist without heat or water.
- Optimised for spaces up to 500 square feet, with adjustable mist settings and timer options for personalised comfort.
- Lightweight and compatible with 5/10/15/20 ml oil bottles for easy installation and use.
- Built-in lithium battery provides up to 48 hours of runtime; rechargeable via USB-C.
- Compact design fits most car cup holders, enhancing portability.

IS1559

Aroma HuggaBuddies - Giraffe

Aroma Huggabuddies - Giraffe is a super soft and sensory plush toy designed to provide tactile, visual, and aromatic stimulation.

- Cuddly and can be warmed in the microwave for added comfort.
- Pleasantly heavy, it sits in the small of your arm like a baby.
- Can be posed to imply emotions, enhancing interactive play.
- Emits a pleasant lavender aroma for a calming effect.
- Dimensions: approximately 21 cm (H) x 16 cm (W) x 20 cm (L).

IS2293

Colour Changing Aroma Diffuser with Bluetooth Speaker

A colour-changing aroma diffuser with Bluetooth speaker functionality to enhance sensory experiences.

- Features nine LED lights with dynamic colour-changing effects.
- Bluetooth-enabled for wireless music streaming via Android and iPhone devices.
- 500 ml diffuser tank disperses liquid fragrances at intervals.
- Includes AC adapter and measuring jug for easy use.
- Made with durable PP and ABS materials.
- Dimensions: 15 cm x 12 cm; weight: 520 g.

IS1556

Essential Oils Therapeutic Blends

A curated collection of essential oil blends designed to promote well-being and relaxation.

- Features a selection of therapeutic-grade essential oil blends.
- Includes: 1 x Sleep Easy; 1 x Stress Relief; 1 x Breathe Easy; 1 X Spirit Lifter.
- Perfect for exploring aromatherapy in various environments.
- Packaged for convenience and ease of use.
- Suitable for personal, educational, and therapeutic applications.

IS3240

15-Note Xylophone Glockenspiel

A 15-note xylophone glockenspiel designed for both children and adults to explore musical concepts.

- Features 15 silver aluminium bars, each engraved with note names for easy identification.
- Mounted on a durable wooden base for stability during play.
- Includes two wooden mallets for immediate use.
- Dimensions: 42 cm (L) x 22 cm (W) x 4 cm (H); weight: 1.2 kg.

IS1694

Bendy Bells - Set of 6

A set of 6 wrist bells designed to add a musical element to various activities.

- Includes 6 wrist bells, each in a different colour - orange, green, blue, purple, red and pink.
- Each wrist bell features four jingle bells attached to a durable strap.
- Adjustable straps ensure a comfortable fit for different wrist sizes.
- Ideal for music classes, parties, and interactive activities.

IS3124

Edushape Memory Game - Shake, Listen & Match
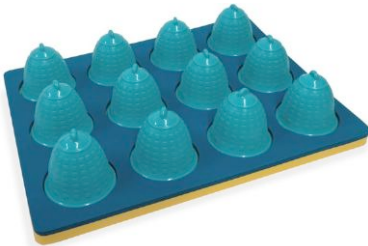

The Edushape Shake, Listen & Match is an educational memory game designed to enhance sensory development in toddlers and children.

- Includes 12 bells with 6 unique sounds for auditory matching.
- Encourages listening skills, sound recognition, and memory development.
- Suitable for individual or group play, promoting social interaction.
- Made from durable, child-safe materials for long-lasting use.
- Dimensions: 34 cm x 7 cm x 25 cm; weight: 454 g.

IS2307

Ear Defenders

Comfortable and durable earmuffs providing 26dB SNR hearing protection, supplied in assorted colours.

- Reduces noise levels by 26dB SNR, safeguarding ears in loud environments.
- Adjustable headband ensures a secure and comfortable fit for various head sizes.
- Constructed with durable ABS cups and steel frame to withstand rough handling.
- Soft foam ear cushions provide extended comfort during prolonged use.
- Certified to European EN352 and American ANSI S3.19 standards for reliable protection.
- Colours available: red, black, navy blue, pink, green and sky blue.
- Kids and/or adult sizes available.
- Lightweight design suitable for extended wear; weight: approximately 200 grams.

IS1638

Musical Bells - Set of 8

A set of eight combi handbells designed for interactive music-making, featuring dual play modes.

- Set includes 8 notes ranging from C64 to C76.
- Dual play: shake or press the top of the bell to produce sound.
- Offers superb tone and precise tuning.
- Compatible with CB5 to create a full chromatic scale.
- Follows the same colour coding as Boomwhackers and KB10 chime bars for easy integration.

IS1923

Musical Castanets - Set of 3

A set of 3 wooden finger castanets featuring various animal designs, ideal for introducing children to rhythm and music.

- Includes 3 castanets with different cute animal patterns.
- Made from quality wood bound with elastic rope for durability.
- Each castanet measures approximately 5.5 cm in diameter.
- Non-toxic materials ensure safety for young users.

IS1900

Musical Instruments Assorted Pack

A 10-piece wooden musical instrument set designed for babies, toddlers, and children to explore rhythm and sound.

- Includes a variety of instruments such as a tambourine, triangle with stick, wrist bells, plastic
castanets, plastic maracas, and wooden claves.
- Encourages hand-eye coordination and auditory development.
- Comes with a clear compact storage bag with handles for easy organisation and portability.
- Made from child-safe materials suitable for young users.

IS1572

Rain Tube

A natural percussion instrument that mimics the soothing sounds of a rainstorm.

- Crafted from cactus wood housing integral beads.
- Produces hypnotic and enchanting sounds with minimal movement.
- Ideal for creating atmospheric scenes or enjoying as beautiful music.
- Dimensions: 25 cm (L) x 4 cm (diameter).

IS1565

Snoezelen CD
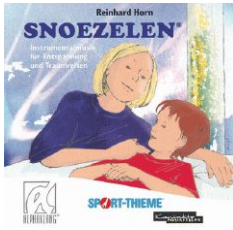

A themed music CD designed to enhance relaxation and Snoezelen sessions.

- Features tracks titled 'Bubble Tubes', 'Listening', and 'Light'.
- Total runtime of approximately 53 minutes.
- Dimensions: 14 cm (W) x 12.5 cm (D) x 0.5 cm (H).

IS2955

Sound Puzzles

A wooden puzzle featuring eight themed pieces designed to enhance fine motor skills and hand-eye coordination.

- Each piece is easy to grasp, suitable for small hands.
- Full-colour matching pictures beneath each piece guide correct placement.
- Encourages creative expression and problem-solving abilities.
- Sturdy wooden construction ensures durability for repeated use.
- Themes available: Pets, Farm, Instruments, Vehicles & Zoo.
- Dimensions: 30 cm (L) x 22 cm (W) x 2 cm (H); weight: 400 g.

IS3216

Cheeky Chompers Neckerchew

A reversible 2-in-1 bib with an attached teether, offering comfort, absorbency, and safety for all users, including older children and adults.

- Designed in the UK with a reversible design for versatile wear.
- Made from 3-layer super soft, absorbent jersey cotton to lock away moisture.
- Features a double popper design for adjustable sizing, available in two sizes: Medium (38–42 cm with a 25 cm drop) and Large (42–50 cm with a 32 cm drop).
- Designs include: Preppy Stripes (M&L), Polka Dots (M) & Botanical Bloom (L).
- 100% BPA and phthalate-free, ensuring safety for all needs.
- FDA-approved product for added reassurance.

IS3134

Chew Necklaces for Sensory Kids - 4 Pack

Pack of chewable necklaces designed to help children with sensory needs manage anxiety and focus.

- Made from food-grade silicone for safe and durable chewing.
- Includes 4 colours (red, purple, blue & green) with adjustable cords and breakaway clasps.
- Lightweight and portable for use at home, school, or therapy sessions.
- Helps address oral sensory needs and reduce stress.

IS3133

Munchables Donut Chewy Necklace - for Strong Chewers

Durable chewable necklace designed to support children with sensory processing needs and anxiety.

- Made from 100% food-grade silicone, safe for chewing.
- Adjustable cord with a breakaway clasp for safety.
- Lightweight, durable, and stylish for daily use.
- Suitable for home, school, or therapy environments.

IS3136

Munchables Teen Cuff

Durable silicone sensory bracelet designed for teens and adults to address oral motor and sensory needs.

- Made from food-grade silicone, safe for chewing and gentle on teeth.
- Stylish cuff design for discreet sensory support in daily activities.
- Helps reduce anxiety, improve focus, and provide sensory input.
- Suitable for mild to moderate chewers, easy to clean, and reusable.

IS3135

P Shaped Chew for Sensory Kids - 4 Pack

Pack of four P-shaped sensory chew toys designed for children with autism, ADHD, or sensory processing needs to promote calm and focus.

- Made from 100% food-grade silicone, free of BPA, phthalates, and lead.
- Features three textured surfaces to soothe gums and improve concentration.
- Lightweight and easy to hold, suitable for mild to moderate chewers.
- Dishwasher-safe for easy cleaning and maintenance.
- Designed for children 3 months and older.

IS3122 / IS3121

Sensory Silicone Chew Sticks - 5 Pack
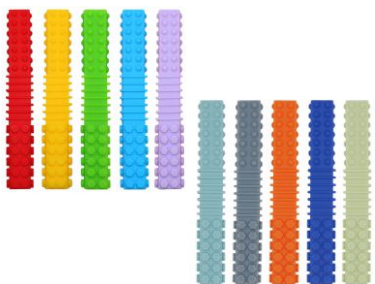

Pack of sensory chew sticks designed for children with autism or sensory processing needs, promoting calm and focus.

- Made from food-grade silicone, safe and durable for chewing.
- Features attractive colours to increase visual stimulation.
- Portable design, suitable for home, school, or therapy settings.
- Helps alleviate stress and meets oral sensory needs.
- Available in bright rainbow colours or soft muted colours.

IS3081

Sequin Weighted Lap Pad - 2.3kg

A weighted lap pad with reversible sequins for sensory input and calming effects.

- Provides deep pressure for comfort and security.
- Reversible sequins offer a tactile and visual fidget element.
- Helps reduce anxiety and improve focus.
- Ideal for sensory regulation in various settings.
- Supports concentration by keeping hands engaged.
- Size: 46x37x2 cm.
- Weight: 2.3 kg.

IS3246

Weighted Child Wrist Bands Pair – 200g Each

A pair of weighted wristbands designed to support handwriting and sensory development.

- Provides gentle weight to enhance strength and stability.
- Supports handwriting by improving hand control.
- Aids sensory regulation for children with ADHD.
- Comfortable synthetic material for all-day wear.
- Adjustable fit for children of all ages.
- Colour: Green.
- Weight: 200 g each.

IS2790

Weighted Plush Animal Toy - 2.25kg Sloth

Calming weighted plush sloth designed to provide comfort and reduce anxiety.

- Provides deep pressure stimulation for a calming effect.
- Soft, huggable design suitable for all ages.
- Machine washable cover for easy cleaning.
- Includes a carrying bag for portability.
- Dimensions: 40 cm x 25 cm x 15 cm.
- Weight: 2.3 kgs.
- No batteries required.

IS3131

Weighted Warm Pal

A microwavable plush tiger infused with a calming lavender scent, providing soothing comfort for children.

- Offers warmth when microwaved for 60-90 seconds.
- Can be cooled in the freezer for relief during hot moments.
- Filled with natural grains for comforting pressure stimulation.
- Soft and cozy design suitable for babies, toddlers, and youth.
- Options available: Elephant, Snake, Tiger, Puppy, Hedgehog, Bear and more.
- Weight: 700 g.

Sensory Resources:
Fine & Gross Motor

Product Code	Product Description

IS2584

AquaPaint - Transport

A reusable water painting set featuring transport-themed images, designed to provide a creative and mess-free therapeutic art activity.

- Includes 5 different images: train, motorbike, car, bus, and vespa.
- Encourages conversation and helps maintain independence.
- Age-appropriate and engaging for various users.
- Dimensions: 26 cm x 21 cm.

IS2785

Colour Matching Ants Maze

Magnetic maze board designed to develop fine motor and handwriting skills in children.

- Magnet-tipped pencils guide coloured balls through a maze, encouraging a tripod grasp.
- Features a durable plastic cover to safely contain the balls.
- Enhances hand-eye coordination, problem-solving, and visual tracking skills.
- Compact and lightweight, ideal for indoor play.
- Size: 31 x 31 x 3 cm; Weight: 1.1 kg.

IS3079

Fidget/Fine Motor Book

A sensory fidget blanket designed to provide tactile stimulation and relieve anxiety.

- Features bright colours to aid in colour recognition.
- Includes various textures and activities to keep hands engaged.
- Durable, neatly sewn design for long-term use.
- Compact and lightweight for easy portability.
- Dimensions: 30 cm x 20 cm.
- Weight: 200 g.

IS3309

Therapy Putty - Set of 3 with Different Strengths

A set of three therapy putty containers designed to support hand strengthening, rehabilitation, and fine motor skill development.

- Includes three resistance levels: Extra Soft (Tan), Soft/Medium (Red), and Firm (Blue).
- Colour-coded for easy identification and progressive hand exercises.
- Made from non-toxic, latex-free materials for safe use.
- Improves grip strength, finger dexterity, and muscle coordination.
- Each container holds 57 g of putty.
- Soft texture also suits stress relief and sensory engagement.

IS2048

Threading Fruit & Veg (24 Pieces)

Educational threading game featuring 24 chunky wooden fruits and vegetables designed for early learning.

- Promotes coordination, hand-eye skills, and creativity.
- Encourages counting, shape recognition, and colour identification.
- Includes an easy-to-thread lace with a plastic tip for small hands.
- Durable, high-quality wooden pieces with vibrant details.
- Size: 25 x 16 x 11 cm.
- Weight: 950 g.

IS2047 / IS2046

Wooden Cutting Game with Chopping Board

A wooden pretend play set designed to help children identify different types of fruits and vegetables while developing fine motor skills, available in two versions.

-One version includes various wooden fruits, while the other features wooden vegetables, each set designed for interactive play.
- Both sets include a wooden knife and feature hook and loop fasteners for realistic cutting action.
- Encourages imaginative role-play, hand-eye coordination, and early learning through pretend food preparation.
- Constructed from durable, child-safe materials for long-lasting use.
- Fruit set dimensions: 21.5 cm (L) x 15 cm (W) x 7 cm (H); Vegetable set dimensions: 24 cm (L) x 24 cm (W) x 2.5 cm (H).
- Weight: 500 g each.

IS2050 / IS3239

Wooden Puzzles

A wooden peg puzzle featuring numbers 1 -10, or letters a - z, designed to aid in number/letter recognition and fine motor skill development.

- Each piece includes a small peg for easy grasping by little hands.
- Brightly coloured to engage and attract learners.
- Constructed from durable wood for long-lasting use.
- Dimensions: 30 cm (L) x 22 cm (W) x 1 cm (H).
- Weight: 300 g.

IS2620

Wooden Shoelace Fine Motor Trainer

A wooden lacing sneaker designed to teach children how to tie their shoes.

- Made from durable wood for long-lasting use.
- Features a real shoelace to practice tying.
- Brightly coloured to engage young learners.
- Dimensions: 13 cm (H) x 10 cm (W) x 19 cm (L).
- Weight: 400 g.

IS3137

Wooden Sorting Box with Matching Games

A wooden sorting toy designed for children to develop fine motor skills through colour and shape matching.

- Includes 8 category boards and 80 small wooden blocks featuring fruits, vegetables, animals, stationery, clothing, transportation, numbers, and shapes.
- Encourages colour recognition, hand-eye coordination, and memory enhancement.
- Lightweight and portable, suitable for various settings such as home, garden, car, or hotel during trips.
- Made from non-toxic wooden materials, ensuring safety for children and the environment.
- Meets ASTM toy safety standards for durability and child safety.
- Dimensions: 29 cm (L) x 11 cm (W) x 9 cm (H); weight: 590 g.

IS3087

Hugging Inflatable Peapod Sensory Hug Canoe Boat

A soft, inflatable sensory pod offering calming deep-pressure therapy and fostering focus and relaxation.

- Provides soothing deep pressure for sensory comfort and calming effects.
- Helps children with ADHD, autism, and sensory processing challenges feel secure.
- Durable flocked vinyl construction with triple-welded seams for safety and strength.
- Includes an electric pump for quick inflation and a repair kit for convenience.
- Features 3 inflatable compartments to allow gentle rocking for stress relief.
- Safety tested, latex and phthalate-free, and easy to clean with surface wash.
- Size: 150cm x 76cm x 43cm. Max weight: 158kg.

IS3086

Inflatable Sensory Roller with Tactile Nubs - Peanut
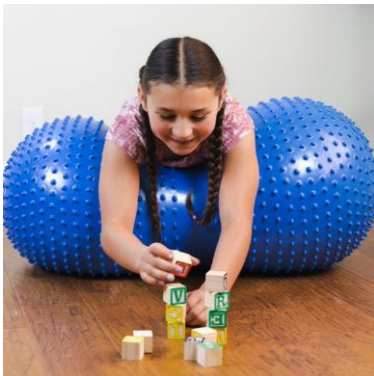

Inflatable sensory roller with tactile nubs, designed for deep pressure therapy, balance, and sensory stimulation.

- Provides deep pressure when sitting, lying, or leaning, promoting calmness and relaxation.
- Textured surface with tactile nubs for sensory input.
- Dipped sitting position offers stability and improves balance and coordination.
- Strengthens core muscles through bouncing, rocking, and sitting exercises.
- Includes pump, 2 stoppers, and a stopper remover.
- Size: 91 cm x 51 cm.
- Weight limit: 159 kg.

IS3248

Large Rotating Sensory Skateboard Bean-Shaped

A large wooden rotating skateboard designed to stimulate the vestibular system, improve balance, and support sensory integration therapy.

- Helps treat vestibular nystagmus and improve trunk rotational movements.
- Strengthens flexor muscles and promotes isolation of eye and head movements.
- Provides therapeutic stimulation for vestibular hyposensitivity.
- Ideal for enhancing balance skills and spatial orientation.
- Durable wooden construction, ready to use with no assembly required.

IS2030
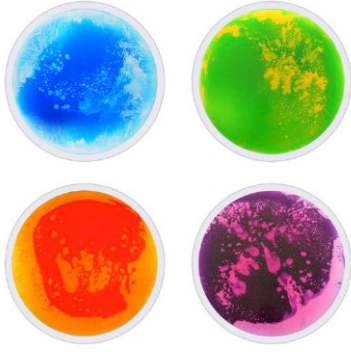

Liquid Floor Tiles - Large Round (Pack of 4)

A set of four round liquid floor tiles designed to create a visually stimulating and tactile sensory experience.

- Each step or movement causes the liquid gel to shift, forming dynamic colour patterns.
- Suitable for use on floors, tabletops, or any flat surface.
- Cushioned, non-slip backing ensures safety and stability during use.
- Waterproof and capable of withstanding loads up to 500 kg per tile.
- Constructed from sturdy plastic for durability under vigorous use, including wheelchairs.
- Dimensions: 50 cm (diameter); weight: 6.6 kg per set.

IS2106

Liquid Floor Tiles - Large Square (Pack of 6)

A set of six sensory liquid floor tiles designed to provide a dynamic visual and tactile experience, ideal for sensory environments.

- Each step or movement causes the liquid gel to shift, forming ever-changing colour patterns.
- Pack includes six tiles, each with a cushioned non-slip backing for safety and stability.
- Can be used on floors, tabletops, or any flat surface for versatile applications.
- Durable enough to withstand jumping, strenuous use, and the weight of wheelchairs.
- Constructed from sturdy plastic for long-lasting use.
- Dimensions: Each tile measures 50 cm x 50 cm; total weight: 11 kg per set.

IS2291
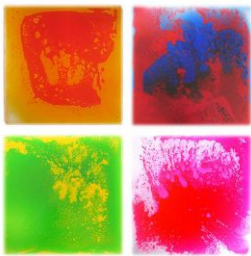

Liquid Floor Tiles - Small Square (Pack of 4)

A vibrant tactile and visual experience with liquid gel tiles that respond to movement and pressure.

- Each tile shifts colours with steps or pressure, creating dynamic patterns.
- Usable on floors, tabletops, or any flat surface.
- Waterproof and non-slip for safe and versatile use.
- Sturdy construction supports loads up to 500 kg per tile.
- Perfect for sensory rooms or personalised spaces.
- Size: 30 cm x 30 cm.
- Weight: 4 kg.

IS2960

Liquid Floor Tiles - Equilateral Triangle (Pack of 6)

A set of equilateral triangle liquid gel tiles that create stunning visual effects with each step or movement, perfect for sensory rooms and environments.

- Filled with liquid gel that shifts and creates colourful patterns in response to pressure.
- Pieces fit together to form a large hexagonal shape, encouraging creative configurations.
- Durable enough for jumping, wheelchair use, and strenuous activity by children and adults.
- Non-slip cushioned backing ensures stability on smooth surfaces without installation.
- Can be used on floors, tabletops, or any flat surface for versatile sensory play.
- Size: Each tile measures 33cm x 33cm.

IS2434

Liquid Floor Tiles - Hopscotch (Pack of 10)

Pack of 10 sensory liquid floor tiles with numbered designs for interactive play and learning.

- Each tile features a brightly coloured number from 1 to 10.
- Filled with vibrant liquid gel that forms shifting patterns with movement.
- Ideal for sensory stimulation, number recognition, and interactive play.
- Non-slip cushioned backing ensures stability on flat surfaces.
- Durable and wheelchair-friendly, supporting strenuous use.
- Can be used on floors or tabletops.
- Size: 40 cm x 40 cm per tile.

IS2959

Liquid Floor Tiles - UV Reactive (Pack of 4)
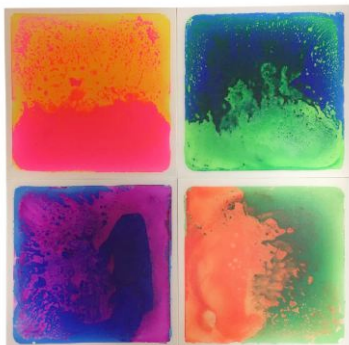

A set of four UV-sensitive liquid floor tiles designed to enhance sensory experiences through visual and tactile stimulation.

- Each tile measures 40 cm x 40 cm, providing ample space for interaction.
- Filled with bright liquid gel that reacts under UV light, creating dynamic, ever-changing shapes.
- Encourages visual stimulation, movement, and touch, making them ideal for sensory rooms or environments.
- Durable construction ensures long-lasting use in various settings.

IS3203

Medium Sensory Therapeutic Body Roller

A medium-sized roller designed for sensory integration therapy, providing proprioceptive input to reduce tactile defensiveness and support sensory modulation.

- Helps treat tactile defensiveness by delivering proprioceptive sensations.
- Allows adjustable pressure for customisable therapeutic experiences.
- Essential tool for sensory diets prescribed by occupational therapists.
- Constructed from durable wood for long-term use.
- Supports sensory integration therapy for children with sensory challenges.
- Size: Length 120cm.
- Assembly required.

IS3249

Rotating Sensory Skateboard

A medium-sized wooden sensory skateboard designed to treat dyspraxia, stimulate the vestibular system, and support sensory integration therapy.

- Provides cushioned seating for safe and comfortable therapy sessions.
- Smoothened edges reduce the risk of injury during use.
- Eyelet allows for rope attachment, expanding exercise possibilities.
- Supports tonic labyrinthine reflex integration for improved motor coordination.
- Stimulates linear movement receptors to aid in treating postural disturbances.
- No assembly required, ready for immediate use.

IS3165

Sensory Interactive Rechargeable Plastic Light Up Tile (Single Unit)

A versatile round light-up sensory tile with interactive LED lights, offering dynamic tactile and visual stimulation for movement and exploration.

- Lights change colour with touch or sound, encouraging movement and engagement.
- Features interactive and remote-controlled modes for customisable lighting effects.
- Promotes sensory stimulation, spatial awareness, and gross motor skill development.
- Durable and safe for children, adults, and wheelchair use with a rounded surface.
- Portable design allows for use on floors, walls, or tabletops.
- Rechargeable and mains-powered for convenient and flexible use.
- Size: 50cm diameter.

IS3245

Sensory Pop up Tunnel with LED Balls

An extra-large sensory tunnel with 5 LED flashing balls, designed for active play and sensory stimulation, ideal for older or larger children.

- Wider design accommodates older or more solid children for inclusive play.
- Dark interior enhances sensory effects and LED ball visibility.
- Features top holes for dropping LED flashing balls, adding excitement.
- Encourages movement-based play to develop motor skills, balance, and coordination.
- Quick pop-up design for effortless setup and storage.
- Tunnel size: 50cm diameter x 199cm length.
- Ball size: 7cm diameter.

IS2008

Sit and Spin

A seated spinner sensory toy designed to promote physical activity and motor skill development in children aged 3 and up.

- Constructed with a metal shaft and base plate for enhanced durability.
- Larger size accommodates a wider age range of children.
- Encourages active play, aiding in the development of balance and coordination.
- Easy assembly, typically completed in about 5 minutes by an adult.
- Maximum weight supported: 45kg.
- Available in Blue or Green.
- Dimensions: 55 cm (L) x 55 cm (W) x 30 cm (H); weight: 5 kg.

IS3164

Textured Massage Liquid Sensory Tiles (Pack of 6)
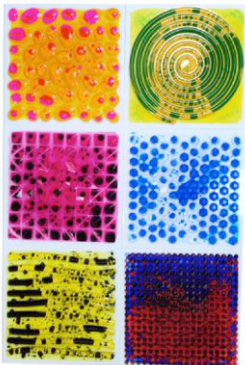

A set of 6 sensory tiles filled with liquid gel, offering a dynamic tactile and visual experience to promote movement and engagement.

- Provides a captivating tactile and visual exploration with textured liquid gel.
- Encourages sensory play through bright colours and ever-changing shapes.
- Stimulates touch and sight, ideal for multi-sensory environments.
- Perfect for sensory rooms, classrooms, or therapy settings.
- Durable and safe for stepping, pressing, or touching.
- Size: Each tile measures 30cm x 30cm.

Sensory Packs

Product Code	Product Description

IS1744

Aromas Sensory Pack

Relaxation and sensory wellness bundle combining aromatherapy, warmth, and therapeutic oils.

- Includes a compact, waterless essential oil diffuser for soothing aromatherapy sessions.
- Features a therapeutic blends starter pack and a Warm Pal elephant for comfort and relaxation.
- Ideal for creating a calming and sensory-rich environment at home, in classrooms, or during therapy.

IS3213

Cortical Visual Impairment (CVI) Sensory Pack

Comprehensive CVI Pack designed to support visual development and sensory engagement in individuals with Cortical Visual Impairment.

- Includes tools like an A3 light panel, black choice board, rotating disco ball, and light-up sensory items.
- Features tactile learning aids such as squidgy sparkle letters, numbers, and shapes.
- Comes with a vision development set (red or yellow) including everyday items and reflective tape.
- Provides sensory stimulation and aids in developing visual tracking and engagement.
- Batteries required are included.

IS2769

Dark Den Accessories Pack with Giant Dark Den

Enhance sensory experiences with this curated set of interactive tools, ideal for educational and therapeutic settings.

- Giant Dark Den Tent: 120 cm x 180 cm x 120 cm, creates a dark environment for sensory play; includes plug socket holes.
- Colour-Changing Mood Pebble: Pebble-shaped light with 6 adjustable colours and brightness levels; 34 cm x 34 cm x 12 cm, 1.4 kg; remote-controlled, mains powered.
- Infinity Mirrors: Optical illusion of infinite depth with LED lights; batteries included.
- Kaleidoscope Rotating Disco Ball: Projects colourful rotating light patterns for visual stimulation.
- Light-Up Water-Filled Glitter Ball: Handheld sensory ball filled with water and glitter.
- Spikey & Ridged Rugby Balls: Soft, tactile balls with LED lights.
- Batteries required are included.

IS2770

### Dark Den Accessories Pack with Small Pop-Up Dark Den

Enhance sensory experiences with this curated set of interactive tools, ideal for educational and therapeutic settings.

- Portable black sensory pop-up tent: 105 cm x 105 cm x 110 cm unfolded, includes a carry case for portability; creates a dark environment for sensory play.
- Colour-Changing Mood Pebble: Pebble-shaped light with 6 adjustable colours and brightness levels; 34 cm x 34 cm x 12 cm, 1.4 kg; remote-controlled, mains powered.
- Infinity Mirrors: Optical illusion of infinite depth with LED lights; batteries included.
- Kaleidoscope Rotating Disco Ball: Projects colourful rotating light patterns for visual stimulation.
- Light-Up Water-Filled Glitter Ball: Handheld sensory ball filled with water and glitter.
- Spikey & Ridged Rugby Balls: Soft, tactile balls with LED lights.
- Batteries required are included.

IS1949

Fine Motor Sensory Pack

Fine motor skills and sensory development bundle featuring tools for interactive learning, therapy and play.

- Includes threading fruit and vegetables set, fine motor maze game, and a wooden sorting box for coordination and sorting skills.
- Features textured animal puzzle for tactile exploration and a fidget book for sensory engagement and focus.
- Silicone hand strengtheners and therapy putty (in varying resistance) enhance grip and hand strength.
- Durable and engaging materials, ideal for classrooms, therapy sessions, and home use.
- No batteries required.

IS2631

Sensory Development Mixed Pack - Large
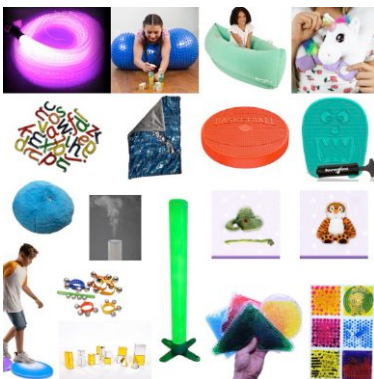

Comprehensive sensory set designed to support children in educational and therapeutic environments.

- Fibre Optic Kit: 16W light source, 100 tails (150 cm each), colour-changing LEDs.
- Waterless LED Tube: 130 cm tall, bubble effect simulation; mains powered.
- Rechargeable Floor Tile: Touch-responsive lights and colours.
- Inflatable Peapod Canoe: 150 cm, offers deep pressure sensory input.
- Textured Liquid Tiles: Set of 6 (30 cm each), tactile and visual engagement.
- Weighted Lap Pad: Sequins provide calming sensory support.
- Vibrating Neck Pillow: Unicorn &/or Puppy design with soothing vibration.
- Wiggle Seats: Various designs for sensory seating and balance.
- Therapeutic Oils: Starter pack for aromatherapy.
- Batteries required are included.

IS1743

Sounds Sensory Pack: Ear Defenders - Set of 6

Set of 6 comfortable and durable earmuffs providing 26dB SNR hearing protection, supplied in assorted colours.

- Reduces noise levels by 26dB SNR, safeguarding ears in loud environments.
- Adjustable headband ensures a secure and comfortable fit for various head sizes.
- Constructed with durable ABS cups and steel frame to withstand rough handling.
- Soft foam ear cushions provide extended comfort during prolonged use.
- Certified to European EN352 and American ANSI S3.19 standards for reliable protection.
- Mixed colours supplied.
- Kids and/or adult sizes available.
- Lightweight design suitable for extended wear; weight: approximately 200 grams.

IS3212

Sounds Sensory Pack: Instruments & Games

Comprehensive musical instrument set designed to inspire children's creativity and auditory skills.

- Includes a 15-note xylophone with wooden base and aluminium bars, complete with mallets and carrying bag.
- 10-piece wooden instrument set featuring maracas, tambourine, castanets, and xylophone.
- Shake, Listen & Match game with 12 bells producing 6 unique sounds for auditory development.
- Crafted from child-safe, non-toxic materials with smooth, rounded edges.
- Suitable for ages 3 and up.
- Dimensions: 48 cm x 18 cm x 6 cm (xylophone).
- Weight: 970 grams (xylophone).

IS1742

Tactile Fidget Sensory Pack

Sensory bundle featuring engaging tools for relaxation, focus, and tactile exploration.

- Includes a foot roller for soothing massage and a unicorn and/or puppy vibrating neck pillow for relaxation.
- Sensory textured rings and stretchy flick sticks enhance tactile stimulation and hand strength.
- Features a cuddly ball for calming play and a six-pack of sensory spikey rings for versatile sensory input.
- Thingamajig sensory pillow provides fidget stimulation and fine motor development.
- Designed for all ages to promote sensory integration and stress relief.
- Batteries required are included.

IS1701

UV Glow Sensory Pack

UV sensory bundle designed for interactive play and exploration with ultraviolet-responsive items and lighting tools.

- Includes LED UV bar (mains powered), UV flashlight and a UV sensory mat (1m x 1m).
- Features UV-reactive items like spikey balls, soft blocks, bean bags, and a giant string ball.
- Includes a mini UV ooze tube for dynamic visual stimulation.
- Ideal for sensory rooms, therapeutic activities, or creative play sessions.
- Batteries required are included.

IS1741

Vision Sensory Pack
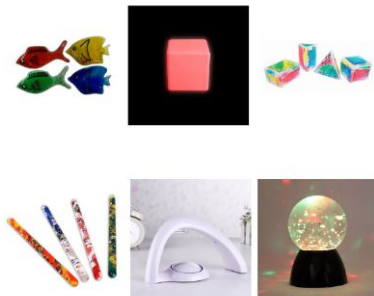

Sensory exploration set offering visual and tactile stimulation, perfect for education and therapy.

- LED Cube: Rechargeable, waterproof, 16-colour lighting; 40 cm x 40 cm x 40 cm, 5 kg; includes remote.
- Jelly 3D Shapes: 4 squidgy geometric shapes with colourful liquid and glitter for tactile learning.
- Rainbow Light: Projects rainbows; 23 cm x 11 cm x 12 cm, 400 g.
- Glitter Tubes: 4 sensory wands, 32 cm each, filled with glitter.
- Sensory Glitter Waterball: 10 cm ball filled with water and glitter; 250 g.
- Jelly Fish Shapes: Colourful jellyfish filled with water, oil, and glitter; length: 20 cm; weight: 180 grams; provides tactile and visual sensory input.
- Batteries required are included.

Sensory Room Resources

Product Code	Product Description

IS1587

Rompa® Bubble Tube - Maxi 2m

A 208cm tall bubble tube offering multi-sensory input for visual, tactile, and auditory stimulation, ideal for sensory regulation and interactive activities.

- Promotes visual tracking, colour recognition, hand-eye coordination, and physical movement.
- Provides multi-sensory input, including audible, tactile, and temperature contrast.
- Attracts attention and engagement, creating a calming environment with 8 colours.
- Robust, latex-free design that is easy to clean, maintain, and assemble.
- Compatible with switches and accessories like mirror panels and fish inserts for enhanced sensory stimulation.
- Size: Base diameter 51cm, tube diameter 15cm.
- Overall height 208cm.

IS1576 / IS1629

Bubble Tube 105cm x 10cm incl. set of Sea Creatures

A 105cm bubble tube with colour-changing lights, bubbles, and swimming fish, creating a calming and interactive sensory experience.

- Features colour-changing LEDs, bubbles, and 8 swimming fish for visual engagement.
- Encourages visual tracking, supporting visual development and communication skills.
- Ideal for sensory rooms or classrooms, particularly for individuals with Sensory Processing Disorder (SPD).
- Mains powered. On/off switch on wire for easy operation.
- Made from durable metal and glass.
- Available with with White or Black base.
- Wall collar sold separately.
- Size: 105cm tall, 10cm in diameter.
- Weight: Approx. 2.7kg.

IS2812

Bubble Tube 120cm x 12cm with Fish, Bracket & Remote

A sensory bubble tube with colourful LED lights and lifelike fish, combining beauty, education, and relaxation in one compact design.

- Features lifelike fish that bob and flap with the bubbles for dynamic visual appeal.
- 7 LED light colours (green, purple, blue, yellow, pink, red, orange) for vibrant illumination.
- Promotes object tracking and colour recognition in children.
- Provides soothing stimulation for individuals with autism, ADHD, and dementia.
- Includes a remote control for easy operation and customisation.
- Size: 122cm tall x 12cm diameter. Weight: 3.1kg.
- Powered by mains adaptor for reliable and continuous use.

IS3163

Bubble Tube 120cm x 15cm Waterless LED
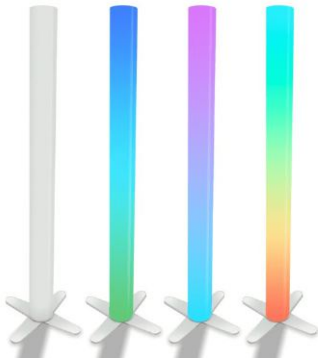

A 120cm tall colour-changing LED column with customisable lighting options, perfect for enhancing any space with vibrant and dynamic illumination.

- Stands at 120cm tall with a 15cm diameter, creating a striking visual impact.
- Offers 8 colour options and 6 modes, including static, multi-colour, and transitioning effects.
- Includes a remote control for easy customisation of colours and modes.
- Equipped with a stabilising bracket to keep the column upright and secure.
- Ideal for sensory rooms, living spaces, or therapy environments.

IS3238

Bubble Tube 150cm x 30cm with Floating Balls & Remote

A stunning 150cm extra-wide bubble tube with multi-coloured beads, creating a captivating sensory experience with vibrant visuals and soothing movement.

- Enhances any space with its graceful bead movement and LED colour display.
- Multi-coloured beads float up and free fall 360° for a relaxing effect.
- Easy setup: fill with water, insert beads, and control via app or remote.
- Customisable lighting modes, colours, and speed for a personalised touch.
- Energy-efficient LED lights for cost-effective operation.
- Size: 150cm tall x 30cm wide.
- Capacity: approx. 60 litres.
- Powered by mains for continuous use.

IS3084

Bubble Tube 180cm with Plastic Base & Remote (for installation in a plinth)

A towering 183cm bubble tube with vibrant LED lights and floating fish, offering calming sensory stimulation and elegant decorative appeal.

- Extra-large design standing 183cm tall, perfect for sensory and decorative use.
- Features 20 LED colour settings and adjustable bubble speed for customisation.
- Includes fluorescent fish that bob gently, enhancing visual engagement.
- Near-silent motors and soft buzzing sound create a soothing atmosphere.
- Sturdy plastic base ensures stability and durability, but should ideally be placed in a plinth.
- Powered by UK/EU mains plug for continuous operation.

IS2424

Bubble Tube 180cm x 15cm with Square Chrome Base & Remote

A 6-foot tall bubble tube with colour-changing LED lights, designed to provide a captivating sensory experience while enhancing any space.

- Features continuously rising bubbles and lifelike fish for visual engagement.
- Offers 5 modes (flash, strobe, fade, smooth, static) and 16 static colours with adjustable brightness.
- Includes a high-quality air pump for smooth operation.
- Stainless steel base ensures stability and durability.
- Ideal for sensory stimulation, aiding relaxation and learning for children with autism and ADHD.
- Size: 183cm tall x 15cm diameter. Weight: Approx. 10.5kg.
- Mains operated with remote control included for easy customisation.
- Bracket sold separately.

IS2436

Bubble Tube 60cm x 15cm with Balls & Remote

A 60cm bubble tube with colour-changing lights, bubbles, and floating balls, creating a captivating sensory experience perfect for classrooms and sensory zones.

- Features colour-changing lighting, moving bubbles, and floating balls for visual stimulation.
- Ideal for sensory rooms, classrooms, or calming environments.
- Provides tracking activities to enhance visual development and communication skills.
- Beneficial for individuals with Sensory Processing Disorder (SPD).
- Includes an on-off switch on the wire for convenient operation.
- Size: 60cm tall x 15cm diameter.
- Weight: Approx. 2.7kg.
- Mains powered for reliable use.

IS1503

Rompa® Bubble Tube Collar

A sturdy collar designed to securely anchor the top of a 15cm diameter bubble tube to a wall, enhancing stability and safety.

- Ensures the bubble tube remains upright and prevents accidental tipping.
- Compatible with 15cm diameter bubble tubes, such as the 2m Maxi Bubble Tube by Rompa®.
- Easy to install, providing a secure attachment between the bubble tube and wall.
- Size: 15cm diameter; distance from wall to centre line of tube: 24.5cm to 36.3cm.

IS1502

Bubble Tube Rapid Water Change Pump

A submersible pump system designed for quick, safe, and easy filling and emptying of bubble tubes.

- Includes 4m of tubing for convenient use.
- Operates on a 12V DC electrical power supply for safety and efficiency.
- CE marked, double insulated, and GS marked for compliance and reliability.
- Power supply is switch mode, with input of 100-240V AC and output of 12V DC.
- Manufactured in the UK by an ISO9001 registered organisation.

IS1501

Bubble Tube Treatment Fluid

A 500ml bottle of water treatment fluid designed to maintain the hygiene and clarity of bubble tubes and water walls.

- Prevents bacteria, odour, and algae growth in bubble tubes and water walls.
- Organic biocide that won't cloud or damage acrylic surfaces.
- Easy and safe to use, requiring monthly application.
- One bottle can treat a 1m bubble tube for up to 2 years.
- Long shelf life of up to 4 years for extended usability.

IS3221

Interactive Hanging Bubble Wall

An Interactive Bubble Wall combining art and sensory technology, creating a mesmerising display of vibrant colours and gentle bubbles for any space.

- Customisable visual displays synchronise with the ambiance of your environment.
- Provides a multi-sensory experience with soothing vibrations, gentle humming, and vivid colour blends.
- Offers therapeutic relaxation and serves as an eye-catching centrepiece.
- Versatile and adaptable, seamlessly enhancing various interiors.
- Includes a funnel, manual pump, and water pipe for easy maintenance.
- Size: 110cm x 60cm x 11cm. Weight: 7kg (dry), 28kg (with water).
- Requires 21 litres of water.
- Powered by a UK/EU adapter for reliable performance.

IS3204

Large Button Controller for Bubble Features

A large button controller designed for bubble tubes, enabling users to change light colours and speeds with ease, promoting interactive sensory engagement.

- Compatible with many bubble tubes (models BT60, BT120C, BT100C. BT180, BT181, BWWMP, BT150-30, BWH3, WLT120, WLT180, BTSB120, BTSB150, MBT50).
- Features extra-large, multicolour buttons (approx. 8cm diameter) for easy operation by children of varied ages and abilities.
- Allows control of colour changes and speed for interactive sensory play.
- Simple installation process for immediate use.
- Size: 40cm diameter x 10cm tall.
- Colour: White base with multicolour buttons.
- Mains powered and rechargeable.

IS3250

Maze Bubble Table
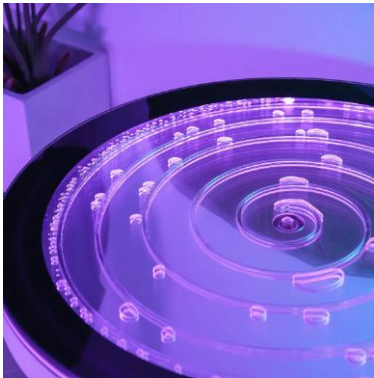

A stunning Maze Bubble Table with glowing bubbles that twist and disappear, offering a relaxing and engaging sensory experience.

- Multi-Connect compatible for integration with our popular large button controller.
- Adjustable colours, modes, and brightness with included remote control.
- Creates a calming atmosphere, ideal for sensory rooms, classrooms, or homes.
- Durable construction from wood, acrylic, and metal for long-lasting use.
- Size: 60cm x 60cm x 42cm. Weight: 10kg.
- Designed to work with tap water, or use distilled water for lower maintenance.
- Please note: emits a sound while in operation.

IS3243

Pack of 10 Fish for Bubble Tubes
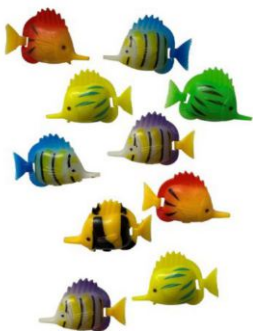

A set of 10 colourful fish designed to enhance the visual appeal of compatible bubble tubes.

- Compatible with all bubble tube models.
- Adds dynamic movement and visual interest to sensory bubble tubes.
- Ideal for sensory rooms, classrooms, or home use.
- Easy to install and maintain.

IS3244

Pack of 20 Balls for Bubble Tubes

A set of 20 colourful balls designed to enhance the visual appeal of compatible bubble tubes.

- Compatible with all bubble tube models.
- Adds dynamic movement and visual interest to sensory bubble tubes.
- Ideal for sensory rooms, classrooms, or home use.
- Easy to install and maintain.

IS1663

Aura Projector

A compact and versatile projector designed for smaller sensory rooms or spaces, offering high-quality visuals and convenient features.

- Includes a timer for automatic shut-off and dimming control for brightness adjustment.
- LED technology ensures no bulb changes, no heat, and long-lasting performance.
- Compatible with an extensive range of effect wheels for customised displays.
- Comes with one liquid effect wheel and a built-in wheel rotator for dynamic visuals.
- Wi-Fi enabled, compatible with the Aura App for iOS/Android devices.
- Size: 20cm x 20cm x 20cm.

IS2690

SENse Micro Floor Projector

A compact and versatile interactive projector designed to create sensory experiences on various surfaces, enhancing engagement in therapeutic and educational settings.

- Projects interactive content onto floors, tables, wheelchair trays, beds, walls, and ceilings, adapting to diverse environments.
- Optional trolley for mobility and flexible placement.
- Encourages active participation, aiding sensory integration and motor skills development.
- Suitable for users of all ages, including those with sensory processing challenges.
- Compact design allows for easy setup and storage.
- Dimensions: 20cm x 20cm x 20cm.

IS1968

Snoezelen® Magnetic LED 100 Projector - Starter Saver Pack

A compact LED projector with three effect wheels, perfect for multi-sensory environments to encourage relaxation and sensory engagement.

- Includes Rompa® LED 100 projector with built-in wheel rotator.
- LED technology ensures low heat, quiet operation, and no bulb changes.
- Flexible mount for ceiling, wall, or table-top use.
- Compatible with 15cm effect wheels, Clip-on Prism, and Panoramic Rotator (sold separately).
- Produces calming patterns and colours for storytelling and sensory relaxation.
- Size: 22cm x 13cm x 8cm (27cm height with bracket).

IS1639

Space Projector
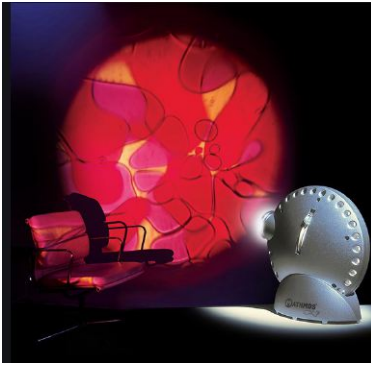

The Space Projector is a captivating device that projects a continuously moving lava lamp effect onto walls or ceilings, creating a mesmerising and soothing ambiance.

- Projects dynamic lava lamp images up to 4 meters wide in darkened rooms.
- Available in seven colour combinations, with one effect wheel included; additional wheels can be purchased separately.
- Utilises an LED bulb for crisp, long-lasting light with a cool operating temperature.
- Lightweight and portable, making it easy to set up and use in various settings.
- Dimensions: 24cm diameter x 5cm depth; Weight: 1.8kg.

IS1598

Rompa® 8 Colour Wirefree Sensory Room Controller

A simplified wireless controller that allows users to change the colours of compatible sensory equipment, enhancing interactive experiences in sensory environments.

- Wirelessly controls the colours of various products, including wall panels, bubble tubes, and light sources.
- Simplified design without sound, timer facility, or LCD display for straightforward use.
- Encourages interaction and understanding of cause and effect through accessible colour control.
- Size: 37cm diameter x 12cm height.

IS1823

Rompa® Fibre Optic Strands 3m x 200 Strands

A 3-metre fibre optic bundle with 200 super-safe plastic strands, providing tactile and visual sensory stimulation.

- Robust, durable strands resistant to accidental damage.
- Equally bright as standard fibre optics, offering vibrant visual effects.
- Safe to touch; phthalate, glass, and latex-free.
- Three-strand design enhances durability and effectiveness.
- Encourages reaching, gripping, and fine motor skills development.
- Requires a compatible light source (sold separately) for illumination.
- Size: 300cm length with 200 strands.

IS1507

Rompa® Interactive Light Source for Fibre Optics

A compact and wireless LED light source designed for fibre optics, providing quiet, cool-running, and maintenance-free operation for sensory environments.

- Compatible with interactive devices like Colour Changing Panel, Wireless Microphone, Talking Cubes, or 8 Colour Wirefree Controller.
- Enhances sensory stimulation, colour recognition, and cause-and-effect learning.
- Compact design allows for wall mounting for convenience and space-saving.
- Secures fibre optics safely with a top screw for stability.
- Provides an efficient and effective light source for fibre-optic displays.
- Size: 18cm x 8cm x 5cm.

IS2818

Rompa® Sensory Room Wall Panels

A range of sensory wall panels designed to provide multi-sensory stimulation and engagement for users of all ages.

- Adjustable brightness and volume controls for a tailored sensory experience.
- Multiple modes of operation, including passive, interactive, and music-responsive settings.
- Integrated sound card player enhances auditory stimulation.
- Compatible with ROMPA® wireless controllers for seamless integration.
- Textured casing offers tactile input, appealing to both children and adults.
- Available in Black, Blue, Ice Blue, Lilac, Green, Red or White.
- Size: 115cm x 67cm x 10cm.
- Weight: approx. 30kg.

IS1920

Net Washing Bag for Balls

A durable net washing bag designed for cleaning ball pool balls efficiently.

- Facilitates easy washing of ball pool balls, ensuring thorough cleaning and hygiene.
- Constructed from durable netting material for repeated use.
- Size: 93cm x 81cm.

IS1764

Rompa® WiFi LED Strip Light System
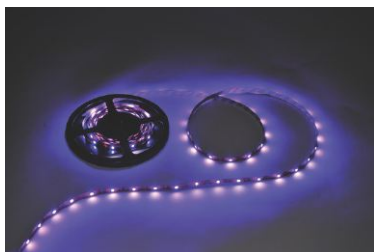

A flexible and interactive Wi-Fi LED strip light system designed to enhance sensory environments.

- Includes 5 metres of self-adhesive LED light strip for easy installation.
- Compatible with Wi-Fi controllers for remote colour management.
- Ideal for edging, highlighting, and bordering walls, stairs, ceilings, and doorways.
- Designed for indoor use; should be installed out of reach to prevent handling.
- Provides dynamic lighting to enrich sensory experiences.
- Power supply included for immediate setup.
- Size: 5m length.

IS1899 / IS1849

Balls For Pond (100/bag) - Coloured or Clear balls

A set of 100 plastic balls, perfect for filling ball ponds and enhancing sensory play environments.

- Contains 100 durable, lightweight balls per bag.
- Bright colours add visual stimulation and excitement to ball ponds.
- Clear balls are also available, which are great for light-up ball ponds.
- Ideal for sensory rooms, play areas, or therapy settings.
- Check pool size to determine the number of bags required.
- Dimensions per bag: 100cm x 20cm x 20cm.

IS2192

Ball Ponds

A ball pond designed to enhance sensory play and motor skills development in children.

- Available in different shapes and sizes - triangular, round or square. Talk to us about your room size and shape and we can make a recommendation.
- Available in colour combinations: Dark Grey/Pink, Dark Grey/Light Grey, Blue/ Lime, Blue/Pink, or customisable options to suit your room colour scheme.
- Constructed with soft, durable materials for safety and comfort.
- Ideal for body awareness, motor planning, and tactile input.
- Balls not included; approximately 1,200 balls required per pond.

IS1872

Flip Chair

A versatile and comfortable flip chair designed to enhance playrooms, libraries, or bedrooms.

- Dimensions: 150cm x 120cm x 120cm.
- Available in Navy Blue, Orange, Grey, or customisable colours to suit your space.
- Constructed with soft, durable materials for long-lasting comfort.
- Provides a cozy seating option for relaxation or reading.
- Lightweight design allows for easy repositioning within a room.
- Ideal for children and adults seeking a comfortable seating solution.

IS2879

Floor Mat - Thick

A 2.5cm thick mat designed for floor activities such as exercise, stretching, and play.

- Available in various sizes: 60x150cm, 100x100cm, 200x100cm, 180x120cm, 150x150cm, and 200x200cm.
- Constructed with durable materials to provide a comfortable and supportive surface.
- Suitable for use in schools, therapy practices, and home environments.
- Customisable in colour and fabric to suit your space; options include Green or custom selections.
- Easy to clean and maintain, ensuring longevity and hygiene.

IS2270

Flop Mat

A super comfy, oversized mat designed for relaxation and impact protection during play.

- Available in two sizes: Small (100cm x 150cm x 15cm) and Large (200cm x 150cm x 15cm).
- Ideal for lounging or placing under raised play areas and slides to cushion falls.
- Offered in Purple/Lime colour scheme or customisable options to suit your space.
- Constructed with soft, durable materials for comfort and longevity.
- Enhances play environments by providing a safe and comfortable area for children.

IS1897

Soft Play - Building Blocks

Oversized modular building blocks designed for creative play, sensory integration, and motor skill development in therapy and educational settings.

- Available in soothing blue-grey or bold, vibrant colours, with many customisation options.
- Supports sensory integration, motor skills, and cognitive-emotional development.
- Can be used for construction play, obstacle courses, or seating solutions.
- Promotes active play and exploration with soft surfaces and engaging challenges.
- Many options and 'pieces' available - talk to us about your needs for your room.
- Pictured: 10 piece set.

IS2154 / IS2155

Soft Play - Pouf

A large, soft pouf designed for comfortable seating or as a supportive cushion in various settings.

- Comes in Yellow or customisable colours to suit your space.
- Provides excellent support for babies during tummy time, aiding in neck and core muscle development.
- Ideal for play spaces, bedrooms, and reading nooks, offering a cozy spot for relaxation.
- Constructed with soft, durable materials for long-lasting comfort.
- Available in Large (120cm diameter x 20cm height) or Small (90cm diameter x 20cm height) sizes.

IS2288

Soft Play - Squasher Barrel

A soft, compressible tunnel designed to provide deep-touch pressure, promoting sensory integration and motor planning skills.

- Available in two sizes: 70cm length with 40cm diameter, and 70cm length with 70cm diameter.
- Colour options include Orange, Blue/Green, Blue/Pink, and Custom selections.
- Constructed with soft, durable materials for safe and comfortable use.
- Ideal for therapy environments to facilitate imaginative play and body awareness.
- Easy to incorporate into obstacle courses or sensory circuits.

IS2853

Fibre Optic Shower Support

A fibre optic shower support that creates a stunning cascade of light, providing a calming and interactive sensory experience.

- Features glowing fibre optic strands that cascade for a soothing shower effect.
- Ideal for wheelchair users or as a draped light curtain over furniture.
- Encourages visual focus and tactile exploration, fostering creativity and imagination.
- Attaches to the ceiling with a built-in bracket; the light source is secured on top of the frame.
- Designed for relaxation, sensory education, or themed activities, especially in sensory rooms.
- Light Source and Fibre Optic tails not included.
- Size: 47cm x 16cm x 10cm.
- Material: Metal.

IS2029

Fibre Optic Light Source & Strands Budget Kit with Small Remote

A fibre optic kit with a 16W light source and 100 tails, creating captivating visual effects ideal for sensory therapy.

- Includes a 16W LED light source and 100 fibre optic tails, each 1.5m long.
- Controlled via a remote for easy adjustment of colour and lighting effects.
- Fibre optic tails are encased in soft plastic for safe tactile exploration.
- LED light source provides colour-changing effects, enhancing visual stimulation.
- Weight: Approx. 1.1kg.
- Powered by mains for reliable use in sensory environments.

IS2854

Fibre Optic 45W Light Source

A powerful 45W fibre optic light source with LED lighting controlled by a remote, ideal for sensory therapy and visual effects.

- LED lights are operated via an included remote control for ease of use.
- Fibre optic tails not included.
- Provides vibrant and engaging visual stimulation for sensory environments.
- Sturdy construction from metal and plastic for durability.
- Size: 28.5cm x 26.5cm x 14.5cm. Weight: Approx. 2.4kg.
- Powered by mains for consistent and reliable operation.

IS2856

Fibre Optic Tails - 200 Tails 3m long (needs 45W Light Source)
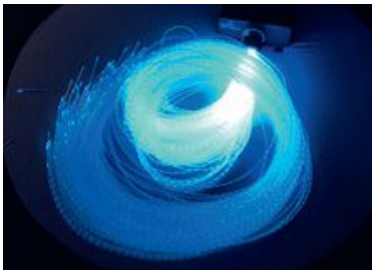

A captivating fibre optic lighting tool designed to stimulate visual and tactile senses, perfect for sensory environments and relaxation.

- Provides glowing fibre optic tails that offer mesmerising visual effects.
- Durable design, safe for tactile exploration, and remains cool to the touch.
- Encourages relaxation and sensory engagement through play.
- Compatible with 45W Light Source (sold separately).
- Powered by mains for reliable use.
- Size: 300cm length with 200 strands.
- Weight: Approx. 3kg.

IS1515

Glow Sensory LED Cube 40cm

A rechargeable, waterproof LED lighted cube designed for versatile use as indoor and outdoor illuminated furniture.

- Offers 16 adjustable LED colours with fading, strobing, and flashing modes, controlled by remote.
- Made from durable HDPE plastic, certified waterproof (IP64-68), suitable for sun and rain exposure.
- Rechargeable battery provides 8–10 hours of use after 6–8 hours of charging.
- CE, GS, and RoHS certified for safety and quality assurance.
- Compact size: 40cm x 40cm x 40cm, with a lightweight, portable design.
- Requires 2x AAA batteries for the remote (not included).

IS1517

Glow Sensory LED Curvy Bench

A rechargeable LED lighted curved bench offering versatile seating and ambient lighting for indoor and outdoor use.

- Seats two people; multiple units can form a circular arrangement.
- Made from durable, waterproof HDPE plastic (IP64-68 rating).
- Features 16 adjustable colours with fading, strobing, and flashing modes, controlled via remote.
- Provides 8–10 hours of use after 6–8 hours of charging.
- Certified for safety and quality (CE, GS, RoHS).
- Size: 120cm x 40cm x 40cm.
- Requires 2x AAA batteries for the remote (not included).

IS3055

Glow Sensory LED Cylinder 1m

An interactive light-up cylinder designed to enhance sensory experiences.

- Provides an electrifying interactive light show at your fingertips.
- Encourages visual stimulation and tracking skills.
- Ideal for use in a sensory room or as a night light.
- Colour-changing furniture with six main colours and multiple light modes.
- Remote control operates multiple units and adjusts lighting effects.
- Suitable for indoor and outdoor use.
- Size: 96 cm (H), 38 cm (D).
- Weight: 4 kg.
- Power Source: Mains.
- Requires 2x AAA batteries for the remote (not included).

IS1497

Glow Sensory LED Mushroom

A portable and rechargeable colour-changing LED mushroom light designed to create a calming and sensory-rich environment for children.

- Provides 6 adjustable LED colours and brightness levels to suit various moods.
- Includes a remote control for customising colours, lighting phases, and flashing modes.
- Rechargeable battery lasts up to 12 hours for flexible use indoors or outdoors.
- Multiple units can be synchronised with a single remote control for added versatility.
- Durable and kid-friendly, perfect for sensory rooms or children's bedrooms.
- Mains powered for easy recharging.
- Size: Approx. 22cm tall.
- Requires 2x AAA batteries for the remote (not included).

IS1508

Glow Sensory LED Pebble

A portable and durable colour-changing LED sensory furniture piece designed to create a calming atmosphere and enhance sensory play.

- Features 6 adjustable LED colours with brightness and flashing modes controlled via remote.
- Portable and versatile for use indoors or outdoors, ideal for sensory rooms or bedrooms.
- Offers calming visual effects, helping children manage anxiety and focus attention.
- Promotes sensory development, including visual attention, colour recognition, and cognitive skills.
- Rechargeable from mains power with internal battery providing 11–12 hours of use.
- Size: 34cm x 34cm x 12cm. Weight: Approx. 1.4kg.
- Requires 2x AAA batteries for the remote (not included).

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

IS3208

LED Sensory Carpet - Small

An interactive LED sensory carpet that lights up with calming, starry effects in response to touch or movement.

- Colour-changing LEDs activate with pressure, offering engaging visual feedback.
- Promotes relaxation and sensory exploration through interactive illumination.
- Durable construction designed for regular use in sensory and learning environments.
- Suitable for sensory rooms, classrooms, or therapeutic spaces.
- Size: 95cm x 95cm.

IS3207

LED Sensory Carpet - Large

A spacious, interactive LED sensory carpet with fibre optic lights that respond to movement, creating an engaging and calming sensory experience.

- Expansive 150cm x 150cm design encourages exploration and play.
- Features colour-changing fibre optic lights that shift in response to movement.
- Rechargeable battery ensures hours of uninterrupted use, with a USB charging cable included.
- Safe and stable with a non-slip backing for secure placement.
- Made from durable, flat-woven canvas with a medium pile for comfort.
- Weight: 5.5kg.

IS3242

Light Table with Sand Table Top

A sturdy wooden light table with a sand table top, designed for sensory and educational exploration.

- Wooden construction suitable for tabletop or floor use.
- Six large colour-changing buttons for easy selection.
- Acrylic top keeps sand and mess contained for sensory play.
- LED lighting for durability and energy efficiency.
- Shatterproof glass for added safety.
- Mains powered for consistent use.
- Size: 60 x 60 x 12 cm.
- Weight: 10 kg.

IS2629

UV Strip Lamp - 60cm

A 60 cm UV LED strip lamp that creates a fun and stimulating glow-in-the-dark environment.

- Enhances sensory spaces with neon light effects.
- Can be placed on the floor or mounted on a wall.
- Ideal for illuminating surfaces, fabrics, and objects.
- Link multiple lamps together and run them off one plug.
- Provides wide lighting coverage with a fluorescent tube.
- Lightweight and easy to install.
- Size: 60 cm in length.

IS3226

60cm Infinity Mirror with Giant Remote Buttons

An interactive infinity mirror that creates a mesmerising illusion of endless LED lights.

- Built-in interactive buttons for tactile play and colour recognition.
- Engaging infinity effect adds depth to any sensory space.
- Rings of LEDs create a stunning tunnel effect on walls, floors, or ceilings.
- Encourages visual stimulation and sensory engagement.
- Automatically cycles through colours and light sequences.
- Infinity Mirror is mains powered for consistent use and features rechargeable buttons for seamless interaction.
- Size: Diameter 60 cm.

IS3231

8 Convex Bubble Mirror

A large PVC mirror with 8 convex bubbles that create mesmerising distorted reflections.

- Enhances sensory exploration with captivating visual effects.
- Encourages self-awareness and visual tracking skills.
- Provides an ever-changing perspective for interactive play.
- Ideal for sensory rooms, classrooms, and therapeutic spaces.
- Easily mountable on walls, doors, or vertical surfaces.
- Encourages cognitive development and creative thinking.
- Size: 51 x 51 cm.

IS2255

Rompa® Abstract Tactile Panel

A large wall-mounted tactile panel designed to enhance sensory exploration and engagement.

- Features a variety of textures, including fabric, metal, carpet, and synthetic turf.
- Encourages fine motor skills through tracing lines and visual tracking.
- Supports colour recognition and visual perception development.
- Provides a mix of soft, rough, and cool surfaces for sensory stimulation.
- Ideal for sensory rooms, classrooms, and therapy spaces.
- Sturdy and safe for interactive use.
- Size: 115 x 115 cm.

IS3225

Infinity Mirror Tile with remote

A stunning LED infinity mirror that creates the illusion of endless depth and vibrant lights.

- Captivating visual display with infinite light reflections.
- Remote control for customising colours, brightness, and effects.
- USB powered with EU and UK adapter fitments included.
- Easy wall mounting with three included brackets.
- Enhances sensory spaces with dynamic lighting.
- Size: Diameter 50 cm, thickness 5 cm.

IS1983

Mirror Panel - Acrylic

A set of safe, plastic mirrors designed to enhance sensory experiences and self-exploration.

- Ideal for use with bubble tubes and other sensory equipment.
- Encourages imitation, self-recognition, and visual tracking.
- Can be placed in a corner for an enhanced reflective effect.
- Supplied with adhesive tape or mirror silicone for easy installation.
- No screws or drilling required for mounting.
- Laser cut to the required size.
- Maximum size: 205 x 101 cm, thickness 3 mm.

IS3229

Sequin Wall Boards - Set of 3

A set of three sequin wall boards that change colour with touch, perfect for sensory play and fine motor development.

- Sweep, stroke, or draw to create dynamic two-colour patterns.
- Encourages tactile exploration and creative expression.
- Set in natural wood for a stylish and durable finish.
- Includes wall mounting accessories for easy installation.
- Comes in three colours: Multi-coloured, Aqua, and Red.
- Size: Each board is 59 x 2.5 x 110 cm.

IS3224

Wall Hanging Sensory Light Panel

A large wooden wall frame with a white light backboard and 64 illuminated acrylic rods for creative sensory play.

- Features 64 circle cut-outs allowing light to pass through.
- Includes 64 assorted coloured acrylic rods for pattern creation.
- Encourages creativity, fine motor skills, and colour recognition.
- Allows users to slide, swap, and arrange rods for interactive play.
- Ideal for sensory rooms, classrooms, and therapy spaces.
- Size: Board 59 x 59 x 4.5 cm; each rod 6 x 2.8 cm.
- Mains powered for consistent illumination.

IS3228

Wall Mounted Touch Interactive Honeycomb Panel

A unique interactive panel with touch-responsive lights and colours, ideal for sensory engagement.

- Engages users with moving lights and colours through touch.
- Honeycomb design adds an artistic and sensory appeal.
- Ideal for sensory rooms, classrooms, or home environments.
- Supports learning of cause and effect and colour recognition.
- Designed for wall mounting to save space.
- Size: 59x59x4 cm.
- Weight: 6 kg.

Sensory Resources: Tactile & Fidget

Product Code	Product Description

IS3120

Foot Roller

A silent and compact fidget foot roller that helps release excess energy, alleviate stress and improve focus while sitting or standing.

- Enables fidgeting by spinning the roller forward or backward to relieve restlessness and anxiety.
- Encourages movement, improving blood flow to the brain for better concentration and productivity.
- Provides a relaxing foot massage when used without shoes.
- Offers therapeutic benefits for arch pain, plantar fasciitis, heel spurs, and tired feet.
- Stays securely in place on hard surfaces and carpet with rubber-grip feet.
- Size: 18cm x 15cm x 8cm.

IS3247

Lap and Floor Tactile Pads

A versatile sensory mat featuring squishy, squeezable, and crunchable textures, perfect for tactile stimulation and fidgeting fun.

- Features 6 unique squares filled with different materials/liquids for varied sensory experiences.
- Can be used as a lap pad or laid flat on the floor for immersive play.
- Rolls up for compact storage and is easy to wipe clean for hygiene.
- Durable and lightweight, suitable for frequent use by children aged 3+.
- Size: Flat 58cm x 46cm x 1cm, Folded 23.5cm x 19cm x 4cm.

IS3177

Large Cuddle Ball

A soft and cosy tactile ball designed to provide comfort, warmth, and a sense of security for children.

- Features gaps for children to slip hands and arms inside, offering warmth and security.
- Made with ultra-soft fabrics for a comforting tactile experience.
- Ideal for cuddling and fostering a sense of safety and relaxation.
- Available in modern colours: Lilac, Blue, or Grey.
- Size: Approx. 25cm diameter.

IS3210

Silicon Textured Stepping Stones - 6 pack

A set of 6 rubber stepping stones with textured finishes, designed to promote balance, agility, and sensory play in children.

- Includes 6 balancing pods with two textured finishes across three colours.
- Inflated for a slightly soft feel, enhancing sensory feedback.
- Perfect for use as stepping stones or balancing challenges.
- Supports development of balance, coordination, and agility.
- Sturdy design with a maximum weight capacity of 80kg.
- Size: Approx. 15cm diameter x 8cm tall.

IS3209

Square Massage Cushion

A versatile and hygienic massage pillow with a wipe-clean cover, designed for sensory stimulation and heavy use with multiple children.

- Features a rechargeable lithium battery for up to 18 hours of use.
- Includes a 5V USB cable for easy recharging.
- Two vibration mode settings allow customised sensory stimulation.
- Auto on/off feature activates vibration automatically and shuts it off when unattended.
- Durable and easy-to-clean cover ensures hygiene for shared use.
- Size: 30cm x 30cm x 12cm. Weight: Approx. 500g.

IS2126 / IS2127

Tactile Wedges

An inflatable wedge-shaped seating cushion designed for children, promoting proper posture and active sitting.

- Ergonomic wedge shape encourages a balanced pelvic position to maintain correct posture.
- Activates trunk muscles and provides spinal support for dynamic sitting.
- Textured surface provides sensory input, beneficial for individuals with sensory processing needs.
- Suitable for use on various seating surfaces, including chairs and floors.
- Made from durable, latex-free PVC for long-lasting use.
- Two sizes available: Small (26cm x 26cm x 7cm) or Large (36cm x 36cm x 7cm).

IS1710

Tactodiscs

A tactile matching set designed to enhance sensory exploration and discrimination skills.

- Comprises 5 large discs (26.5cm diameter x 3.5cm height) and 5 small discs (11cm diameter x 1cm height), each with distinct textures.
- Encourages users to match large discs with their corresponding smaller versions by touch or colour.
- Includes a drawstring storage bag and blindfold for added versatility in activities.
- Easy to clean and maintain, featuring durable rubber tops.
- Ideal for sensory circuits in educational settings to improve focus, balance, and coordination.

IS3088

Textured Jelly Alphabet - Uppercase letters
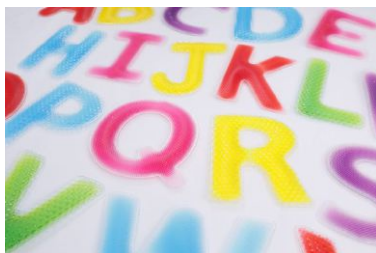

A tactile sensory gel alphabet set designed to make learning the ABCs engaging and multi-sensory for early learners.

- Squeezable gel letters provide a hands-on way to learn and practice the alphabet.
- Encourages manipulation, squeezing, touching, and tracing for interactive learning.
- Letters are sized for easy grasping and movement by young learners.
- Supports visual and tactile learning, perfect for teachers and at-home practice.
- Promotes fun and active engagement with the alphabet.
- Size: Each letter measures 11.5cm in height.

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

IS3085

Thingamajig Fidget Toy

A sensory buckle pillow designed to develop fine motor skills and provide tactile stimulation for children.

- Features multiple buckle types for fastening and unfastening practice, improving hand-eye coordination.
- Includes threading areas to foster creativity and fine motor development.
- Made from soft plush material for a comfortable tactile experience.
- Suitable for occupational therapy to support sensory processing needs.
- Lightweight and portable, weighing approximately 200g and sized at 22cm x 18cm x 5cm.

IS3156 / IS3155

Vibrating Neck Pillow - Unicorn or Puppy

A super soft vibrating neck pillow designed to provide calming sensory input, fostering relaxation and focus.

- Soothing vibrations help relieve anxiety and improve attentiveness in various settings.
- Drape over shoulders or rest on lap, back, or stomach for versatile comfort during activities.
- Creates a sense of security, reducing stress and excess energy, ideal for individuals who are fidgety.
- Dual-speed settings offer variable vibrating experiences; can be used with or without vibration.
- Beneficial for individuals with ADHD, autism, and sensory processing disorders.
- Size: 41cm x 30cm x 15cm.
- Requires 2x AA batteries (not included).

IS1693

UV Stretchy Bangles - Set of 5

Set of 5 bright and fun stretchy UV bangles designed for interactive sensory play, glowing under UV light to enhance dark play sessions.

- Glows vividly when exposed to UV light, making play sessions exciting and engaging.
- Versatile use on wrists, ankles, or stretched between objects like poles.
- Made from durable materials to withstand stretching and play.
- Lightweight and easy for children to handle.
- Weight: Approx. 230g.

IS1567

Vibrating Massage Tube

A flexible massager that vibrates to provide sensory stimulation.

- 115cm long, lightweight and fully portable design.
- Operates at two speeds for customisable experience.
- Made of synthetic rubber and PVC; contains latex.
- Requires 2x C batteries (not included).

IS1707

Vibrating Neck Cushion

A comfortable crescent-shaped massager designed to relax and soothe the neck and shoulders.

- Bead-filled cushion provides gentle vibration for a relaxing massage.
- Ideal for use at home or while travelling.
- Cover material: 84% polyamide, 16% elastane.
- Colours available: Red, Blue & Black.
- Size: 35 x 27 x 9 cm.
- Weight: Approximately 500 g.
- Requires 2x AA batteries (not included).

IS1675

Vibrating Plush Ball Pillow

A soft, plush circular cushion with gentle vibrations, perfect for providing sensory stimulation and comfort.

- Soft velour cover for a cosy, tactile experience.
- Provides gentle vibrations.
- Available in Blue or Grey colours.
- Lightweight and easy to hold, offering comfort and relaxation.
- Surface washable for easy cleaning and maintenance.
- Size: 40cm x 40cm x 20cm.
- Weight: Approx. 800g.
- Requires 2x AA batteries (not included).

IS3157 / IS1358

Wiggle Seat Sensory Cushion

A fun-shaped inflatable sensory chair cushion designed to help children stay calm and focused by providing subtle movement and tactile stimulation.

- Allows children to quietly move while sitting, improving focus and productivity.
- Features flexible nubs on one side and small bumps on the other for tactile input.
- Ergonomic design promotes stability and improves posture.
- Portable and versatile alternative to balance balls, effective on chairs, benches, or floors.
- Includes an easy-inflation pump to adjust firmness to individual needs.
- Safety tested for reliable use in educational and home settings.
- Available as Monster or Basketball shape.
- Size: 33cm diameter, ideal for children and adaptable as they grow.

IS3211

Wiggle Wobble Chair Feet

Patented Wiggle Wobble Chair Feet convert standard school chairs into wobble chairs, offering a dynamic seating option to help children stay focused and calm.

- Provides an outlet for excess energy, reducing stress, anxiety, and hyperactivity.
- Promotes continuous movement, increasing blood flow to the brain for improved focus and task engagement.
- Encourages rocking in all directions, strengthening core muscles and improving posture.
- Easy, tool-free installation; snaps onto round chair glides (2.8-3.2cm diameter).
- Suitable for use on tile, wood, and carpeted floors.
- Dimensions: 6.6cm height x 9.7cm diameter.

Sensory Resources: Vision

Product Code	Product Description

IS3112

Black Sensory Pop Up Tent for Den Making with Carry Case

A large black pop-up sensory tent designed for light projection, creating a calming and interactive sensory environment.

- Transforms into a colourful visual space when paired with a projector for light and movement effects.
- Compact and portable, folds down to a 44cm diameter and includes a carry bag with handle.
- Lightweight and easy to set up, weighing approximately 200g.
- Made from durable plastic for long-lasting use.
- Size: Unfolded dimensions 105cm x 105cm x 110cm.

IS1689

Colour Changing Mood Blocks - Set of 4

A set of four cube-shaped mood lights with colour-changing LEDs, providing gentle visual stimulation and atmosphere.

- Gradually colour-changing LEDs create a calming glow effect.
- Lightweight and portable for use in any environment.
- Each cube requires 3 x LR44 batteries (included).
- Perfect for sensory rooms, relaxation spaces, or decorative use.
- Size: 7.5cm per cube.
- Weight: Approx. 600g (total).

IS1377

Dark Den

A medium-sized tent, perfect for creating temporary sensory spaces in classrooms or homes, with easy storage and portability.

- Designed for exploring sensory accessories such as glowing, light-up, or projecting items.
- Creates a calming environment with soothing mood lighting or an interactive space with colour-changing effects.
- Encourages sensory exploration using textured or scented bags in a darkened setting.
- Includes two covered plug socket holes for safely using electrical items inside.
- Lightweight and easy to pack away, weighing approximately 3.6kg.
- Size: 100cm x 100cm x 100cm.

IS1686

Disco Light Bulb - Bayonet

A rotating disco light bulb with vibrant effects, designed to fit standard B22 bayonet light fittings.

- Auto-rotating feature creates a dynamic disco light effect.
- Long-lasting LEDs with a lifespan of up to 20,000 hours.
- Fits easily into a standard bayonet cap for quick setup.
- Compact size: 13cm x 8cm x 8cm.
- Lightweight and portable, weighing approximately 153g.

IS1160

Elmo Soft Toy

A soft and cuddly Elmo plush toy, perfect for playtime, collecting, and cuddling at home or on the go.

- Features bright red super-soft plush with embroidered facial details for a classic Elmo look.
- Floppy limbs make it ideal for interactive play and easy to carry for adventures.
- Made from high-quality, surface-washable materials for long-lasting use and easy cleaning.
- Safe and appropriate for children aged 1 and up.
- Size: 33cm tall.

IS1833

Giant Dark Den

A large tent designed to create temporary sensory spaces, offering versatility and easy storage for classrooms or homes.

- Spacious design for exploring light-up, glow-in-the-dark, or projection accessories.
- Provides a calming sensory environment with soothing mood lighting and interactive sparkle effects.
- Includes 2 holes for safely accommodating electrical mains adapters inside.
- Lightweight and portable, weighing approx. 3.8kg, and easy to pack away.
- Size: 120cm x 120cm x 180cm tall.

IS3206

Handheld Fibre Optic Wand

A portable fibre optic wand with glowing tails, offering vibrant light effects and an engaging sensory experience for all ages.

- Offers 7 Colours and 4 Glowing Modes for customisable light shows, switchable via a single button.
- Non-slip grip and smooth motion enhance control and flexibility, ideal for sensory play.
- USB rechargeable with 3–4 hours of operation on a full charge for extended use.
- Made from durable aluminium alloy and PVC, ensuring long-lasting performance.
- Includes USB cable for convenient recharging.
- 1.5m length with 30 tails.

IS1674

Hoberman Sphere - Glow in the Dark
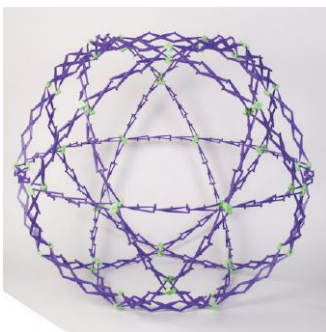

A captivating isokinetic structure that expands and contracts, providing interactive fun.

- Expands from 24 cm to over 76 cm in diameter.
- Constructed from durable plastic materials.
- Features a glow-in-the-dark design for added visual appeal.
- Lightweight and portable for easy transportation.
- No batteries required.

IS3172

Jelly 3D Shapes - Set of 4

A set of 4 vibrant, squishy geometric folding shapes filled with colourful liquid and glitter, perfect for tactile sensory play and hands-on learning.

- Shapes fold from 2D to 3D, helping children explore surface area, volume, and geometry concepts.
- Multi-coloured designs engage visual and tactile senses, ideal for small hands to squeeze, build, and hold.
- Supports fine motor skill development and makes learning shapes an exciting hands-on experience.
- Durable, easy-to-clean construction for long-lasting use.
- Includes 4 shapes: Cube (6.5cm x 6.5cm x 6.5cm), Cuboid (8.5cm x 6.5cm x 5cm), Pyramid (10cm x 10cm x 10cm) and Prism (9cm x 7cm x 6cm).

IS3181

Jelly Fish Shapes - Set of 4

A vibrant and tactile jellyfish-shaped sensory toy filled with water, oil, and glitter, offering a captivating visual and tactile experience.

- Features colourful jellyfish designs filled with glitter for engaging sensory play.
- Provides visual stimulation and calming effects, ideal for sensory environments.
- Lightweight and easy to handle, perfect for small hands.
- Size: Length 20cm.
- Weight: 180g.

IS1665

Kaleidoscope Rotating Disco Ball

A compact rotating disco ball that creates vibrant multi-coloured light effects.

- Mini disco light with dynamic rotation.
- Produces a dazzling multi-coloured light display.
- Ideal for sensory rooms and relaxation spaces.
- Enhances visual stimulation and engagement.
- Size: 16 x 11 x 10 cm.
- Weight: 200 g.
- Requires 3x AA batteries (not included).

IS3054

Light Panel with 3 light settings

A large, ultra-thin light table with adjustable brightness for educational and sensory activities.

- Three light mode settings for adjustable brightness.
- Simple touch-button operation for ease of use.
- Built-in centimetre measuring guides (42 cm and 32 cm).
- Ideal for tracing, colour mixing, and shadow investigations.
- Lightweight and slim design for easy portability.
- USB cable included but requires separate USB power source/plug.
- Size: 47 x 37 x 0.5 cm.

IS3178

Metallic Building Blocks

A captivating set of 14 gold and silver metallic building blocks designed to spark creativity and provide sensory stimulation with their mirror finish.

- Includes 14 pieces: cubes, pyramids, and rectangular blocks.
- Features a stunning mirror finish for visual and tactile engagement.
- Constructed from durable plastic for long-lasting indoor play.
- Encourages imaginative building and creative play.

IS1545

Power UV LED Room Light

A compact and powerful UV LED bar designed to provide wide ultraviolet illumination for sensory and entertainment applications.

- Equipped with 6 x 3W UV LEDs, offering vibrant ultraviolet light for enhanced visual effects.
- Features a 120° beam angle for wide-area coverage in large spaces.
- Low-profile and lightweight design for easy installation and versatility.
- Mains powered: plug-and-play functionality for simple setup without external controllers.
- Built from durable materials for regular use in diverse settings.
- Size: 36cm x 5.3cm x 5.5cm. Weight: Approx. 650g.

IS1680

Spiral Liquid Timer

A visually engaging sensory aid that captivates and calms with its liquid motion.

- Ideal for teaching colours and the concept of time.
- Encourages focus and relaxation through visual tracking.
- Often used as a sensory aid for calm-down time.
- Liquid bubbles spiral down in a soothing motion when flipped.
- Supplied in assorted colours (colour selection not possible).
- Size: 15 cm in height.
- No batteries required.

IS1619

Squidgy Sparkle Letters - Lowercase

Glittery, tactile letters designed to enhance sensory learning and literacy development.

- Transparent design ideal for use with a light panel.
- Supports visual and kinaesthetic learning through tracing.
- Filled with safe liquid and glitter for engaging sensory play.
- Can be hidden in sand or water for interactive activities.
- Easy to peg onto a washing line for display or games.
- Pack includes 26 letters. Suitable for ages 3+.
- Size: 10 cm per letter.

Squidgy Sparkle Maths Symbols

A tactile and visual set of jelly-like maths symbols designed for sensory-based learning.

- Ideal for teaching addition, subtraction, multiplication, and division.
- Transparent design enhances learning when used with a light panel.
- Supports visual and kinaesthetic learners, including those with ADHD and autism.
- Soft, squidgy texture encourages hands-on engagement.
- Made from clear plastic filled with safe liquid and glitter.
- Includes 5 maths operation symbols in various colours.
- Size: Varies (largest 10 x 8 cm, smallest 10 x 2 cm).

Squidgy Sparkle Numbers 0 - 9

A highly tactile and visually stimulating set of squidgy, glitter-filled number shapes.

- Made from vac-formed plastic filled with sparkling liquid.
- Can be squeezed, bent, and pressed for sensory engagement.
- Ideal for use as stencils, visual aids, or in messy play.
- Encourages number recognition and early maths skills.
- Suitable for hiding in sand, water, or snow for interactive learning.
- Set includes numbers 0 to 9. Suitable for ages 3+.
- Size: 15 cm per number.

Squidgy Sparkle Shapes - Set of 4

Bright and colourful jelly shapes filled with water, oil, and glitter for sensory exploration.
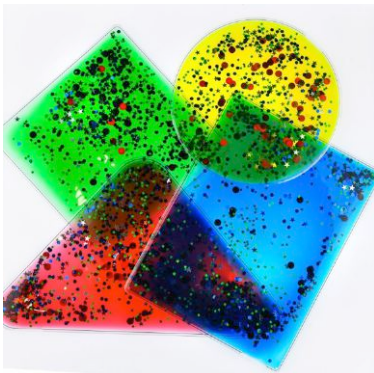

- Visually stimulating with moving glitter and liquid.
- Soft and squishy texture encourages tactile engagement.
- Ideal for sensory play and stress relief.
- Can be used for focus, relaxation, and fine motor development.
- Lightweight and easy to handle.
- Size: 19 cm in length.
- Weight: 336 g.

TeeTurtle Glow in the Dark Reversible Octopus Plushie

A glow-in-the-dark reversible octopus plushie that flips to reveal two expressions, helping users express their mood in a fun and tactile way.

- Features a reversible design with happy and sad faces to indicate emotions.
- Glows in the dark for added sensory and visual appeal.
- Lightweight and easy to handle, weighing approx. 150g.
- Compact and portable, with a size of approx. 20cm in diameter.
- Made from soft, durable material for long-lasting use.

IS2296

UV LED Torch - Large

A large but lightweight LED UV torch designed to make UV toys glow, perfect for glow-in-the-dark sensory play.

- Features 52 LED bulbs for bright and effective UV illumination.
- Simple to operate: switch on and point at toys to activate their glow.
- Compact and easy to handle, measuring 15cm in length.
- Made from durable plastic with a lightweight design, weighing approx. 50g.
- Requires 3x AA batteries (not included).

IS3168

UV Mat - 1m x 1m
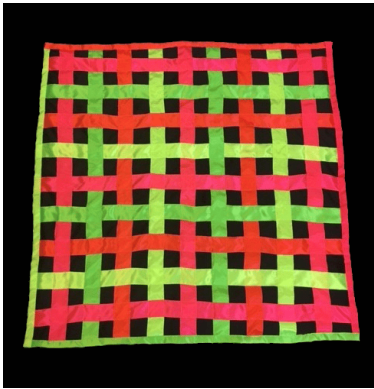

A vibrant UV mat with fluorescent ribbons that glow under UV light, offering visual and tactile stimulation for sensory play.

- Reflective fluorescent ribbons in pink, green, orange, and yellow glow brightly under UV light.
- Made from soft material with internal wadding for comfort during play.
- Enhances comprehension of light and colour while encouraging interactive participation.
- Versatile for use on floors, tabletops, or in sensory rooms.
- Durable design that is easy to clean, ensuring long-lasting use.
- Size: 100cm x 100cm.
- Weight: 715g.

IS3170

UV Sensory Soft Blocks and Bean Bags (20 Piece)

A set of soft, foam-filled fabric cubes and beanbags designed for safe and interactive play in the dark, promoting sensory and motor skill development.

- Includes four vibrant colours for visual stimulation.
- Enhances both gross and fine motor skills through picking up, throwing, and building activities.
- Made from soft, durable material for safe and long-lasting use.
- Size: Blocks measure 7cm x 7cm x 7cm; beanbags measure 12cm x 12cm.
- Lightweight and portable, with an approximate total weight of 300g.

IS1570

UV Spine Balls - Set of 4

A set of four colourful, spiky balls that react to UV light for sensory play and engagement.

- Encourages hand-eye coordination and fine motor skills.
- Comes in four different colour combinations.
- Size: Balls range from 4 – 8 cm in diameter.
- No batteries required.

Communication Software

Product Code	Product Description

IS2808

Boardmaker 7
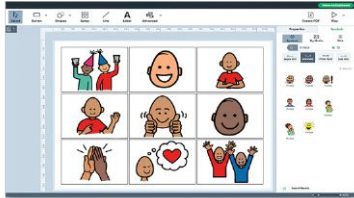

A special education software for creating, editing, and sharing symbol-based learning and communication materials.

Single User

- Includes over 80,000 Picture Communication Symbols (PCS) for diverse representation.
- Offers an intuitive editor with templates for print and interactive activities.
- Compatible with Windows, Mac, and Chromebook for flexible usage.
- Allows import and editing of materials from previous Boardmaker versions.
- Provides offline access ensuring continuous use.
- Connects users to a community of 800,000+ for resource sharing and collaboration.
- 2 activations per licence, but only 1 concurrent user at a time.

IS2876

GoTalk Design

The GoTalk DESIGN app allows users to create overlays for GoTalk devices and standalone communication tools like boards, calendars, and planners. It includes a library of 12,000+ symbols, internet search integration, and customisation features such as resizing, rotating, and colour editing. Compatible with Windows, Mac, iOS, and web browsers, it provides accessible tools for communication aid.

Single User

- Create overlays for GoTalk devices and communication boards.
- Library of 12,000+ symbols with customisable templates.
- Editing tools for text and image personalisation.
- Compatible with Windows, Mac, iOS, and Chromebooks.

IS1577

Grid 3

An AAC software platform that helps individuals with communication challenges express themselves, interact socially, and control their environment.

Single User

- Provides symbol and text-based tools for users of all ages and literacy levels.
- Includes vocabularies like Super Core and WordPower for diverse communication needs.
- Offers apps for email, social media, and more, fostering independence.
- Supports touch, eye gaze, switch, and pointer inputs for accessible use.
- Available in over 40 languages, including English & Afrikaans.
- Supports Qfrency SA Voices (sold separately) for voice customisation with local pronunciation and accents. Also supports voice banking.

IS1847

Grid 3 'Phonics for All' Add-On
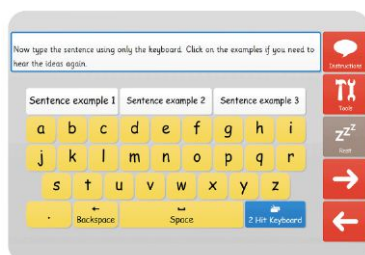

An add-on for Grid 3, Phonics for All supports AAC users in developing reading and spelling skills.

Single User

- Teaches key sounds that form the English language.
- Helps AAC users who cannot sound out words develop phonics skills.
- Supports synthetic (blended) phonics learning.
- Designed for all access methods, including eye gaze and switches.
- Complements existing phonics programmes in schools.
- Encourages independent learning through structured activities.
- Provides a complete tool for literacy development in AAC users.

IS1323

Grid 3 PODD Add-On

A software-based version of PODD, this tool integrates with The Grid 3, offering symbol-based communication through 15 and 60 grid sets. Compatible with Windows-based devices, it supports access methods like eye gaze and direct selection, using Picture Communication Symbols (PCS). It is ideal for individuals with complex communication needs, enabling efficient and personalised interaction.

- Requires Grid 3 software and bought as an add-on.
- Includes 15 and 60 grid set options with PCS symbols.
- Supports access via eye gaze, touch, or switches.
- Designed for Windows devices and Grid Pad systems.
- Offers vocabulary customisation for diverse user needs.

Single User

IS2080

Grid for iPad
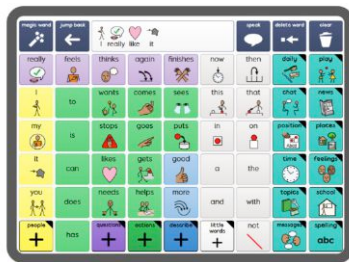

An AAC app for iPad enabling individuals with speech difficulties to communicate effectively using text or symbols.

- Provides symbol and text-based communication tools for all ages and literacy levels.
- Includes vocabularies like Super Core and Alpha Core to meet diverse needs.
- Features in-app and remote editing for quick personalisation of content.
- Supports symbol libraries such as SymbolStix, PCS, and Widgit.
- Compatible with iPadOS 15.0 or later; app size approximately 1.5 GB.
- Perpetual licence, does not expire.

Single User

IS1340

Matrix Maker Plus

A software tool for creating and printing picture-based communication and educational resources.

- Includes a library of over 26,000 images, including SymbolStix and Widgit symbols.
- Offers templates for 100+ communication devices and switches for easy overlay creation.
- Intelligent search system retrieves images by keyword or category.
- Supports integration of personal images via webcam or file upload.
- Simple tools to customise colours, text, and images for personalised materials.
- Enables creation of visual timetables, reward charts, and educational games.
- Compatible with Windows 7, 8, 10, and 11; downloadable with activation key.

Single User

IS1924

Single User

PODD Alternative Access (requires Boardmaker v6)

A communication tool designed for individuals with complex needs, the PODD Alternative Access (A4 Version) supports partner-assisted scanning and alternative access methods, enabling effective interaction through symbol-based communication.

- A4-sized, optimised for alternative access like scanning.
- Includes structured vocabulary for diverse communication needs.
- Designed to aid users with physical and cognitive challenges.
- Provides flexibility for customisation and individualisation.
- Suitable for learners of all ages in various settings.
- Requires Boardmaker Plus v6.

IS3301

Single User

PODD Alternative Access with pre-printed PODD Books
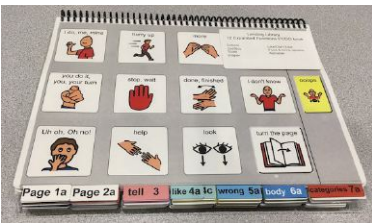

Pre-printed & bound communication book on waterproof paper, with adjustable strap, available in A4 or A5 sizes.

- Suitable for children with limited or no speech, new to using an AAC system.
- Adapted 'Partner-Assisted Visual Scanning (PAVS) 9 Expanded Functions' layout. Suitable for Direct Pointing too.
- Use for a range of communication functions: make requests; ask questions, give opinions, comment, complain, reject, express feelings, describe, draw attention, share information, tell stories, play and instruct.
- Requires Boardmaker V6 to edit pages or print other books (available separately).
- Includes PODD license (templates are in English only) plus books.
- Printed books include English, Afrikaans & isiXhosa text (isiZulu version coming soon).

IS1128

Single User

PODD Direct Access (requires Boardmaker v6)

A symbol-based communication system, PODD (Pragmatic Organisation Dynamic Display) offers structured communication solutions for individuals with complex needs using core and fringe vocabulary.

- Available as non-electronic books or for use with speech-generating devices.
- Includes vocabulary customisation options for personalised communication.
- Designed to support a wide range of cognitive, sensory, and physical abilities.
- Provides motor planning and pragmatic language development tools.
- Suitable for individuals of all ages and communication needs.
- Requires Boardmaker Plus v6.

IS3202

Single User

PODD Direct Access on Mind Express (DocLock version)
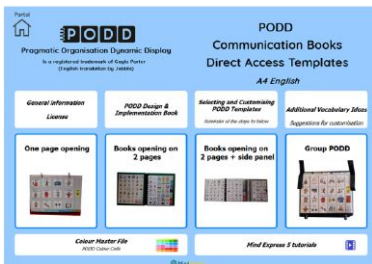

A software package for printing PODD communication books using Mind Express 5 Direct Access templates.

- Includes Mind Express DocLock version for printing PODD books.
- Comes with Picture Communication Symbols (PCS) for clear visual communication.
- Provides printable templates for various PODD book formats.
- Supports one-page opening, two-page opening, and two-page opening with a side panel.
- Includes Group books for communication partners to engage with multiple users.
- Does not include access to Mind Express page sets for communication.

For any questions or to place an order, please call 0860 888 121 or email info@inclusivesolutions.co.za

IS3279 / IS2815

Qfrency Text-to-Speech Voices

South African text-to-speech voices designed to support communication and education in local languages and accents.

- All 11 SA languages available, including Afrikaans, isiXhosa, isiZulu, and English.
- Enhances accessibility for software such as Grid 3, ClaroRead, TD Snap, and more.
- Two voice types: standard voices for devices with limited computational power, ensuring clear communication, and premium voices with advanced generative modelling for highly natural, human-like speech (requires more system resources).
- Available for Windows and Android devices.
- One voice supplied per licence.
- Sold as a Perpetual licence with no expiration (for Single Users) or Annual Subscription licence that must be renewed after 12 months (for Site Licences).

Switches & Switch-Adapted Toys

Product Code	Product Description

IS1176

BJ ToyBox Controller

A USB device that enables control of up to four adapted toys or devices from your computer.

- Four 3.5mm switch outputs for connecting multiple devices.
- Plug-and-play USB connection for easy setup.
- Compatible with software like Grid 3 for versatile control options.
- Includes software to create custom control scenes with adjustable buttons, images, colours and scanning options.
- Dimensions: 6.5cm x 6.5cm x 2.8cm.

IS1230

iSwitch - Red

A robust 75mm Bluetooth switch offering flexible wireless access across multiple devices.

- Built-in 75mm switch with two 3.5mm sockets for extra switches.
- Independently programmable switch functions for versatility.
- Supports single-switch auto-scanning using iOS Switch Control.
- Timed play settings enable 10 or 30 seconds of media playback.
- Rechargeable lithium-ion battery via supplied USB cable.
- Durable design with a 20-metre operating range.
- Manual power-off and lock features prevent accidental activation or changes.

IS0742

Micro Light Switch

A highly sensitive switch requiring minimal force, ideal for users with limited movement.

- Compatible with devices requiring a 3.5mm mono switch input.
- Activation surface: 4.5cm x 1.3cm.
- Activation force: 11g.
- Provides auditory click and tactile feedback.
- Compact design suitable for various mounting options.

IS2374

Ping Pong Switch with Mounting Arm and Clamp

An innovative, highly sensitive switch designed for individuals with minimal movement.

- Light-action activation requires minimal force, ideal for users with limited mobility.
- Water and moisture-resistant for reliable performance in various environments.
- Includes Gooseneck arm, Super Clamp, and Mini Ball & Socket mount for flexible positioning.
- Ideal for head use, providing practical solutions for assistive needs.
- Compatible with devices requiring a 3.5mm mono switch input.
- Activation force: 65g.
- Activation area: 3.5cm.

IS3182

Quha Kajo Soft Button/Pillow Switch

Quha Kajo Soft Button is a soft switch with a large, cushioned surface, ideal for head-controlled activation.

- Soft foam layer enables safe and comfortable pressing.
- Secure safety pin attachment ensures stability during use.
- Easily attachable to pillows or fabric surfaces.
- Dirt-resistant, skin-friendly cover for hygiene and comfort.
- Washable and replaceable cover (up to 60°C).
- Compatible with devices requiring a 3.5mm mono switch input.
- Includes one cover.

IS1334

Simple Switch Interface

A straightforward USB interface that connects two switches to a computer, facilitating access to switch-enabled software for people with physical disabilities.

- Supports functions such as Space/Enter and Mouse Clicks.
- Retains mode settings even when powered down, ensuring consistent operation.
- Plug-and-play design requires no additional drivers.
- Equipped with two 3.5mm sockets to connect your preferred switches.
- Compact and lightweight for easy portability.
- Compatible with PC, Mac, Chromebook, and other devices supporting USB input.
- Powered via USB connection.

IS1219

SimplyWorks Receive:2

A compact USB WIRELESS receiver enabling seamless connection of multiple SimplyWorks devices to a computer without additional drivers.

- Supports up to six SimplyWorks transmitters simultaneously.
- Compatible with PC and Mac platforms via USB.
- No additional drivers required for installation.
- Caps Lock and Drag Lock indicator LEDs for user convenience.
- Wireless range exceeds 10 metres, ideal for classroom settings.
- Compact design for easy integration into various setups.
- Dimensions: 7 cm x 2 cm x 1 cm.
- Weight: 20 grams.

IS1217

SimplyWorks Switch 75mm (requires Receive:2)

A low-profile wireless switch designed for seamless accessibility and control.

- Compatible with all SimplyWorks receivers for versatile switch access.
- 75mm activation area with a low activation force of 50-115g.
- Wireless operation with a 10-metre range for flexible positioning.
- Integrated LED display for easy function selection in computer access.
- Supports mouse emulation and keyboard functions.
- Easily mounted using industry-standard fixing holes.
- Requires 1x CR2032 battery (included).

IS1771

Smoothie Switch - 75mm or 125mm

A low-profile switch for persons with a physical challenge to access switch adapted toys, communication devices and environmental controls.

- Available in two sizes: 75mm diameter or 125mm diameter.
- Operates across the entire surface for consistent responsiveness.
- Angled design with a low profile for easy access.
- Low operating force with tactile feedback for user assurance.
- Available in four colours: red, yellow, blue, and green.
- Secure switch top is not easily removed which reduces distractions.
- Compatible with devices requiring a 3.5mm mono switch input.
- Features standard fixing holes for easy mounting.

IS0753

Specs Switch

A compact wired switch with a 3.5cm activation surface, ideal for versatile mounting.

- Available in black, blue, green, red, or yellow.
- Includes a flush base and a strap base for flexible positioning.
- 183cm cord length for convenient device connection.
- Activation force of 100g with 0.06cm travel distance.
- Provides tactile and auditory click feedback.
- Compatible with devices requiring a 3.5mm mono switch input.
- Dimensions: 5cm x 5cm x 1.6cm.

IS1216

USB Switch

A low-profile 75mm switch with a built-in USB interface for versatile accessibility.

- Programmable for various keyboard, mouse, and gamepad functions.
- Advanced settings adapt for tremors, ataxia, and motor deficits.
- Two built-in 3.5mm sockets allow connection of additional switches.
- Works with PC, Mac, Chromebook, and Android tablets.
- Low-profile design with low operating force.
- Activation area: 7.5cm.
- Colour: Purple only.

IS2824

Vibe-Lite Switch

A switch providing tactile, auditory, and visual feedback for enhanced accessibility.

- Three operation modes: momentary, latch, or timed settings.
- Adjustable timer from 5 seconds to 2 minutes.
- Large 11cm activation area with an activation force of 85g.
- Provides sensory feedback, with features adjustable as needed.
- Lightweight and portable for ease of use.
- Compatible with devices requiring a 3.5mm mono switch input.
- Batteries: 2x AA (not included).

IS2647

Switch Adapted Toy - Bubble Fun Machine

A switch-adapted bubble machine designed for fun and engaging cause-and-effect activities.

- Activates bubbles with a simple press and release of a switch.
- Ideal for cause-and-effect learning and sensory play.
- Compatible with any 3.5mm switch (not included).
- Comes with 236ml of bubble solution for immediate use.
- Requires supervision during operation.
- Colour may vary.
- Size: 21x15 cm.
- Requires 4x AA batteries (not included).

IS3236

Switch Adapted Toy - Blue Whale Bubble Machine

A fun and engaging Blue Whale bubble machine designed for cause-and-effect activities.

- Activated with a 3.5mm switch (not included) for interactive play.
- Sends bubbles upwards for a captivating sensory experience.
- Ideal for developing cause-and-effect understanding.
- Includes 118ml of bubble solution to get you started.
- Size: 23x18 cm.
- Requires 4x AA batteries (not included).

IS2117

Switch Adapted Toy - Domino Train Set

A switch-activated domino train that builds lines of dominoes while chugging along, promoting cause-and-effect learning.

- Activated with a 3.5mm switch (not included) for interactive play.
- Places dominoes in a perfect line for knocking down.
- Sounds a bell for added sensory engagement.
- Encourages early switch use and motor planning.
- Requires 2x AA batteries (not included).

IS3183

Switch Adapted Toy - Flap and Wobble Penguin

A switch-adapted plush penguin toy that flaps, wobbles, and plays music to teach cause and effect.

- Activates flapping, wobbling, and music with a 3.5mm switch (not included) or by pressing its tummy.
- Features soft plush fabric, high-contrast black and white wing patterns, and crinkly feet to stimulate visual, tactile, and auditory senses.
- Height: 21 cm.
- Requires 4x AA batteries (not included).

IS1773

Switch Adapted Toy - Flappy the Elephant

A switch-adapted plush elephant that plays peek-a-boo and sings for interactive sensory play.

- Activates peek-a-boo or singing with two 3.5mm switches (not included).
- Also works by pressing Flappy's feet for manual activation.
- Sings 'Do Your Ears Hang Low' for musical engagement.
- Encourages cause-and-effect learning and sensory interaction.
- Height: 30 cm.
- Requires 3x AA batteries (not included).

IS2933

**Switch Adapted Toy - Laugh and Learn Big Pink Puppy**

A switch-adapted plush puppy that encourages movement, learning, and sensory play with music and lights.

- Activates with a 3.5mm switch (not included) or by pressing its belly.
- Includes 90+ songs, sounds, tunes, and phrases.
- Teaches alphabet, counting, colours, and animal sounds.
- Features soft paws for interactive high-fives.
- Encourages sensory engagement and cause-and-effect learning.
- Height: 40 cm.
- Requires 3x AA batteries (not included).

IS2971

Switch Adapted Toy - MP3 Player
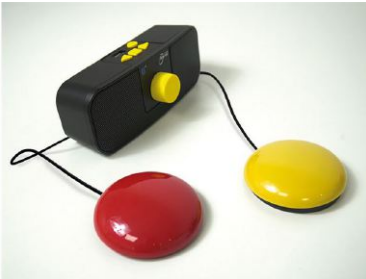

A switch-adapted MP3 player designed for accessible music and audiobook playback in any setting.

- Play/Pause and track navigation controlled via two 3.5mm switches (not included).
- Supports MP3 and WAV file playback for versatile audio use.
- Features a 3.5mm headphone socket for private listening.
- Ideal for users with visual impairments, Alzheimer's, autism, or motor challenges.
- Built-in rechargeable battery provides 4-6 hours of playback.
- Size: 18x8x5 cm.

IS2614

Switch Adapted Toy - Pip the Penguin / Dancing Penguin

A switch-adapted dancing penguin that waddles, flaps its wings, and squeaks for interactive play.

- Activates movement and sounds with a 3.5mm switch (not included).
- Engages children with enthusiastic waddling and wing flapping.
- High-contrast black, white, and red design ideal for children with CVI.
- Encourages cause-and-effect learning and sensory engagement.
- Requires 2x AA batteries (not included).

IS1213

Switch Adapted Toy - Robbie Rabbit / Bouncing Bunny

A switch-adapted rabbit that hops, raises its ears, and squeaks for engaging cause-and-effect learning.

- Activates movement and sounds with a 3.5mm switch (not included).
- Hops forward, sits up, lifts ears, and squeaks for interactive play.
- Encourages early switch use and motor engagement.
- Provides a fun and motivating sensory experience.
- Requires 2x AA batteries (not included).

IS3264
